

34th Annual Bull Sale

Sunday, January 28, 2024

**Selling 273 Simmental, SimAngus™ & Angus Bulls
1:00 PM (CT) • At the Ranch, Miller, NE**

*Nebraska's Largest Source for Homozygous Black,
Homozygous Polled SimAngus™ Genetics*

WELCOME TO THE SALE

TRIANGLE J
Ranch

Darby and Annette Line

35355 Arrow Rd.

Miller, NE 68858

Phone: 308-457-2505

Cell: 308-627-5085

www.trianglejranch.com

Welcome to the 34th Annual Triangle J Ranch Bulls Sale! Our program at Triangle J consists of a large herd of registered cows that are treated just like our commercial cow customers would treat their own. Cows graze on grass in the summer and cornstalks most of the winter, only supplemented before breeding season. In order to breed back consistently for a January/February calf, (and maintain body weight through the challenging Nebraska winter) cows have to be moderate with exceptional fleshing ability and be structurally sound. With focus on moderate, easy fleshing cattle our bulls are able to thrive in harsh environments. We have numerous repeat customers in the sandhills of Nebraska, the mountains of Colorado, the deserts of Utah and New Mexico, and the fescue grasses of Missouri. All is possible because our cow herd possesses the easy-keeping qualities and structure to run in these rugged environments.

Most of the bulls purchased from Triangle J run in large herds with no time for calving issues. The majority of our bulls will have high calving ease and low birth weight EPDs. Many will be first calf heifer safe.

The Darby Line Family

I am fortunate to have an outstanding group of employees that work hard to improve the quality of this bull sale year after year. They spend countless hours recording data such as birth weights, weaning weights, and yearling weights. They pull tissue samples at two months of age in order to provide you with genomically enhanced EPDs. Our crew puts in extra time during the spring improving an already intensive AI program and we add more embryos every year to continue improving genetic quality.

Stop by the ranch anytime to see the sale offering. Videos will be up soon on our website and DV Auction, but feel free to call anytime with any specific questions. Thank you to all our loyal customers and we hope to see some new faces on the last Sunday in January!

Sincerely,
Darby Line

Coach Line with his favorite fans.

Welcome to the 2024 Triangle J Ranch Bull Sale! We are eagerly anticipating the last Sunday in January for your appraisal of a stout and high volume offering of herdsires Triangle J is bringing buyers in 2024. The 270+ sale represents Triangle J largest assortment of Sim bulls in program history.

The TJ prefix continues to grow in popularity for cattlemen across our great country. Repeat buyers will line the bleachers on sale day as the bulls has proven to hold up and enhance economically relevant traits for commercial producers. The decision to increase the number of herdsires in the sale was made to ensure customers can find the bulls they need at a sensible price point. Make no doubt about it the offering has not only taken a step up in terms of quantity, but the quality associated with the brand will be found from Lot 1 to 275. The commitment of supplying the best and most accurate data to bull buyers are one of the many reasons to purchase your herd bulls from Triangle J. Accurate weights and performance traits are always measured and the adaption of genomic technology continues to grow at Triangle J. The program features multi generations of genomic testing and every animal is marketed with the Rightchoice information. Likewise, the program continues to push forward from a customer service standpoint. Buyers will receive a strong warranty, affordable delivery, and more importantly a helping hand when marketing your feeder calves. If you would like to learn more on avenues the TJ program can assist you in marketing your feeder calves, be sure to reach out to Deryl or Darby.

We hope you can join us the last Sunday in January for one of the best marketing events of the year. The large massive sire groups and impressive embryo calves will no doubt generate excitement near and far. If we can be any assistance to you please do not hesitate in reaching out to us.

Sincerely,
Marty Ropp, Corey Wilkins and Jared Murnin

INSPECTION OF THE SALE CATTLE

The cattle are at the ranch. We welcome you to come view the cattle and visit with us prior to the sale.

SALE CONSULTANTS

Marty Ropp 406-581-7835
Corey Wilkins 256-590-2487
Jared Murnin 406-321-1542
Jeremy Ruble 406-581-7940
Marshall Ruble 515-231-3198

REGISTRATION AND TRANSFER

Registration certificates will be transferred to buyers upon request at the seller's expense. When making settlement, buyers must give complete written name and address information for making transfers.

SEMEN INTEREST

Retaining 1/2 semen interest on bulls selling for less than \$20,000. Retaining 1/3 semen interest for bulls that sale for more than \$20,000.

HOSPITALITY

Please join us for a complimentary lunch on sale day.

ABSENTEE BIDS

Anyone wishing to bid who cannot attend the sale may place phone or mail bids by contacting any of the Line family, sale management, or sale staff.

