

Cow Camp Ranch

SPRING BULL SALE

Saturday **January 20** 2024
1:00 PM CT

Lost Springs, KS

New Date
— SAME —
QUALITY

Welcome

Welcome to the Cow Camp Annual Spring Bull Sale! We know this year has been tough for a lot of producers, but we hope some fall rains and strong cattle prices have things looking up for everyone. This year's offering includes one of the strongest set of bulls we've ever raised here at Cow Camp. The lead off Bonafide sire group is exactly what you'd expect a lead off sire group to look like. Beef bulls with a commanding presence and the numbers to back it all up. You'll also find another excellent set of Pounder and Triple Crown sons that have been favorites in past years. Other highlights include some of the first sons of KBHR Bold Ruler, CCR Cochise and CLRS Herdbook as well as a KBHR Honor sire group loaded with quality. This may well be the best set of bulls we've ever produced!

As always, we are offering the entire 2023 spring born heifer calf crop. It includes several top ET matings and progeny from many breed-leading sires and dams. Also selling are 18 fancy December and January calving pairs. This select group of heifers were AI bred late and cleaned up with the CCR Cochise bull and most will have a calf at side by sale day. This year you will also have the unique opportunity to select from our entire spring calving herd. We made the decision to disperse the remaining spring calving cows and it will include several past and present featured donors here at Cow Camp. Decades of genetic selection that are guaranteed to move your program forward will be offered.

We hope you can join us sale day, but if not, the sale will be broadcast on Superior Livestock and online bidding again available through Superior Click-To-Bid. If you have any questions on the offering or would like to view them prior to sale day, please feel free to contact us and schedule a visit.

Thanks again for your interest and we look forward to seeing you again January 20th.

Sincerely,
Cow Camp Ranch
The Brunner Family

Gary Schubert, Tracy Brunner, Kent Brunner, Tucker Day, Mark Brunner, Brody Bryant, Nolan Brunner, Lance Day, Kolton Aubuchon, Byron Noeth, Trent Turner, Travis Kitzmiller, Noah Brunner, Bryant Brunner, Tanner Brunner, Amanda Britton

Thank you to our great Cow Camp Crew.

TERMS & CONDITIONS

Terms of the sale are cash and all cattle become property of the buyer at the time of sale. All animals will be sold in accordance with the Suggested Sale Terms and Conditions of the American Simmental Association unless other terms are stated in this catalog. All announcements made sale day take precedence over printed material in this catalog or other printed material associated with this sale. All cattle will be registered with the American Simmental Association and those papers will be transferred after the sale. Please note all EPDs will change between the time this catalog is printed and the day of the sale. All EPDs in the catalog will be current as of the day they are printed. Owners, their agents or any of the sale staff will not be held responsible for any personal injury, loss or accident while attending this sale.

LIVESTOCK INSURANCE

We cannot guarantee against injury, frost bite, disease, mismanagement, or death. Therefore, we recommend you insure your purchase. If you would like the full protection of mortality and/or loss of use insurance, please contact Jared Mohnen with Dakota Ag Insurance at 605-999-4475.

SEMEN AND INTEREST

Selling full possession and 100% semen interest on all bulls unless otherwise noted in the sale book or announced prior to the sale. Cow Camp will retain the right to collect and/or use owner's semen on all bulls selling, for in herd use only.

BREEDING GUARANTEE

All bulls selling are guaranteed for fertility for the first breeding season. In the event a bull is deemed unsatisfactory the bull may be returned for a replacement bull of equal value or credit in the amount of the purchase price. All bulls selling have passed a complete BSE but should always be semen checked prior to turnout to ensure they are in proper breeding condition. Please contact Kent or Nolan about any issues prior to culling the animal. A signed veterinary statement may be required.

TRUCKING / FEEDING OPTIONS

- \$100 off bulls only picked up the day of the sale.
- Free delivery 300 miles to central locations on bull purchases of \$10,000 or more. Delivery past 300 miles will be prorated depending on the load. We guarantee delivery of bulls beyond 300 miles within the continental U.S. not to exceed \$400 per head. Delivery will begin February 20th, weather permitting. Bulls that do not qualify for free delivery can still be delivered at a reasonable cost depending on load and location.
- You may opt not to take your bulls at the time of their scheduled delivery and pick up at the ranch at your convenience. Any bulls not being delivered will be charged \$5 per head per day after March 1st until picked up.

