

BLACK SUMMIT

— ANNUAL —

Bull Sale

FRIDAY 1:00 PM

MARCH 15

Black Summit Cattle Sale Facility || 1476 Hwy 14A, Powell, WY 82435

SELLING 80 PAP-TESTED SIMANGUS BULLS

Howdy Folks

WOW... What a difference a year makes! As I was writing this invitation last year, we were having record snowfall and record low temps. We all know what record snowfall and spring moisture means. What a Grass year! God kept on blessing with cool summer temps and a booming hay crop. The hay wasn't the only thing Growing at a high rate, the calves in this year's sale have been good from day 1. Their health has been excellent and they have grown and done everything just as we would hope. I've never been more comfortable offering a group of bulls to you guys than this set. In addition to these bulls knocking it out of the park in their development, They are Stout, sound, Good looking cattle with tremendous foot quality and Genetic Value. We think our balanced approach is paying off. On another note, we are calving the first homeland daughters right now. HOLY COW and I mean COW! They have been absolutely perfect. The maternal instinct in them, the utter quality and their size and structure is everything any of us would hope for. They lay down, calve, get up and take care of the calf and do it all while acting and looking like a COW should.

I sure hope all of you can make it on Friday the 15th of March. Whether you need a bull or not, we Love seeing everyone and talking cattle. The cattle business is in such a Great spot right now and I hope all of you are enjoying the same Optimism and enthusiasm we are. The more we look under the hood of these cattle using Genomics and the latest science available the better and more predictable we are making these bulls. Some things will never replace a good stockman's eye. But, I think you'll agree utilizing both is Magic. You are all invited to at least come enjoy a steak dinner, for lunch, on us. Hope to see ya.

Blessings, *The LaFollettes*

CUSTOMER SATISFACTION GUARANTEE

We have done our best to represent the sale offering as they are, however our Customer Satisfaction Guarantee protects you against getting cattle that are not what you thought they were. If you have a problem with an animal, it's our problem. We are the only ones who can fix it, so please contact us and give us a chance to help.

TERMS & CONDITIONS

We will sell full possession and full semen interest in all Bulls unless otherwise noted in the sale book. Black Summit will reserve the right to collect semen, for in program use only, at the buyer's convenience and seller's expense. Terms of the sale are cash and all cattle become property of the buyer at the time of sale. All animals will be sold in accordance with the Suggested Sale Terms and Conditions of the American Simmental Association unless other terms are stated in this catalog. All announcements made sale day take precedence over printed material in this catalog or other printed material associated with this sale. All cattle will be registered with the American Simmental Association and those papers will be transferred after the sale. Please note all EPDs will change between the time this catalog is printed and the day of the sale. All EPDs in the catalog will be current as of the day they are printed. Owners, their agents or any of the sale staff will not be held responsible for any personal injury, loss or accident while attending this sale.

BREEDING GUARANTEE

All bulls selling in the sale have passed a Complete Breeding Soundness Exam. However, all bulls should still be rechecked as close to turnout as possible. All bulls are guaranteed for fertility and genetic soundness for their first breeding season. If the bull is proven to be a non-breeder for fertility or a genetically caused soundness condition, we will replace the bull with a satisfactory replacement or issue credit of the purchase price minus the salvage value to be used in future sales. This guarantee does not cover injury, infectious disease, mismanagement, neglect and/or death. We ask that you contact us immediately before culling or disposing of the bull should anything occur. A signed veterinary statement and/or BSE form will be required. Bulls are not guaranteed to freeze semen unless an agreement is reached prior to the sale.

TRUCKING / FEEDING OPTIONS

- Option 1 - \$100 off bulls hauled home the weekend of the sale.
- Option 2 - Bulls delivered to Wyoming and surrounding states for free. We will begin coordinating free delivery the week after the sale.
- Option 3 - Bulls may be kept free of charge past their scheduled delivery date at buyer's request. They may be picked up at the buyer's convenience on or before April 1. Bulls kept past April 1 will be charged \$3 per head per day.
- Option 4 - We will work with buyers of bulls that do not qualify for free delivery. We will help as much as possible to get these bulls delivered as inexpensive as we can.

Volume Buyer Discounts

- Purchase 5 bulls - 5% discount
- Purchase 10 bulls - 10% discount
- Purchase 20 bulls - 20% discount

On volume purchases, we will do our best to get bulls delivered as cheap as possible.

From the Sale Manager

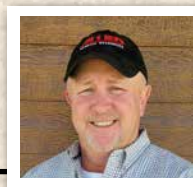

Welcome to the 2024 Black Summit Cattle annual bull sale. What a set of bulls? This offering is their best yet. The LaFollette's have invested decades of breeding to produce this excellent set of bulls for your selection. When you come to Black Summit Cattle Co you can expect to find cattle that work in our western environment. They put extensive selection pressure on structure, udder quality, and fertility and they want these traits in a package that is phenotypically correct. When you view this set of bulls you will see that they represent what you come to expect from Simmental and SimAngus genetics like muscle and performance, but what makes this program excel is that these bulls are in a very eye appealing and correct package. These bulls will produce calves that add pounds, and their daughters will make top of the line replacement females. Not to mention they will do all of this along with producing cattle that have the eye appeal to catch the attention of the most discriminating buyer, after all 90% of the time through the chain buying decisions are based off what buyer see visually. So, with all the great data and tools that we have today we can't forget about cattle that have the ideal look, and this set of bulls has it. However, these bulls are not just phenotypic standouts they have checked all the boxes for all the data that Black Summit collects to continue genetic improvement. They have all the DNA done and have RightChoice information available. If you are unfamiliar with RightChoice please see the explanation in this catalog. All of the work has been done and they are ready to go to work for you.

