2020 Allied Semen and Genetics

Allied Customers and Friends:

Welcome all to the 2020 issue of the Allied Semen Directory. Each and every year, Allied and its partners strive to promote a large selection of bulls in this publication that truly offer profit improvement to the larger beef industry and help insure its long-term sustainability. We feel blessed this year to be adding some truly special new sires, 30 in all, to the list of bulls we offer as a business and yet we are also committed to an ever-larger group of highly proven options that have withstood the test of time and are the choice of so many producers.

As always, one of our goals is to push the envelope on what is possible from a genetic improvement perspective. After all, if we do not offer consistent and positive progress for profit traits with each new generation, we are failing at our primary purpose for being involved in the seedstock business. For example, this year’s set of 37 Purebred and ¾ Simmental bulls average well into the top 1% for both, third party validated ASA profit index EPDs of $API and $TI and provide the kind of useful, practical and even enviable phenotype that producers from all segments of the beef industry demand. In addition, these bulls are backed by many of the highest reputation herds in this nation regardless of breed. You can depend on their commitment to quality, consistency and practicality coming through in the selection.

We hope you will appreciate the great calving ease, rapid, efficient growth, premium carcass value and unequalled maternal promise that come with sires from the first page to the last. Make sure you check out our front-end Red Angus, Angus and Brangus options for this year as well.

Thanks once again to our partners at ORIgen for their service to our business and the way they treat our great customers. I also would be remiss not to thank Rocky Forseth and Julie Murnin for all they do to help put this publication together each year, and to our many bull owners who put faith in our vision. At Allied, our programs are absolutely designed to promote the success of the many for the benefit of a healthy and more prosperous beef business.

Sincerely,
Marty Ropp, Founder
Allied Genetic Resources

WWW.ALLIEDGENETICRESOURCES.COM

Serious Genetic Value.
ORIgen is a proud partner of Allied Genetic Resources. ORIgen and Allied Genetic Resources are two genetic companies, owned by breeders, that have united to help both groups of breeders market their Master Breeder Genetics. Through this partnership, you as customers can purchase semen from both organizations through one location by simply contacting an Allied representative or ORIgen. ORIgen is also a custom collection facility that collects and distributes Allied sires.

EPDs listed current March 20, 2020.

www.ORIgenBEEF.org
HOMOZYGOUS BLACK, HOMOZYGOUS POLLED || PB SM
ASA# 2854180  DOB: 2/17/2014  Tattoo: 56B

Owned by:
Koch Cattle  ||  Gateway Simmental  ||  Diamond Peak Cattle  ||
Huntley Bros.  ||  Hook Farms

- One of a kind proven Purebred sire of value to enhance total profit for the beef business.
- The more data that comes in the more dominant his genetic profile becomes. Currently the #3 most used sire for Reg. at ASA.
- At publish date he ranks as the #3 $API and #6 $TI proven Purebred (WW Acc .93) in the breed. #5 for MB EPD and #1 overall sire for REA.
- Slam dunk calving ease choice for mating heifers of any breed.
- Beacon is a true improver for feet as well, consistently siring extra heel depth and exceptional claw shape!
**HOMOZYGOUS BLACK, HOMOZYGOUS POLLED || PB SM**

**ASA# 3253795 | DOB: 2/15/2017 | Tattoo: 65E**

**Owned by:**

*All Beef LLC || Encore Cattle and Genetics || Hook Farms*

- Terrific and balanced EPDs with eye appealing phenotype and marketability!
- Big time carcass genetics with top 1% Marbling and top 1% Ribeye EPDs
- Been successfully used on heifers and definitely improves disposition.
- Improving feet, legs and structure are among his greatest strengths.

Cowboy Cut 5048Z, Maternal Grandsire of Heisman

Koch Big Timber 685D, Sire of Heisman
• The $20,500 top selling purebred bull in the 2017 Triangle J sale is a phenotypic and genetic star.
• “River” is in the top 2% for calving ease, 2% for weaning weight, 3% for yearling weight and docility, 2% for maternal calving ease and milk, and top 1% for maternal weaning weight, stay, carcass weight, shear, API and TI.
• River ranks in the top 4% of 13 traits and indexes! He excels in calving ease, growth, maternal and carcass- a rare bull that excels across the board and his EPDs continue to improve as more progeny are reported. Importantly,
• River’s calves carry his attractive phenotype and are regularly the most popular calves with visitors to the farm. We all are looking for that bull with outlier EPDs that passes on a great look. River is that bull.

- The logical next generation to follow up on All Aboard’s powerful legacy.
- Physically dominant, he was the $29,000 standout red bull at Keller’s 2020 crop.
- Maternal half-brother to KBHR Sniper, but much stouter and physically more powerful.
- Tremendous spread from start to finish. Top 4% CE, top 1% WW all the way to top 5% MB and top 1% REA.
- Deep sided and massive from end to end, he also offers impeccable joint angle and feet.
- Out of KBHR Sniper’s dam, but much stouter and more powerful.