TERMS AND CONDITIONS

Terms of the sale are cash. Every animal will be sold to the highest bidder. Announced changes on sale day take precedence over printed material in this sale book.

All cattle are the buyer's property as soon as sold and will be cared for a reasonable length of time at the buyer's risk. Any person attending the sale does so at their own risk. Neither the sale management, owners, not any person connected with this sale, assumes any liability, legal or otherwise. All animals listed in the sale book as homozygous black or homozygous polled are done so to the best of our knowledge. We are not liable for any inaccuracies.

SALE ACCOMMODATIONS

For assistance with your travel or motel arrangements, please contact Darby or Annette Line, 308-457-2505.

Kearney, NE - Holiday Inn - Interstate 80
308-237-5971 or 1-800-228-2828

Lexington, NE - Comfort Inn - Interstate 80
308-324-3747

There are several major hotels along I-80 in Kearney.

TRUCKING

All bulls will be kept free of charge until March 20, 2024. At this time, all bulls will be delivered to in state customers at no charge. We will make ever effort to assist our out of state customers with trucking arrangements. Please see page 2 for more information about delivery.

HEALTH

All cattle have health papers and are ready for interstate shipment. Overton Veterinary Services 308-324-7202.

DELIVERY OPTIONS.

- Free Delivery
- \$ 200 / head
- \$ 300 / head
- \$ 400 / head

All bulls will be kept free of charge until March 20, 2024. At this time, all bulls will be delivered to in state customers at no charge. We will make every effort to assist our out of state customers with trucking arrangements.

VOLUME PURCHASES.

Purchases of 5 or more head qualify for free delivery.

BULL WARRANTY.

Every bull carries a 100% guarantee for one breeding season (not to exceed 90 days) provided the bull is managed properly and is in acceptable nutritional health. In the event a customer has an issue during the bull's first breeding season please contact us immediately. For bulls that sell for over \$10,000 dollars insurance is highly recommended and can be split between the buyer and seller. Please contact us with any questions.

CUSTOMERS COME FIRST.

FEEDER CATTLE MARKETING: *We have worked towards building relationships with multiple venues that will allow our customers to get the genetic worth from their feeder cattle. From video auctions to direct bids from feedlots or even if you have an interest in retaining ownerships of your calves we have got you covered.*

- **Video Auctions**
- **Direct bid from Feedyards**
- **Retain ownership (any %)**
- **Carcass Data Collection**

AI PROJECTS: *If you are in search of genetics through semen who will have profit potential we have a diverse line up of sires that will fit several large AI projects. If you are looking for semen or the man power to get the job done give us a call today.*

Customer service is our #1 GOAL. Contact us today.
Visitors always welcome and herd tours are available.

Improved Buying Confidence with Greater Genomic **ASSURANCE**

Access to more and better information has always been key to making wise decisions. The evolution and improvement of genetic evaluation tools too has given us an ever-clearer picture of the true genetic makeup of cattle and thus a better view of the value proposition. RightMate, powered by Top Genomics LLC is taking the evaluation of genetics and genomics one giant step further. By combining specific genomic information with the long-proven value of EPDs, this new advancement in technology improves our depth and precision when evaluating the actual ability to transmit value and profit.

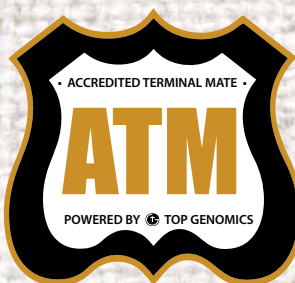

The 3 Accreditation Logos below are designed to simplify bull selection and improve buyer confidence by more accurately describing the genetics offered and by reducing risk. What this means to you as a customer is a much greater assurance that you are getting both what you want and need from the genetics you purchase. What it means to your seedstock provider is access to RightMate technology that simply sets them apart from the rest of the industry.

ACCREDITED GENOMIC PLUS – For the majority of producers who simply need consistent and balanced genetic improvement, without genomic setbacks, G+ Accredited bulls should be on your list for premium purchase. These sires will absolutely move you forward for both cost reduction and income producing traits and substantially reduce risk when compared to all other evaluation programs. It's simple, the right genes are in these bulls to help secure a profitable future and they have great EPDs to match!

ACCREDITED CALVING EASE – Simply find bulls with the ACE logo for third party Accredited, secure Calving Ease bulls. Though we have had tools in the past to assist in choosing heifer bulls, we've never had one nearly this effective. The reduced risk that comes with this genomic certification will simply make your decisions easier and your heifer calving season more successful. Purchase special purpose ACE bulls with confidence. They will deliver consistent and predictable calving ease.