Note: Trucking of the females will be the responsibility of the buyer. We ask that you try and find alternative trucking for them and that they be picked up no later than the week following the sale.

VOLUME DISCOUNTS

- 3 bulls = 3% off
- 4 bulls = 4% off
- 5 bulls or more = 5% off

CUSTOMER SATISFACTION GUARANTEE

We have done our best to represent the sale offering as they are, however our Customer Satisfaction Guarantee protects you against getting cattle that are not what you thought they were. If you have a problem with an animal, it's our problem. We are the only ones who can fix it, so please contact us and give us a chance to help.

HOW TO PARTICIPATE AS AN ABSENTEE BUYER

We have made preparations to bid and buy livestock through Superior Productions' "Click-To-Bid" service for those unable to attend in person on sale day. Please note that all of the lots in the sale will also be available for viewing online prior to sale day at www.superiorlivestock.com.

HERE'S HOW IT WORKS

CLICK-TO-BID

This is Superior's online bidding program for cattle buying. Please note that high speed internet is required – this is not for dial-up or satellite internet. Registration is free, but you must become a member of www.superiorclicktobid.com to sign up. Becoming a member is easy – just go to the homepage of www.superiorclicktobid.com and follow the out-lined steps to get started. Input your information and select a username and password. You will receive an e-mail confirming you are a member. From that point forward you just have to sign in and select the sale you would like to register for and once approved by the ranch you will receive an e-mail confirming which sale you are now registered for.

VIEWING THE AUCTION

The sale will be broadcast live in Hi-Definition on the internet at both www.superiorlivestock.com and www.superiorclicktobid.com. The video feed on the homepage of www.superiorlivestock.com looks the same as the video feed on TV and can be watched over a smartphone or tablet. Remember you can call in to bid whether watching on the TV or on the internet, but you must be a member of www.superiorclicktobid.com to "click-to-bid".

Bidders who are successful in making purchases via satellite or internet will be contacted by the ranch after the sale to settle payment and make shipping arrangements.

COW CAMP FEEDER CATTLE MARKETING OPTIONS

Cow Camp Inc, established in 1989, is our family-owned commercial cattle feeding operation. We have purchased and fed cattle from our bull customers for over 30 years now, and we will always continue to be active buyers of Cow Camp Genetics. There are several different feeding and marketing options as well as feed lot placement options. If you have any interest in selling or retaining interest in your calves through Cow Camp Feed Yard, please contact Tracy Brunner at (785) 965-2228.

Likewise, we have a strong relationship with Superior Livestock. If a customer has load lot capabilities, we would have an interest in assisting you with marketing your calves. We have numerous loads of calves with the Cow Camp and Allied logo marketed annually on Superior. We view it as an extremely effective avenue to market your calves with the largest buyer base across the U.S. If you have any interest in marketing calves do not hesitate contacting us.

Improved Buying Confidence with Greater Genomic **ASSURANCE**

Access to more and better information has always been key to making wise decisions. The evolution and improvement of genetic evaluation tools too has given us an ever-clearer picture of the true genetic makeup of cattle and thus a better view of the value proposition. RightMate, powered by Top Genomics LLC is taking the evaluation of genetics and genomics one giant step further. By combining specific genomic information with the long-proven value of EPDs, this new advancement in technology improves our depth and precision when evaluating the actual ability to transmit value and profit.

The 3 Accreditation Logos below are designed to simplify bull selection and improve buyer confidence by more accurately describing the genetics offered and by reducing risk. What this means to you as a customer is a much greater assurance that you are getting both what you want and need from the genetics you purchase. What it means to your seedstock provider is access to RightMate technology that simply sets them apart from the rest of the industry.

ACCREDITED GENOMIC PLUS – For the majority of producers who simply need consistent and balanced genetic improvement, without genomic setbacks, G+ Accredited bulls should be on your list for premium purchase. These sires will absolutely move you forward for both cost reduction and income producing traits and substantially reduce risk when compared to all other evaluation programs. It's simple, the right genes are in these bulls to help secure a profitable future and they have great EPDs to match!

