# CONSTANTLY CALIBRATING

## Jim Wulf Family

Welcome to the 2024 Bred for Balance sale. In this book you will find the largest offering of quality Simmental and SimAngus genetics we have put together to date! With few daylight hours this time of year, it is a great time to sit down and calibrate your herd's genetics. We feel this offering has endless potential to improve the genetic merit of ranches across the country. Browse through the lots, find the ones you like and please reach out to us with any questions you may have. During calving season, I, Travis, take the night shift so the best time to reach me is anywhere from 4-11 PM.

It sure has been an interesting year with some of the nicest fall weather we have ever seen allowing us to leave the bulls run out on pasture until December 18. This has been great for the development of athletic, high libido bulls that are ready to go to work getting cows bred. The females have been out getting their share of exercise as well and are in perfect condition to go on to their new homes and make long lasting, fertile cows.

Providing our customers with programs to enhance their bottom line is a constant work in progress and the most challenging endeavor to wrap our brains around. Thankfully, working with Allied helps us achieve some of these goals. If you are ever in need of assistance with the marketing of your feeder cattle, please let us know!

We look forward to seeing many of you at the events we have planned for 2024 here at Clear Springs to continue learning and calibrating towards a more profitable beef industry.

Thank you for your interest!

*Travis Wulf and the Bred for Balance Crew*

### SALE VIDEOS AND ONLINE BIDDING

The sale offering will be broadcast on TV screens for the auction. Come early and view the live cattle in their pens prior to the sale. Videos will be available before the sale at [www.bredforbalance.com](http://www.bredforbalance.com) and [www.alliedgeneticresources.dvauction.com](http://www.alliedgeneticresources.dvauction.com). For online bidding, visit [www.alliedgeneticresources.dvauction.com](http://www.alliedgeneticresources.dvauction.com) or the main DV Auction web page. For more information on how to bid online, see the graphic on page 2.

## SALE MANAGEMENT

Marty Ropp 406-581-7835  
Corey Wilkins 256-590-2487  
Jared Murnin 406-321-1542

[www.alliedgeneticresources.com](http://www.alliedgeneticresources.com)

## THREE-YEAR BREEDING SOUNDNESS WARRANTY

We strive to continuously improve on the development of our bulls and are confident these improvements have led to added longevity. So much so we are ready to expand upon our previous one-year warranty and offer a three-year breeding soundness exam warranty on all bulls purchased through the Bred for Balance sale. If for any reason other than an “act of God” your bull is not able to service cows, you will receive a credit back towards the next Bred for Balance sale.

- Before the bull’s first breeding season, 100% of the purchase price less a \$1,500 salvage value
- Before the bull’s second breeding season, 2/3 of the purchase price less a \$1,750 salvage value
- Before the bull’s third breeding season, 1/3 of the purchase price less a \$2,000 salvage value

We are eagerly anticipating the 2024 Bred for Balance Sale in Starbuck, MN. What a set of genetics the Wulf Family along with sale affiliates have produced for your appraisal. Genetic progression and precision matings are represented from cover to cover in one of the largest offerings of Sim Genetics the Spring of 2024 will feature.

Constantly Calibrating is a fitting theme for 2024 in ever changing beef business. We feel calibration is one of the keys to success and driving forces in which the Allied business was built upon. Producers should look for two pieces in the beef business when sourcing your seedstock genetics and service. Is your seedstock producer supplying with genetics who will move your operation ahead? Do you feel like your seedstock provider is helping you create more value for your feeder cattle? Both are important questions to ponder before sourcing your bull battery. The Bred for Balance bull offering was produced to add value for customer cattle and supply genetics who will add value to every segment of the beef business. The sale offering has been through rigorous performance testing, genomics, and phenotypical selection. Simply put buyers will be hard pressed to find a supplier who provides more accurate data along with great service pieces such as a 3-year warranty and affordable delivery options. Likewise, the Bred for Balance crew would like nothing more to create more demand for your feeder cattle. Impressive genetic predictors and scan records for carcass traits is found in near every lot of this bull offering. Ultimately the type of feeder cattle these bulls will sire will create demand by the feeding sector of the beef business. If you are looking for new market avenues, be sure to reach out and we would love to help you.