ACCREDITED TERMINAL MATE – Just like an ATM machine makes it simpler to access your cash, the ATM Logo highlights bulls accredited to generate extra cash income as soon as your next calf crop! These bulls are meant specifically to use only on mature cows and for the purpose of adding performance, pay weight and end product value to market.

CUTTING EDGE GENOMIC TECHNOLOGY

RightChoice and RightMate Powered by Top Genomics - Better, Stronger, Faster..

Genetic providers have used strong genetic prediction tools like EPDs for making, then offering customers consistent genetic progress for a long time. Improved EPDs, bolstered by the inclusion of genomic evaluation have made the potential for more profitable cattle and better beef even greater in the past few years. Now there are RightMate and RightChoice. These improved technologies combine advanced knowledge of high impact genomics with the database proven power of EPDs. The results, are proving to be greatly accelerated genetic improvement capability with the added benefit of profit enhancing uniformity. Maybe the best news for customers is that despite the sophistication of the technology, these tools are simple to use. With both great power and needed simplicity RightMate and RightChoice are poised to change the way we both improve and market genetics.

For breeders and those wishing to get the most from every mating, RightMate is the most impactful and powerful option. Take the guesswork out of progress by using genomically prescribed matings and just as importantly avoid those with a low probability of success. The technology is ready and the validation is strong. Simply define the direction of your breeding objectives, even female by female and RightMate will help you get there faster than any tool used in the past. We've all known for a long time that certain cows just need to be mated to certain bulls. RightMate helps take the guesswork and the trial and error out. Finding the right mating, the first time makes all of the difference.

Better matings result in more improvement and more potential profit for commercial customers too. That should be the goal of every seedstock provider. Commercial customers however, need to be able to source genetics that fit their production systems and goals quickly and easily. That is where RightChoice comes in. With 20 or more EPD categories, overwhelming amounts of raw data and multiple index offerings to evaluate in a short time, the potential to use selection information to its best result has been possible, but difficult for commercial producers. RightChoice is designed as a simple to use sorting tool for selection of new sires or females all based on commercial genetic needs and production goals. The sophisticated technology is on the inside of RightChoice with easy to use Logos for sorting as the published and effective result. All you need to do is evaluate and pick the bulls you like from the group with the RightMate genetic logo that fits your needs.

RightChoice technology will not only push value and profit traits forward. Because of the way it sorts sires, it can reduce variation and inconsistency in your calf crop as well. For example, with ACE logo bulls, not only can you expect reduced dystocia, but the birth weights responsible for most of the challenges will be less variable. That means more calves born close to the average for weight and far fewer extreme calves that either create issues for your heifers or are unreasonably small. With smart RightMate selections, uniformity of calf crop continues to marketing and even replacement females, creating more profit all the way through. We can't always control the genes present in the cow herd, but we can make sure your seedstock purchase will help you get the most progress moving forward.

RightMate and RightChoice . . . Better, Stronger, Faster.

TJ 565L Sells as Lot 1.

KBHR BOLD RULER H152 Sire of Lots 1-17.

BOLD RULER X 60H FLUSH

We have been eagerly awaiting the first progeny of Bold Ruler, and we are super pleased with the results. The Bold Ruler X 60H flush hit it out the park for both figures and phenotype. The bulls are massive bodied, heavy, muscled, and study with top growth figures. Their dam along with her sisters have been top producers for us the last several years. If you want a big numbered, great looking purebred look no further.

HONOR X 21C FLUSH

Tested the Honor bull on our Top Grade donor and these bulls all received a G+ ACE logo on Rightchoice. These high calving ease bulls' study with impressive figures across the board and will serve great genetic pieces. Likewise, their maternal predictors are off the charts and will improve longevity in your cowherd.

TJ CHIEF 460G

The Chief sons have been really well received in our past bull sales. The bulls are easy to like with their added length and balance. Genetically the Chief sons offer a balance of calving ease and growth with exceptional maternal predictors.

TJ CHIEF 460G Sire of Lots 35-43.

TEARDROP X 2G FLUSH

Unfortunately this will be our last sons of TJ Teardrop to market, and boy we hate to see him go. We used the semen exclusively on flushes and Teardrop has proven to be a great cow maker in our program. Look for the Teardrop sons to be moderate, big bodied and increase fleshing ability.

TJ 43Z Grandam of Lots 44-47.