ACCREDITED CALVING EASE – Simply find bulls with the ACE logo for third party Accredited, secure Calving Ease bulls. Though we have had tools in the past to assist in choosing heifer bulls, we've never had one nearly this effective. The reduced risk that comes with this genomic certification will simply make your decisions easier and your heifer calving season more successful. Purchase special purpose ACE bulls with confidence. They will deliver consistent and predictable calving ease.

ACCREDITED TERMINAL MATE – Just like an ATM machine makes it simpler to access your cash, the ATM Logo highlights bulls accredited to generate extra cash income as soon as your next calf crop! These bulls are meant specifically to use only on mature cows and for the purpose of adding performance, pay weight and end product value to market.

From the Sale Manager

Welcome to the 2024 Cow Camp Ranch Spring Bull Sale! What a great way to kick off our spring marketing run with an incredible offering of bulls and high valued replacements in Lost Springs, KS. Consistency from Lot 1 to Lot 185 is something that sticks out to us after going through the stout bull offering in 2024 at Cow Camp. Buyers have the opportunity to tie into massive sire groups with outstanding genetic predictors and impeccable phenotype. The females represent a great opportunity to add a key breeding piece or grow your herd in volume with some of the finest the CCR prefix has the offer.

Producers have opportunity to purchase two things when sourcing bulls and that is genetics and service. Cow Camp Ranch delivers in both of those aspects at the highest degree. The operation features one of the largest and longest running Simmental & SimAngus bull sales the country has to offer. The operation is well versed in maintaining an 800 seedstock operation, and feeding cattle in their 8,000 head capacity feedlot. Genetics who combine the maternal standard CCR is after while providing the product value needed for customers to capitalize on premiums is what producers get when you source your genetics from Cow Camp Ranch. From a service standpoint Cow Camp Ranch checks all the boxes. They offer a strong breeding warranty, affordable delivery, and most importantly an avenue for customers to feed and market their calves. Ultimately, when you march in a set of CCR sired feeders or fats they will be demanded from both the feeding and packing sector of the beef industry because of the strong reputation and demand for their genetics.

We hope you can join us on Cow Camp Ranch new sale date 1/20/24 for the largest offer of SimGenetics 2024 will have to offer. Feel free to view the cattle ahead of the sale anytime and as always if we can be any assistance to you feel free to contact us.

Sincerely,
Marty Ropp, Corey Wilkins and Jared Murnin

About the Bulls

DOCILITY RATING

All Bull lots will also have a Docility Rating. This is our own evaluation of the bulls and not based on their EPD. Both measurements should be considered when making a buying decision. The bulls are ranked 1-3. Anything worse than a 3 (4-6) has been culled from the herd. The definitions are as follows:

- 1 - Docile (Gentle and easily handled)
- 2 - Restless (Quieter than average, but can be stubborn)
- 3 - Nervous (Manageable, but may require a different level of management and respect when handling)

CALVING EASE STAR

All Bull lots have a Calving Ease Rating. This is a star rating system to help you select bulls based on how we believe they will calve. Always remember that the cow contributes 50% of the genetics and this should be taken into consideration when making your final mating decisions. The definitions are as follows:

- **** Can be used on virgin heifers with confidence
- *** Potential heifer bull, should be used on young cows first
- ** Acceptable calving ease, but should not be used on heifers
- * Terminal sire, should be used on mature cows only.

Cow Camp will retain 50% semen interest.

Huge spread bull with phenomenal docility, maternal traits, and carcass. Primal as we call him as been a standout since hitting the development pens. Primal unique combination of growth and calving ease is blended into such a pleasing phenotypical package. He is super athletic and striking from the side and studies with an immense amount of dimension and sheer mass. Primal will no doubt make his mark in the industry and has successfully frozen semen which was used in our fall herd. As an added bonus, you will also have the unique opportunity to purchase the dam of Primal as she sells as lot 239 of the spring cows.

CCR BONAFIDE 5116F SONS

Another huge spread Bonafide who reads with the most yearling weight and frame of the impressive sire group. He is backed by a truly impressive daughter of Treasure who her and her flush sisters are making their mark on our program raising the right kind year in and year out. If you want cattle who come light wean heavy and have unbelievable carcass Lot 2 is your guy.

CCR BONAFIDE 8081K Sells as Lot 3.

