Tuesday, February 27, 2024

Selling 90 Simmental, Angus and SimAngus™ Bulls
49 Simmental, Angus and SimAngus™ Yearling Heifers

DVAuction
Broadcasting Real-Time Auctions

www.barkercattle.com

Welcome to the Sale...

Dear Friends and Fellow Cattlemen:

We extend a warm welcome to you as we approach our Annual Bull & Female Production Sale on February 27th in Burley, Idaho. We are thankful for friendships and continued support of our program and look forward to good things to come in the days ahead of us.

We seek to breed bulls that will not only look good on sale day, but will also go out to work on the range. Our offering is the result of studying data, following a strict animal health program, and staying in touch with the latest genomic trends as well. The purebred Angus Bulls have been 50K DNA tested as well as a select number of the Simmental bulls have genomic-enhanced EPDS. Watch for the breed symbols in the catalog representing those that have this testing done and take advantage of the benefits this can bring to your herd.

Family, friends, and others that have helped along the way are all truly appreciated for their contributions. We regularly update our website and social media pages with events that are happening so you can see our progress as well. We extend an open invitation to come and look through the bulls and females before sale day as we think you'll like what you see!

We hope to see you at the sale on February 27. If you're unable to attend, please know that every sale animal has been videoed and will be viewable from the website. We will be broadcasting the sale again this year via DVAuction. If you have any questions about this process, please feel free to contact us.

Thank you again for your interest and we look forward to visiting with you.

Sincerely,
The Barker Cattle Company Crew

Health Barker Cattle Company follows all the protocol of Zoetis Select Vac program. All animals unless otherwise noted on sale day will be eligible for interstate transport. A veterinarian will be on site during the sale to issue appropriate health certificates. All Bulls have been semen tested, trich tested, ear notched for BVD tested negative.

First Breeding Season Guarantee All bulls selling for \$2,500 or more are guaranteed for the first breeding season. A breeding season is defined as the 90 day period following the first turnout of the bull. If a replacement bull is available, he will be provided or if the buyer prefers, credit toward one bull will be given in the following sale, less salvage value of the injured bull. All injured bulls must be diagnosed by a veterinarian. Please notify us as soon as possible should injury occur and prior to the injured bull being sold for salvage.

Sight Unseen Guarantee/Absentee Bidding We realize it can be difficult for many of you to get away in the spring and we provide the following service to assist you. A 100% satisfaction guarantee for cattle purchased in your absence is offered if a designated representative of Barker Cattle Company makes the purchase for you.

Delivery Free delivery on any bull to a central point up to 200 miles. Free delivery on 5 or more bulls purchased up to 300 miles to a central point. All other deliveries made at cost. All cattle will be delivered at the buyer's risk and within a reasonable length of time after the sale. Females are not eligible for delivery options. We will offer a \$50 credit per bull if you haul it home on sale day!

For more information on how to register, see page 3.

Videos of the Offering Video previews for every lot will be available on our website, www.barkercattle.com or dvauction.com

Announcements All announcements from the auction block take precedence over statements in the catalog. We reserve the right to withdraw any sale lot not meeting our specifications prior to sale time.

Terms and Conditions All Bulls and Heifers will sell under Suggested Sale Terms and Conditions of the American Simmental Association and American Angus Association. Terms are CASH. All animals are to be paid for during or immediately after the sale and will not be released until after settlement has been made. Cattle will not be transferred until paid for in full.

Registrations/Transfers

BULLS: All bulls, unless otherwise noted in the sale catalog are registered. Buyer will be given registration papers at time of settlement unless they request an official transfer of the registration certificate.

HEIFERS: All heifer registration papers will be provided to the buyer at settlement, unless they request an official transfer.

Liability Barker Cattle Company representatives or any of the sale staff assume no liability, legal or otherwise for any accidents or injuries that may occur. Each animal will become the buyer's risk as soon as the animal is sold.

Breeding Guarantee Open Female Guarantee- We guarantee that all breeding age cattle sold by Barker Cattle Company are fertile to the best of our knowledge. If an open female is determined as a non-breeder by a licensed, agreed upon vet, we will credit you the purchase price of the female (minus market salvage value) as credit to the ranch or the cattle from the same ranch in the next sale. You must notify us before you cull any infertile animals.

Supplement Sheets Supplement sheets will be available prior to the sale with scrotal measurements and i50K test results on all Purebred Angus Bulls.