We hope you can join us February 9, in Starbuck, MN. The Bred for Balance crew would like nothing more but to earn your business as a seedstock supplier. The success and impact these genetics have made on not only the Simmental business but the beef business as a whole is remarkable. We expect the 2024 offering will once again offer incredible genetic advancement for potential buyers. As always, feel free to contact us with questions regarding the sale offering.

Sincerely,  
*Marty Ropp, Corey Wilkins and Jared Murnin*

**VOLUME PURCHASE DELIVERY DISCOUNTS**

If your total purchases equals...

- \$10,000 – \$25 delivery discount per head
- \$20,000 – \$50 delivery discount per head
- \$30,000 – \$100 delivery discount per head
- \$40,000 – \$200 delivery discount per head
- \$50,000 – Free Delivery

- \$ 50 / head - MN
- \$ 100 / head - ND, SD, NE, IA, WI and UP
- \$ 200 / head - MT, WY, CO, KS, MO, IL, IN

**Cost share delivery options**

## DELIVERY AND BOARD

- We are more than happy to deliver your purchases and will do so for a guaranteed delivery fee based on your state. Any additional cost incurred above and beyond the guaranteed rate will be covered by Bred for Balance. We will do our best to get the cattle as close to your farm as possible. If you so choose, bulls will be boarded free of charge, semen checked and then delivered around April 1st. For bulls sold to the outer two tiers on the delivery map, we ask for flexibility on delivery date.
- We ask that females are either picked up sale day or delivered with in the week following the sale.
- Further delivery details are listed on Page 3.

### HERD HEALTH

We engage in an aggressive Johnes, Leukosis, and Neospora testing protocol. A comprehensive vaccination program for clostridial, respiratory, and reproductive diseases as well as strategic treatment for external and internal parasites is conducted. Please consult the owners or the veterinary team for more information about the supervised programs. Health papers will be available for shipment within the United States and Canada upon completion of any required testing.

### GENETIC DEFECTS

All animals selling are free of Arthrogyriposis Multiplex (AM), Developmental Duplication (DD), Neuropathic Hydrocephalus (NH) and Contractural Arachnodactyl (CA) unless otherwise noted in the footnotes.

### RETAINED SEMEN INTEREST

Under \$20,000 purchase price	\$20,000 to \$39,999 purchase price	Over \$40,000 purchase price
<b>RETAINING 50% Semen Interest</b>	<b>RETAINING 33.33% Semen Interest</b>	<b>RETAINING 25% Semen Interest</b>

The American Simmental Association is actively collecting hoof score data to ensure Simmental cattle keep the quality hoof they are known for. We score every bull to better give you an idea of how their hoof is shaped and any bull that is out of bounds is culled. Each bull's hoof score is listed in their lot box with the first number being the CLAW score and second being the FOOT ANGLE score. It is important to match the right hoof with the right environment and we hope these scores can help you do that.

#### Claw Shape

#### Foot Angle

#### DOCILITY SCORES

- 1 - Calm: Content with human interaction
- 2 - Okay: Moves away as a person approaches
- 3 - Discontent: Good for big range country
- 4 - Nervous: Culled
- 5 - Aggressive: Culled

# CONSTANTLY CALIBRATING

# Improved Buying Confidence with Greater Genomic **ASSURANCE**

Access to more and better information has always been key to making wise decisions. The evolution and improvement of genetic evaluation tools too has given us an ever-clearer picture of the true genetic makeup of cattle and thus a better view of the value proposition. RightMate, powered by Top Genomics LLC is taking the evaluation of genetics and genomics one giant step further. By combining specific genomic information with the long-proven value of EPDs, this new advancement in technology improves our depth and precision when evaluating the actual ability to transmit value and profit.

The 3 Accreditation Logos below are designed to simplify bull selection and improve buyer confidence by more accurately describing the genetics offered and by reducing risk. What this means to you as a customer is a much greater assurance that you are getting both what you want and need from the genetics you purchase. What it means to your seedstock provider is access to RightMate technology that simply sets them apart from the rest of the industry.

**ACCREDITED GENOMIC PLUS** – For the majority of producers who simply need consistent and balanced genetic improvement, without genomic setbacks, G+ Accredited bulls should be on your list for premium purchase. These sires will absolutely move you forward for both cost reduction and income producing traits and substantially reduce risk when compared to all other evaluation programs. It's simple, the right genes are in these bulls to help secure a profitable future and they have great EPDs to match!