8081K is a looker when you go through the bulls. You are immediately drawn to this heads up, level, powerhouse son of Bonafide. He is the maternal brother to CCR Fire Power who went to our friends at Gibbs Farms and Trauernicht Simmentals. We feel this good-looking powerhouse will make a lot of friends on sale day.

CCR FIRE POWER 8081J Maternal brother of Lot 3.

CCR BONAFIDE

Every calf crop CCR Bonafide has given us has caused us to increase his use because his progeny are checking all the boxes. He is one of the best SimAngus bulls in the database for balanced trait excellence. His sons will supply ample calving ease, top tier growth, and end product value. His daughters feminine look, fleshing ability, and moderate size are making them standouts in production. Here is a sire group that will no doubt move your operation forward in a magnitude of different areas.

Cow Camp

Cow Camp is a proud sponsor of our very own PRCA cowboy Tanner Brunner. Congratulations on another good year and good luck in 2024!

GW TRIPLE CROWN
 Triple Crown sons just simply do no wrong for a program. They offer top tier calving ease, ample growth, strong carcass and maternal traits, while be bullet proof for docility. Ultimately if you are in search of reducing risk and adding genetic horse power the Triple Crown sons should be high on your list.

GW TRIPLE CROWN Sire of Lots 11-15.

A Triple Crown son who is a true brute for mass, performance, and stoutness. He blends top end performance, great carcass with strong maternal predictors. We have always admired the Triple Crowns for their genetic balance, but here is a son who studies with more visual horsepower for stoutness and mass while still being inbounds for CE and BW. He is another bull we chose to collect and sample in our fall herd.

CCR CROWN 0289K Sells as Lot 11.

Thank You TO SALE MEAL SPONSORS

REDUCE RISK WITH AGE ADVANTAGED BULLS

There are several important and logical reasons why commercial customers should consider purchasing bulls with a few more months of age and development on their side. Some of the benefits are obvious, but some others we don't always consider.

- Older bulls have the ability to service more females in a shorter period of time than yearling bulls. Age advantaged, 18-20 month old bulls should be capable of safely settling at least 5-10 more females in their first breeding season with minimal risk over a 45 day breeding period due to greater fitness, superior average semen production and maturity.
- Over-fat bulls are an issue in this industry. A high quality, slower paced development program is possible when producing older bulls for sale. Age advantaged bulls can simply be developed more slowly and still reach target weights and marketable condition with ease. Too often bulls developed to be sold as yearlings are subjected to extra push nutritionally in order to make those same thresholds. When done improperly, the results can be reduced longevity and lifetime service because of damage to feet, soft skeletal tissues and in extreme cases even internal organs associated with excess or faulty nutrition and exaggerated growth rate.
- Certainly, older bulls lose less weight and strength during their first breeding seasons. With that in mind the risk of your bull taking a week off or quitting the process of breeding cows completely is reduced. This is especially true in the more challenging breeding environments of the southern US.
- More of the guess work is taken out when purchasing older bulls. Strengths and flaws can both be more evident to buyers with an extra 6 months of development. For example, by that age foot and leg or disposition issues will be more evident and a higher percentage of potential problem bulls should have been identified and removed from the offering.
- Sorting older bulls does not give license to buy poorer genetics just because they have more age. It is important to make sure the age advantaged bulls you are evaluating are not just the leftovers after the more valuable bulls were not marketed as yearlings and low genetic value bulls should never be an option, regardless of age.

Many producers will always favor purchasing high value, younger bulls because of the potential of an extra season of use later in life and often sellers prefer the simplicity and lower cost of producing them. Correctly developed older bulls however, simply have a greater probability of breeding success in the first season than when they were younger. Give them a try for reduced risk.

CCR POUNDER 2045F SONS

CCR POUNDER 5429K Sells as Lot 21.

LOTS 21-25

The Pounders X 9524G flush represents the cattlemen's kind. We made the mating to with the intent to multiply good ones and in that aspect the mating was a home run. The bull's study with very balanced genetic profiles and super pleasing phenotypes. The pedigree stacks some of our top producing cow families and we fell these sons offer tons on predictability and quality.

KBHR BOLD RULER H152

Here is an opportunity for new blood for old customers. Bold Ruler is a purebred bull we tested this year and have been extremely satisfied with the results. The bulls are striking for phenotype, and offer no holes in their genetic profile. If you are looking for higher percentage bulls, they are bound to be some of your favorites.