TEARDROP X 41H FLUSH

Teardrop X Cowboy Cut has proven to be a great mating time and time again. The 41H flush is no exception these bulls are just about as good as you can make them in the flesh. Great bodied, heavy muscled, and super easy to be around. If you are in search of predictably this flush will be ones to highlight in your book!

TJ FRONTMAN 518J

Frontman is a purebred Simmental who offers an immense amount of mating flexibility and outcross genetics for our program. The Frontman sons are calving ease oriented, with great maternal traits and top tier marbling. Phenotypically the bulls are extremely easy to like on foot with their striking balance and presence. The 1st calf crop reinforces the fact to expect to see more Frontman progeny in the future at our program.

TJ FRONTMAN 518J Sire of Lots 59-65.

TJ 579L Sells as Lot 79.

TEHAMA PATRIARCH F028 Sire of Lots 79-83.

PATRIARCH X 28E FLUSH

An impressive flush out of 28E who features some of the industry's best in their pedigree. Patriarch has been one of the most proven Angus bulls in the business and the Cowboy Cut on the bottom side needs no introduction in our program.

TJ 28E Dam of Lot 79.

TJ 6C Grandam of Lots 87-90.

SQUARE B TRUE NORTH 8052

We wanted to make a focus in our program to create more 1st generation SimAngus bulls and True North has risen to the forefront of Angus bulls we have used in the past. The flushes by True North and the general sire group are some of our very best bulls in the 2024 offering. Many of the True North sons are heifer safe and they will impress you with their added mass, fleshing and dimension.

SQUARE B TRUE NORTH 8052 Sire of Lots 87-100.

WAR PAINT X 95A FLUSH

Oh boy what a set of herd bulls are in the War Paint X 95A flush. The bulls are all you could ask for in the flesh. These good-looking baldies and great balanced, bold bodied and stout made. Genetically every brother receives a G+ on the Rightchoice genetic screening. If you go through the bulls, we know you will like them and expect them to be crowd favorites on sale day.

TJ CHIEF 460G

The Chief sons have been really well received in our past bull sales. The bulls are easy to like with their added length and balance. Genetically the Chief sons offer a balance of calving ease and growth with exceptional maternal predictors.

TJ CHIEF 460G Sire of Lots 139-150.

TJ 861L Sells as Lot 139.

TJ FROSTY 318E

The Frosty sire group were once again crowd favorites at last year's bull sale and represents consistent producers who will sire wonderful females. The bulls are deep sided, squared made and many come in a blaze faced package. Likewise, the bulls excel at the details being great for disposition and hoof quality. The consistency and quality Frosty transmits to his progeny rivals any baldie bull we have utilized in the past.

TJ FROSTY 318E Sire of Lots 151-181.

TJ ARROWHEAD 263G

Arrowhead has established himself as one of the best SimAngus heifer bulls in the industry. He offers a giant spread from BW to YW which always appeals to commercial cattlemen. He stems from the highly prolific 22X donor who is know for producing genetic horse power and breath-taking phenotype. The Arrowhead sons are truly the cattlemen's kind!

TJ ARROWHEAD 263G Sire of Lots 194-210.

TJ MULTIPLIER 470H

Multiplier has proven to be an excellent heifer bull option whose progeny is conservative in terms of mature frame size and adds body capacity and improves docility. The consistency and quality of the Multiplier sire group will be rivaled by few in the offering.

TJ MULTIPLIER 470H Sire of Lots 211-224.

TJ 809L Sells as Lot 211.

Select Sires tours Triangle J.

CLRS HOMELAND 327H

The Homeland sire group offers buyers a chance at some true power SimAngus bulls. The bulls study with an abundance amount of muscle shape, mass, and performance. If you are in search for added pay weight and carcass traits the Homeland sire group will suit your needs well! Likewise, you will admire them for their attractive build and look.

CLRS HOMELAND 327H Sire of Lots 225-232.

GIBBS 8025F RANGER

We have always been extremely pleased with what we have seen out of the Ranger sons and this year will feature the highest volume of sons we have ever offered out of this exciting herd bull. The sons offer "new blood" and outcross genetics to old customers. Many of the sons receive an ACE logo on Rightchoice pointing to the fact they will be purebred heifer bulls. However, the Ranger combine heifer safe genetics with an abundance of growth and value.

GIBBS 8025F RANGER Sire of Lots 233-241.

TJ 50K 485H

TJ 50K features some of our most proven lines of genetics in TJ Main Event and CCR Cowboy Cut. He represents the total package and has been a consistent producer for us. The sons will add length and growth and will be admired for their correct build and structural soundness. Near all of the 50K sons are out of Angus cows and these first generation half bloods will make you happy.

TJ 50K 485H Sire of Lots 242-246.