Turn left to merge onto I-86 W toward Airport/ American Falls/ Twin Falls, 58.2 miles. Continue on US 30 W, 0.6 miles. Merge onto I-84 W, 10 miles. Take exit 211 for US-30 toward Heyburn/Burley, 0.3 miles. Turn left onto ID-24 E/US 30 W. Continue to follow US 30 W, 4.7 miles. Turn right onto Occidental Ave, 282 ft. Destination will be on the left.

Marketing Your Feeder Calves

Here at Barker Cattle Company, we want to help you increase the value of your calves. To do this, we've joined Allied Genetic Resources to help give our customers access to more markets. Allied Genetic Resources has established a network of over 20+ (and growing) Allied Feeding Partners that feed over 4 million head of cattle per year. These feedlots are looking for cattle that grow and hit grid specs. By purchasing Barker Cattle Company Genetics, the Allied Feeding Partners will be interested in your calves. Let us know when you plan to market your cattle and let us see what we can do to help you gain more value for your calves.

By purchasing Barker Cattle Company Genetics, the Allied Feeding Partners will be interested in your calves. Let us know when you plan to market your cattle and let us see what we can do to help you gain more value for your calves.

Calving Ease and Heifer Bulls

Barker Cattle Company is very serious about providing our customers with bulls possessing adequate calving ease credentials. We have learned that calving ease is not an exact science where a given mating always brings guaranteed results. We have also learned however that EPDs, blood line trends, and low birth weights can be predictive and when used collectively can greatly assist the breeder in his bull selection.

We have talked with all the breed associations we affiliate with and have asked them what their standards are to qualify a bull as a "heifer bull". Most of the breeds will not discuss a set of standards with you. To summarize the collective answers we received, we must conclude that anything under breed average is generally considered qualifying as Calving Ease. We think most seed stock breeders are hesitant to use the "heifer bull" designation too loosely. We know we certainly are. We would strongly suggest that when EPDs are considered, a positive CE preferably in the +5 range and above is very desirable and a low BW EPD in the +2.5 range and below, even into the negative range, should be what a bull buyer looks for if calving ease is important to him/her.

Also, when selecting a calving ease bull, we suggest the birth weight ought to be in the low 80's and preferably 80 pounds or below. Birth weight has so many causative variables that it should not be used as the sole calving ease determinate by itself. The new 50K testing serves as a great qualifier regarding calving ease and this data is given in percentiles. This data will be available on all PB Angus bulls on sale day as a supplement sheet and their HD50K enhanced test results are reflected in the catalog EPDs.

4 Star Rating used for calving ease. 4 stars (****) = top calving ease

Calving Ease Stars

- **** Very suitable for heifer matings
- *** Suitable for heifers and very suitable for young cows
- ** Suitable for young cows, very suitable for older cows
- * Suitable for cows

American Simmental Association Quick Reference to EPDs, Indexes and \$Values

All-Purpose Index (API): Dollars per cow exposed under an all-purpose-sire scenario.

Birth Weight (BW): Pounds of birth weight.

Calving Ease (CE): Percent of unassisted births when used on heifers.

Carcass Weight (CW): Pounds of carcass weight at 475 days.

Docility (DOC): Percent of offspring receiving a disposition score of 1 (docile).

Maternal Calving Ease (MCE): Percent of unassisted births in first-calving daughters.

Milk (MLK): Pounds of weaning weight due to milk.

Marbling (MARB): Carcass marbling score at 475 days.

Maternal Weaning Weight (MWW): Pounds of weaning weight due to milk and growth.

Ribeye Area (REA): Square inches of carcass ribeye at 475 days.

Terminal Index (TI): Dollars per cow exposed under a terminal-sire scenario.

Weaning Weight (WW): Pounds of weaning weight.

Yearling Weight (YW): Pounds of yearling weight.

Yield Grade (YG): Carcass yield grade score at 475 days.

Horned/Polled Status

Homo: Homozygous

Hetero: Heterozygous

Homozygous polled means this animal has no horns, an all offspring from the animal will be born without horns. Pp = Heterozygous polled means this animal does not have horns, but offspring may or may not have horns depending on their mate.

Sc=Scurs are incompletely developed horns that aren't attached to the calf's skull, but are visible on their skin.

If an animal has two polled genes (PP), homozygous, or one polled and one horned gene (Pp), heterozygous, it will be polled. However, if it is heterozygous polled (Pp) it may pass either the polled or horned gene on to its' offspring. The only situation when an animal will be horned is when it possesses two recessive horned genes (pp), homozygous horned.

American Angus Association EPD Definitions

Calving Ease Direct (CED), is expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first-calf heifers. It predicts the average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers.

Birth Weight EPD (BW EPD), expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

Weaning Weight EPD (WW EPD), expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires.