KBHR BOLD RULER H152 Sire of Lots 33-43.

CCR HONOR 8614K Sells as Lot 49.

LOTS 49-53

The Honor sons in the offering all come from our embryo program. They are some great beef bulls and will add an immense amount of rib, body, mass, and functionality. Their genetic profiles studies with excellence across the board and will increase overall profitability for your cow herd. The dam of lots 49-53, 0434H is a direct daughter of the 7001E donor, dam of lots 46-48. These bulls are loaded with maternal excellence.

LOTS 54, 55

Study the pedigrees in lots 54 and 55 and it is stacked some of the proven greats in the industry. We feel the Honor X Cowboy Cut flush is the most attractive and most visually pleasing from a balance standpoint. Likewise, from a genetic standpoint they check all the boxes and will no doubt make their mark on a program.

**HONOR X 8640F
FLUSH BROTHERS**

JC MR HURON 7262G
 Some of the biggest spread bulls from birth to yearling can be found in the Huron sire group. If you like cattle with added size and mass the Huron sire group will be the sire group to study closely.

JC MR HURON 7262G Sire of Lots 56-60.

ASA QUICK REFERENCE TO EPDS, INDEXES AND \$VALUES

EXPECTED PROGENY DIFFERENCES (EPDS): EPDs are the most accurate and effective tool available for comparing genetic levels. In using EPDs, the difference between two sires' EPDs represents the unit difference expected in the performance of their progeny. For example, if sires A and B have EPDs of +10 and -5, a 15-unit difference would be expected in their progeny (moving from -5 to +10 yields 15 units). Key to using EPDs is knowing in what units they are expressed. For example, if the above case referred to weaning weight EPDs, sire A would be expected to sire 15 pounds more weaning weight than sire B. If calving ease was the trait, sire A would be expected to sire 15 percent more unassisted births in first-calf heifers; in other words, if sire B sired 30 assists in a group of 100 heifers, we would expect sire A to require 15 assists. A percentile-ranking chart is required to determine where a bull's EPDs rank him relative to other bulls in the breed. For more detailed information about EPDs and \$ indexes, visit www.simmental.org.

Listed below are the units in which ASA EPDs are expressed:

- ALL-PURPOSE INDEX (API):** Dollars per cow exposed under an all-purpose-sire scenario. (See \$ Indexes for more details.)
- BACK FAT (BF):** Inches of carcass backfat at 475 days.
- BIRTH WEIGHT (BW):** Pounds of birth weight.
- CALVING EASE (CE):** Percent of unassisted births when used on heifers.
- CARCASS WEIGHT (CW):** Pounds of carcass weight at 475 days.
- STAYABILITY (STAY):** Percent of daughters remaining in the cow herd at 6 years of age.
- DOCILITY (DOC):** Percent of offspring receiving a disposition score of 1 (docile).
- MATERNAL CALVING EASE (MCE):** Percent of unassisted births in first-calving daughters.
- MILK (MLK):** Pounds of weaning weight due to milk.
- MARBLING (MARB):** Carcass marbling score at 475 days.
- MATERNAL WEANING WEIGHT (MWW):** Pounds of weaning weight due to milk and growth.
- RIBEYE AREA (REA):** Square inches of carcass ribeye at 475 days.
- TERMINAL INDEX (TI):** Dollars per cow exposed under a terminal-sire scenario. (See TI for more details.)
- WEANING WEIGHT (WW):** Pounds of weaning weight.
- YEARLING WEIGHT (YW):** Pounds of yearling weight.
- YIELD GRADE (YG):** Carcass yield grade score at 475 days.

\$ INDEXES: Though EPDs allow for the comparison of genetic levels for many economically important traits, they only provide pieces of the economic puzzle. This is where \$ indexes come in. Through well-conceived, rigorous mathematical computation, \$ indexes blend EPDs and economics to estimate an animal's overall impact on integrated commercial production. The same technology that led to the dramatic progress in swine, poultry and dairy genetics over the last several decades was used to develop the following \$ indexes:

- ALL-PURPOSE INDEX (API):** Evaluates sires for use on the entire cow herd (bred to both Angus first-calf heifers and mature cows) with the portion of their daughters required to maintain herd size retained and the remaining heifers and steers put on feed and sold grade and yield.
- TERMINAL INDEX (TI):** Evaluates sires for use on mature Angus cows with all offspring put on feed and sold grade and yield.