TJ MAKER'S MARK 215Y Sire of Lots 255-263.

TJ MAKER'S MARK 215Y

Time tested genetics who will add fleshing ability and increase payweight in a set of calves can be found in the Maker's Mark genetics. The Maker's Mark progeny have been one of our longest running sire groups in the sale and the cattle are always well received by our commercial clientele.

ASA QUICK REFERENCE TO EPDS, INDEXES AND \$VALUES

EXPECTED PROGENY DIFFERENCES (EPDS): EPDs are the most accurate and effective tool available for comparing genetic levels. In using EPDs, the difference between two sires' EPDs represents the unit difference expected in the performance of their progeny. For example, if sires A and B have EPDs of +10 and -5, a 15-unit difference would be expected in their progeny (moving from -5 to +10 yields 15 units). Key to using EPDs is knowing in what units they are expressed. For example, if the above case referred to weaning weight EPDs, sire A would be expected to sire 15 pounds more weaning weight than sire B. If calving ease was the trait, sire A would be expected to sire 15 percent more unassisted births in first-calf heifers; in other words, if sire B sired 30 assists in a group of 100 heifers, we would expect sire A to require 15 assists. A percentile-ranking chart is required to determine where a bull's EPDs rank him relative to other bulls in the breed. For more detailed information about EPDs and \$ indexes, visit www.simmental.org.

Listed below are the units in which ASA EPDs are expressed:

ALL-PURPOSE INDEX (API): Dollars per cow exposed under an all-purpose-sire scenario. (See \$ Indexes for more details.)

BACK FAT (BF): Inches of carcass backfat at 475 days.

BIRTH WEIGHT (BW): Pounds of birth weight.

CALVING EASE (CE): Percent of unassisted births when used on heifers.

CARCASS WEIGHT (CW): Pounds of carcass weight at 475 days.

STAYABILITY (STAY): Percent of daughters remaining in the cowherd at 6 years of age.

DOCILITY (DOC): Percent of offspring receiving a disposition score of 1 (docile).

MATERNAL CALVING EASE (MCE): Percent of unassisted births in first-calving daughters.

MILK (MLK): Pounds of weaning weight due to milk.

MARBLING (MARB): Carcass marbling score at 475 days.

MATERNAL WEANING WEIGHT (MWW): Pounds of weaning weight due to milk and growth.

RIBEYE AREA (REA): Square inches of carcass ribeye at 475 days.

TERMINAL INDEX (TI): Dollars per cow exposed under a terminal-sire scenario. (See TI for more details.)

WEANING WEIGHT (WW): Pounds of weaning weight.

YEARLING WEIGHT (YW): Pounds of yearling weight.

YIELD GRADE (YG): Carcass yield grade score at 475 days.

\$ INDEXES: Though EPDs allow for the comparison of genetic levels for many economically important traits, they only provide pieces of the economic puzzle. This is where \$ indexes come in. Through well-conceived, rigorous mathematical computation, \$ indexes blend EPDs and economics to estimate an animal's overall impact on integrated commercial production. The same technology that led to the dramatic progress in swine, poultry and dairy genetics over the last several decades was used to develop the following \$ indexes:

ALL-PURPOSE INDEX (API): Evaluates sires for use on the entire cow herd (bred to both Angus first-calf heifers and mature cows) with the portion of their daughters required to maintain herd size retained and the remaining heifers and steers put on feed and sold grade and yield.

TERMINAL INDEX (TI): Evaluates sires for use on mature Angus cows with all offspring put on feed and sold grade and yield.

USING API AND TI: First, determine which index to use; if you are keeping replacements use API, if not, use TI. Then, just as with EPDs, zero in on the unit difference between bulls. (As described above, index units are in dollars per cow exposed.) The difference can be used to determine how much a bull is worth compared to another. Put another way, how much you can pay for one bull compared to another. For example, when buying an all-purpose-type sire, you can quickly figure a bull scoring +100 for API is worth an extra \$6,000 over a +50 bull if both are exposed to 30 cows over 4 years ($\$50 \text{ diff.} \times 30 \text{ hd.} \times 4 \text{ yr.} = \$6,000$). A percentile-ranking chart is required to determine where a bull's index value ranks him relative to other bulls in the breed.

For more detailed information about EPDs and \$indexes, visit: www.simmental.org Important disclaimer: DO NOT compare index values of purebreds of different breeds, hybrids of different breed composition or purebreds with hybrids - our system was not developed to make valid comparison among these groups. Therefore, you must first determine the breed and breed composition appropriate for your herd and use index values to compare animals within that population.