Yearling Weight EPD (YW EPD), expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.

Maternal Milk EPD (Milk), is a predictor of a sire's genetic merit for milk and mothering ability as expressed in his daughters compared to daughters of other sires. In other words, it is that part of a calf's weaning weight attributed to milk and mothering ability.

Carcass Weight EPD (CW), expressed in pounds is a predictor of the differences in hot carcass weight of a sire's progeny compared to progeny of other sires.

Marbling EPD (Marb), expressed as a fraction of the difference in USDA marbling score of a sire's progeny compared to progeny of other sires.

Ribeye Area EPD (RE), expressed in square inches, is a predictor of the difference in ribeye area of a sire's progeny compared to progeny of other sires.

Weaned Calf Value (\$W), an index value expressed in dollars per head, is the expected average difference in future progeny performance for preweaning merit. \$W includes both revenue and cost adjustments associated with differences in birth weight, weaning direct growth, maternal milk, and mature cow size.

Feedlot Value (\$F), an index value expressed in dollars per head, is the expected average difference in future progeny performance for postweaning merit compared to progeny of other sires.

Grid Value (\$G), an index value expressed in dollars per head, is the expected average difference in future progeny performance for carcass grid merit compared to progeny of other sires.

Beef Value (\$B), an index value expressed in dollars per head, is the expected average difference in future progeny performance for postweaning and carcass value compared to progeny of other sires.

Take a look at the Bridle Bit Eclipse son! He is one of the standouts in the pen and when you look at his EPDs he is even better yet. He is a calving ease bull that ranks in the top 2% of the breed for \$API and top 10% for \$TI. He is a true Herd Bull prospect.

This bull has been a standout since birth. He has impeccable phenotype to match with his moderate birth and explosive growth. He is one of the best bulls ever produced at Barker Cattle Company.

I am excited to welcome you to the 2024 Barker Cattle Company Annual Bull and Female Production Sale. This is the very best set of bulls and females they have offered to date! When you look through this salebook, you will find good bulls from beginning to end. They have been developed right and are ready to go to work. The Country Boy sons have been favorites by commercial cattlemen in the past and the set of sons this year might be his best yet. The Bridle Bit Eclipse sons are phenomenal and might be some of the best sons I have seen by this great AI sire. Then throw in some sons of other top AI sires, as well as sons of their great herd bulls like Mountain Top and Riverbend Growth Fund, you have genetic power all the way through the offering.

If you are in the West, you know how important it is to use cattle that fit your environment. The bulls and females here at Barker Cattle Company have been raised and developed like their commercial customers run their cowherds. These cattle know how to climb the mountain to hustle for feed and water, and are adapted to thrive in our harsh winter conditions. These cattle are designed to work in the arid western environment and will add pounds to your calf crop and make excellent daughters to work in the herd for years to come.

If you have any questions about the offering or need assistance sale day, please contact us. Also, if you need assistance marketing your calves, please contact the Allied Genetic Resources team. We would be glad to talk about options to get your feeder cattle marketed in a system that fits your needs.

Sincerely,
 Marty Ropp, Corey Wilkins and Jared Murnin

EXAR STALLION 7986 Sire of Lot 117.

Barker Cattle Company is proud to support our 4-H and FFA youth. We are pleased to sponsor a beef judging day in the fall in conjunction with our Show Steer and Heifer Sale. FFA Chapters and 4-H youth are invited to come to the ranch in Elba and place pens of steers, heifers, and bull calves. Prizes are awarded to high individuals as well as teams. It is a great opportunity to evaluate cattle and learn more about the judging process. If you have any questions, please contact Sally 208-312-5571 or Aubrey 208-681-7891.

FAMILY

*Today's little moments
become tomorrow's
precious memories.*

As the oldest daughter of Ruel & Kay, Tammy Barker Sandstrom has been an integral part of this family. She has been diagnosed with Multiple Myeloma and is currently undergoing treatments. Our continued love and prayers go to her.

Tyler & Amanda were happy to have all 10 of their family back together again. Daughter, Charlee returned from her LDS mission to New York and son, Cash returned from his LDS mission to Montana.

Congrats, Kamri Ottley Taylor on graduating with Physical Therapy Assistant Degree.

Congrats to Braden & Aubrey as they welcomed a new baby girl., Hallie Kay, in June.

Preston Branham serving an LDS mission in Romania.

Bowdrie & Kaylie Ottley became new parents 2 1/2 mos earlier than planned. Roan Henry made his appearance 2 days after last year's bull sale. We are grateful for modern medicine, prayers, & donations on their behalf.

Drew Carter returned home from his LDS mission to Ohio.