USING API AND TI: First, determine which index to use; if you are keeping replacements use API, if not, use TI. Then, just as with EPDs, zero in on the unit difference between bulls. (As described above, index units are in dollars per cow exposed.) The difference can be used to determine how much a bull is worth compared to another. Put another way, how much you can pay for one bull compared to another. For example, when buying an all-purpose-type sire, you can quickly figure a bull scoring +10 for API is worth an extra \$6,000 over a +50 bull if both are exposed to 30 cows over 4 years (\$50 diff. x 30 hd. x 4 yr.= \$6,000). A percentile-ranking chart is required to determine where a bull's index value ranks him relative to other bulls in the breed.

For more detailed information about EPDs and \$indexes, visit: www.simmental.org Important disclaimer: DO NOT compare index values of purebreds of different breeds, hybrids of different breed composition or purebreds with hybrids - our system was not developed to make valid comparison among these groups. Therefore, you must first determine the breed and breed composition appropriate for your herd and use index values to compare animals within that population.

CLRS HERDBOOK 316H
 Herdbook is one of the best bulls we have ever ran for handling the details. The cattle are superb for docility and truly impressive to study in the flesh. He covers all the traits you admire out of his famous sire Triple Crown while adding even more punch from a growth and muscle standpoint. We promise any cattlemen will admire the Herdbook sons.

CLRS HERDBOOK 316H Sire of Lots 61-73.

CCR MS COWBOY 7662E Dam of Lot 72.

A DIFFERENT APPROACH TO BULL DEVELOPMENT - GROWN SLOW TO INCREASE LONGEVITY FOR YOU

The shift in our operation to develop 18-month-old bulls has allowed us to become more creative in our bull development program, in order to deliver a better product to commercial cattlemen.

All our bulls within the sale offering come in a fall born 18-month-old package. Pre weaning our development process looks similar to how every commercial cattleman runs their cattle. We look for cost effective feedstuffs and maintain the calves at a level or nutrition which will show their genetic potential. Our fall born calves come into weaning pens in April in May and are left there for a few weeks to monitor health and we begin making culling decisions for our bull sale.

Post weaning is where our bull development is vastly different versus most. After weaning and monitoring them for a few weeks for health the bulls are then returned to forage for the summer months. They graze a variety of native forages the Flint Hills has to offer along with Triticale. When summer ends the bulls will weigh near 1,000 pounds for their yearling weight. After Labor Day the bulls return to headquarters, and we begin feeding them a more traditional bull development ration ahead of our bull sale.

Our goal has always been to sell bulls that hold up well but feel this type of development is another step to ensure longevity and added breeding ability in the bulls that you purchase here. We think you'll find the bulls sound on their feet and legs, athletic and ready to endure that first breeding season that typically is the hardest on them.

GIBBS 8025F RANGER

We have been extremely pleased with what we have seen out of the Ranger sons. The sons offer fresh outcross genetics to old customers. The bulls are moderate in size and built like bricks. They supply incredible rib shape and mass and will be well received on sale day.

GIBBS 8025F RANGER Sire of Lots 74-80.

CCR BOULDER 1339A

Bolder has become one of the highest proof SimAngus bulls in the industry. The cattle come light at birth and grow rapidly thereafter. The cattle check all the boxes from a fundamental standpoint and will leave you with the type of replacement that will keep you in business for years to come.

CCR BOULDER 1339A Sire of Lots 81-85.

CCR WACO 4142G

Some of the very best heifer bull candidates we have in the entire offering come from the CCR Waco sire group. The bulls are super complete in their build being easy keeping, great footed, and super sound on the move. We feel the sons will be great choice for calving ease sires and have the type of replacements to build your herd around.

CCR WACO 4142G Sire of Lots 87-90.

Need More Calving Ease?

85% of the bulls in the offering have DOUBLE DIGIT CED EPDs.

HOOK'S GALILEO 210G

Galileo is one of the best true big spread bulls who is high accuracy in the ASA database. The bulls will no doubt be calving ease-oriented sires who will provide ample growth and top tier profit indexes. The bulls are not only outliers on paper as they are easy to admire for their type and kind as well.