**ACCREDITED CALVING EASE** – Simply find bulls with the ACE logo for third party Accredited, secure Calving Ease bulls. Though we have had tools in the past to assist in choosing heifer bulls, we've never had one nearly this effective. The reduced risk that comes with this genomic certification will simply make your decisions easier and your heifer calving season more successful. Purchase special purpose ACE bulls with confidence. They will deliver consistent and predictable calving ease.

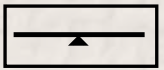

**ACCREDITED TERMINAL MATE** – Just like an ATM machine makes it simpler to access your cash, the ATM Logo highlights bulls accredited to generate extra cash income as soon as your next calf crop! These bulls are meant specifically to use only on mature cows and for the purpose of adding performance, pay weight and end product value to market.

**BULL DEVELOPMENT**

Bulls are weaned the middle of August, then run on a 40-acre pasture as late as weather allows before moving into the monoslope. They are developed on a ration consisting of grass and alfalfa hay, silage, earlage and a protein supplement. The ration is built to be high protein and low fat to build muscular bulls that hold up once delivered. As the bulls age, we continue to lower the energy, it is our goal to have them on a diet similar to a normal cow ration at the time of delivery.

Bred to BRIDLE BIT ECLIPSE E744 (3271380). Estimated calving date 3/25/2024.

As much as we emphasize evaluating cattle with real, tangible data that is meticulously tracked and fed into IGS, the world's largest multi breed genetic evaluation, we spend as much time or more talking amongst ourselves about the intangibles. The big three being hoof, udder and attitude. Gratisfy does the intangibles as well as any female we have ever raised! Her feet are absolutely phenomenal, she is so easy going and her udder is nice and tight, but she still raises monster calves with a 111 average WW ratio on her first three.

Last year, her stellar LCDR Affirmed daughter led off the Fab 5 and went to Lauren Trauernicht for \$9000 and three ET bulls were very well received at \$7000, \$6500 and \$6000. This year, she had herself another excellent Affirmed heifer who went on to genomic very well and will be a part of our future donor lineup! Her mating to Eclipse for this year predicts an awesome CE to YW spread with great carcass and oh, yes, will check all the boxes for the intangibles!

With only one flush under her belt here at Clear Springs, I am confident the best is yet to come for this young, dare I say, unsung hero of our cowherd.

*Semen available through Allied*

**Thank you to all our past, present and future customers  
for believing in the Bred for Balance Brand!**

# The Fabulous Five

The success of the Fab 5 alumni continues around the country with CLRS Dairy Queen 606D commanding \$74,000 in JS Simmental's Midwest Made sale! This is the year you could add a Fab 5 heifer to your herd and capture the great genetic potential they offer. Whether you are raising industry-leading sires, show heifers or great replacement females, we feel there is a unique heifer for everyone in this year's lineup.

- Lady Lux may have the most elite set of EPDs we have ever bred into a female here at Clear Springs! Her tremendous topline ties in nicely with her clean and feminine neck that reaches high out of an angular shoulder. Her barreled rib cage, skeletal width and added bone stems from her powerful Eagle dam while Galileo keeps her brisket tight and her head shape attractive. With her elite genomic value and phenotype, the mating options here are endless!

- Leave it to Demi to produce the true show heifer prospect of this year's Fab 5. The type and kind that the past National Champion female stamps her progeny with is undeniable!! Leap of Faith combines power and femininity into a one extremely attractive and flawless skeleton. Her hip and hind leg are ideal, and her center rib cage is expansive. Add in an awesome neck/shoulder, valuable performance and stellar attitude and you have a project for a youngster that will go on and make a formidable asset to your donor lineup.

- What a unique breeding piece! Her dam is a full sister to the past Fab 5 high seller CLRS Jolene 1105J. The maternal excellence bred into this moderate, thick made, ultra- sound, perfect footed female is generations deep. In my humble opinion Little Angel is the epitome of how a profitable cow should be built, fertile and efficient, comfortable in her skeleton, strong in her spine and easy calving. Create a maternal line that will have lasting effect on your herds profitability!

- We have been really impressed with the IR Original H341 calves and because we mostly only had heifers out of him, we decided to offer one of the best. Larissa's tail head lays into her hip design so well and she has a presence that caught my eye from an early age. With her massive rib shape, excellent structural design and unique pedigree she would be a great addition to anyone's herd.