Allied Force Son from Great Lakes Beef Connection

Homozygous Black, Homozygous Polled || 5/8 SM 1/4 AN 1/8 AR
ASA# 2654476       DOB: 1/15/2012       Tattoo: 2630Z

Owned by:
J/C Simmentals || Salinas Farms || Trinity Farms

- Allied Force is absolutely as consistent at siring great replacement females as any sire we have ever sold semen on.
- His daughters are high producing, moderate, easy fleshing, great uddered, dream come true commercial females.
- Fabulous Docility and Maternal Calving Ease are a great combination too and add to his daughter STAY.
- Allied Force is simply the kind of bull you can breed to 500 cows or heifers and never look back.

Sires amazing consistency and quality with gorgeous phenotype to match his own.

Evaluates a top-rated G+ ATM using futuristic RightScreen technology.

Consistently passes his extremely quiet disposition and demeanor on to his calves.

Expect deep sided, correctly structured, right-sized progeny with heifers that easily rise to the top of the replacement pen.
**CCR SPARTAN 9124A**

- A proven legacy of show-stopping phenotype with extra performance and a legendary dam.
- Clean pattern, level hipped, gorgeous typed progeny stamped into every calf he sires.
- Daughters are attractive, gentile females that are appropriately conservative for milk as 2 year-olds.
- CCR MS Apple is also famously the dam of 184 calves including multiple stud bulls like Wide Range, Santa Fe, Gravity and Abilene.

New River is a complete outcross SimAngus option and proving to be one of the best heifer bulls available in any breed.

At +20 for CE and -4 BW with solid proof, he is made to breed heifers and his own daughters are making great looking, low maintenance cows.

With Ranch Hand and Magnum on the Sim side and DJ Analyst and SAF Strategy on the dam side, he is highly unrelated to most popular SimAngus.

Would be a tremendous choice for commercial heifer breeding programs as well.
### MR ISHEE JUSTIFIED 605D

Calving Ease assurance at its best! Definitely, a ‘GO TO’ sire for heifers!!!

His 63 lbs. actual BW and 121 BW ratio, plus top 1% CE, BW, MCE, STAY, MARB and API credentials insure his predictability.

Phenotypically, he is ‘something special’ with pleasing eye appeal, a big top, excellent thickness, extra volume, moderate framed and super sound feet and legs.

His dam is an extraordinary donor sired by the top ranking CE, BW, MCE, MILK, STAY, MARB, API and TI sire, BAR CK Tebow 1006X.

Synchronize a bunch of heifers to him and know next calving season that you can sleep all night!

ASA# 3117102 DOB: 3/26/2016 Tattoo: 6219D

Owned by:
APEX Cattle || T-Heart Ranch || Magill Farms

$37,500 Record Selling bull at the 2017 T Heart Ranch sale, and appraised by many as Nightride’s finest son.

Calves easily, with impressive, easy calving birth weights and the right head and shoulder shape.

Massive individual phenotype with exception rib shape, muscling and body dimension.

His dam is simply an ideal female for size, fleshing ability, structure and udder design.

• One of the most intriguing Brangus bulls we have come across to date.
• Unlike most Bos Indicus cattle, 1900E is 3-Dimensional from every angle, with exceptional feet that point in the right direction.

• Very athletic on the move, in a moderate long spine package.
• Deep sided with a big sweeping turn to his rib.
• Backed by a cow family that has stood through the test of time, that’s produced very maternal individuals.

Improved Buying Confidence with Greater Genomic ASSURANCE

Access to more and better information has always been key to making wise decisions. The evolution and improvement of genetic evaluation tools too has given us an ever-clearer picture of the true genetic makeup of cattle and thus a better view of the value proposition. RightMate, powered by Top Genomics LLC is taking the evaluation of genetics and genomics one giant step further. By combining specific genomic information with the long-proven value of EPDs, this new advancement in technology improves our depth and precision when evaluating the actual ability to transmit value and profit.

The 3 Accreditation Logos below are designed to simplify bull selection and improve buyer confidence by more accurately describing the genetics offered and by reducing risk. What this means to you as a customer is a much greater assurance that you are getting both what you want and need from the genetics you purchase. What it means to your seedstock provider is access to RightMate technology that simply sets them apart from the rest of the industry.

ACREDITED GENOMIC PLUS – For the majority of producers who simply need consistent and balanced genetic improvement, without genomic setbacks, G+ Accredited bulls should be on your list for premium purchase. These sires will absolutely move you forward for both cost reduction and income producing traits and substantially reduce risk when compared to all other evaluation programs. It’s simple, the right genes are in these bulls to help secure a profitable future and the they have great EPDs to match!

ACREDITED TERMINAL MATE – Just like an ATM machine makes it simpler to access your cash, the ATM Logo highlights bulls accredited to generate extra cash income as soon as your next calf crop! These bulls are meant specifically to use only on mature cows and for the purpose of adding performance, pay weight and end product value to market.

ACREDITED CALVING EASE – Simply find bulls with the ACE logo for third party Accredited, secure Calving Ease bulls. Though we have had tools in the past to assist in choosing heifer bulls, we’ve never had one nearly this effective. The reduced risk that comes with this genomic certification will simply make your decisions easier and your heifer calving season more successful. Purchase special purpose ACE bulls with confidence. They will deliver consistent and predictable calving ease.