HOOK'S GALILEO 210G Sire of Lots 91-98.

Need More Genetic Value?

85% of the bulls in the offering
 received a G+ logo.

TJ 50K 485H

Big massive herdisres with impressive growth and phenotype can be found in volume in the TJ 50K sire group. He represents the total package and feel like he will be consistent producer for us moving forward. Likewise, the daughters will no doubt be high valued replacements you can build a herd around out the 50K genetics.

TJ 50K 485H Sire of Lots 99-107.

TJ FROSTY 318E

We wanted to test a baldie bull to give buyers an option of a few more BWF bulls and we are glad we landed on Frosty. The bulls are deep sided, squared made and many come in a blaze faced package. Likewise, the bulls excel at the details being great for disposition and hoof quality. The consistency and quality Frosty transmits to his progeny rivals any baldie bull we have utilized in the past.

TJ FROSTY 318E Sire of Lots 108-117.

GW COPPERHEAD 919G

We have been lucky enough to have the opportunity to run Copperhead the last couple of years from our friends from ABS. He is a specimen to get to see in the flesh. The bull is massive bodied, heavy muscled while being a great heifer bull option. We have pushed hard to beef up our red program and these Cooperhead sons will impress on sale day.

GW COPPERHEAD 919G Sire of Lots 118-127.

GW HILGER ONE 454H SONS

GW HILGER ONE 454H
Hilger One sons will impress you on sale day with their added growth and strong maternal predictors. If you are looking for red bulls to produce heavy calves at marketing time while having the type of replacements to build a program around the Hilger One sons will be some to circle on sale day.

GW HILGER ONE 454H Sire of Lots 128-133.

CCR HILGER 0404K Sells as Lot 128.

TJ GOLD 274G Sire of Lot 151.

BJ ASHLAND 8234 Dam of Lot 151.

A great first generation SimAngus herdbull who is backed by a wonderful Angus female. He receives the ACE logo on the RightChoice genomic screening and will be a great candidate to use on heifers. Along with superb CE he studies with wonderful phenotype and a great combination of marbling and ribeye.

 DAUGHTERS**

HOOK'S GALILEO 210G Sire of Lot 193.

OPEN HEIFERS

LOTS 194, 195

Two big time power heifers who are true brutes for power while being striking for balance and eye appeal. They study with big time growth numbers and will raise the sell topping kind in their future. Their Justified donor dam is one of our favorite young females.

TJ WAR PAINT 759J Sire of Lots 194-195.

LOTS 200-202

A trio of unique purebred females who has all the genetic pieces and phenotype to make a big impact for their new owner. The 7130 donor has been a great producer for us in years past but these three open females are some of her very best. If you are wanting to beef up your purebred program look no further!

AI bred 5/5 to KBHR GUNSMOKE (3943843). PE 5/8 - 5/19 to LRS CROSSFIT (3887330). Safe to the PE and due 3/3. Confirmed bull calf.

A big-time producer for us in years past but when you sell all your Spring calving cows you must let them ALL go. She made it to the donor pen with her breath-taking phenotype and strong production record. Buyers might find a higher numbered female, but you will be hard pressed to find a better looking more proven producer than Lot 214.

BRED COWS

Here is a chance at a young donor female who has a big future ahead of her. You must love the War Paint females she has produced in the open division and her bull calves will no doubt be features in our April sale. Likewise, her fresh pedigree offers endless mating options.

CCR MS JUSTIFIED 0517H Sells as Lot 215.

A great producer for us who has strong flush records for us in the past. Her first Encore son sold to our friend Jesse Muller and her Honor bulls will be sale highlights this year. She is a true power cow who has added size mass and overall performance. She has proven to be a great bull maker for us in the past and is certain to have many more sale highlights in her in the future.

A rare opportunity to purchase the dam of the leadoff bull here. 8036F is stacked with maternal excellence as well as plenty of growth and carcass. The Command daughters have become mainstays in our herd...study the cow and it's no surprise her lot 1 bull is so complete. Cow Camp will retain a flush.

Spring Pairs

Lots 263-280 are a group of later bred first calf heifers, but the quality is still near the top. Most of these females will have a calf at side by sale day, bred to the breed leading sire CCR Cochise. This is a fancy set of heifer pairs with their whole career ahead of them.