We are experiencing some of the best times in the history of the cattle business. 2023 set new price records and it appears that we will see new records in 2024. Our nation's cow herd is at the lowest inventory since records have been kept. There is tremendous opportunity for producers who are able and willing to take advantage of these high prices. However, it is critical that when we rebuild this nation's cow herd that we do it with the right kind of cattle. As we make females for the future, we must not loose sight that the consumer wants to purchase and eat high quality beef. We also need to keep in mind that with higher priced females we need to purchase and produce cows that will be productive for a long time. The quality of cattle in the Black Summit program will get you there.

If you have any questions about the offering or need assistance sale day please reach out to any of us on the Allied team.

Sincerely, Marty Ropp, Corey Wilkins and Jared Murnin

ALL NEW PUREBRED PLATFORM
Bid.SuperiorLivestock.com

VIEWING THE AUCTION ONLINE

The auction will be broadcast online at Bid.SuperiorLivestock.com and the pre-recorded videos will also be hosted there prior to and on sale day. You do not need an account or login just to watch the auction.

ONLINE BIDDING

Go to Bid.SuperiorLivestock.com for Superior's new online bidding platform. If you have not registered there before you will need to create an account if you wish to bid (there is no registration required just to watch the auction). Once you have created an account, request a buyer number and you will then be able to bid online with the largest and most trusted cattle marketing entity in North America. Superior's new platform allows you to see both the live stream of the auction AND the pre-recorded videos on one screen at the same time!

TURN IN BIDS OVER THE PHONE

This is Superior's suggested bidding method for anybody who does not have consistent, high-speed internet. You still must register an account at Bid.SuperiorLivestock.com and request a buyer number and upon doing so you will see the bid line phone number. Just watch the auction online and call in at least 2 lots ahead of the lot you are looking to bid on.

FOR HELP WITH REGISTRATION OR ANY PART OF THE BIDDING PROCESS, PLEASE CALL SUPERIOR AT (800) 422-2117.

Bid Live Online

Improved Buying Confidence with Greater Genomic **ASSURANCE**

Access to more and better information has always been key to making wise decisions. The evolution and improvement of genetic evaluation tools too has given us an ever-clearer picture of the true genetic makeup of cattle and thus a better view of the value proposition. RightMate, powered by Top Genomics LLC is taking the evaluation of genetics and genomics one giant step further. By combining specific genomic information with the long-proven value of EPDs, this new advancement in technology improves our depth and precision when evaluating the actual ability to transmit value and profit.

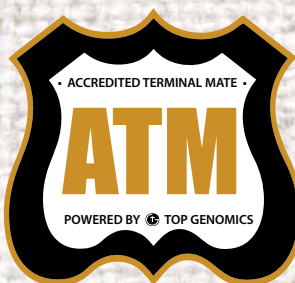

The 3 Accreditation Logos below are designed to simplify bull selection and improve buyer confidence by more accurately describing the genetics offered and by reducing risk. What this means to you as a customer is a much greater assurance that you are getting both what you want and need from the genetics you purchase. What it means to your seedstock provider is access to RightMate technology that simply sets them apart from the rest of the industry.

ACCREDITED GENOMIC PLUS – For the majority of producers who simply need consistent and balanced genetic improvement, without genomic setbacks, G+ Accredited bulls should be on your list for premium purchase. These sires will absolutely move you forward for both cost reduction and income producing traits and substantially reduce risk when compared to all other evaluation programs. It's simple, the right genes are in these bulls to help secure a profitable future and they have great EPDs to match!

ACCREDITED CALVING EASE – Simply find bulls with the ACE logo for third party Accredited, secure Calving Ease bulls. Though we have had tools in the past to assist in choosing heifer bulls, we've never had one nearly this effective. The reduced risk that comes with this genomic certification will simply make your decisions easier and your heifer calving season more successful. Purchase special purpose ACE bulls with confidence. They will deliver consistent and predictable calving ease.

ACCREDITED TERMINAL MATE – Just like an ATM machine makes it simpler to access your cash, the ATM Logo highlights bulls accredited to generate extra cash income as soon as your next calf crop! These bulls are meant specifically to use only on mature cows and for the purpose of adding performance, pay weight and end product value to market.

HOMELAND SONS

When we bought Homeland we were on a mission to find a bull that would not only move our numbers into an elite category but that had enough look as not to sacrifice years of selection for high quality females. He hasn't disappointed us. The Homeland calves across the country have found their way to the front of sale catalogs and sale orders consistently. His sons are stout, good footed, sound cattle with moderate birth, above breed average growth and top tier carcass numbers. Maybe the biggest surprise has been his daughters. They have matured into moderate, deep side, soft flanked cows that are bold ribbed and impeccable in their build. Couple all this with top tier stay ability and udder quality and needless to say we're pretty excited about having a bunch of them. Owned with ABS, All Beef, LLC and Clear Springs, MN.

CLRS HOMELAND 327H Sire of Lots 1-28.

BSUM 337L Sells as Lot 33.

We bought Fast Track as a Calving Ease, G+ and Ace, bull with a big spread. We believe a bull's genetic values should be balanced and not extreme in any one number and Fast Track is just that. Fast Track calves come easy and grow like weeds with added fleshing ability. We think you'll agree on sale day that his sons sure enough could have started the sale. We can't wait to mate him to Homeland daughters. Buy his sons with confidence. We Love them.

GIBBS FAST TRACK 0634H Sire of Lots 31-60.

WE'D LOVE *to serve you*

The LaFollette family takes being your seedstock supplier very serious. There is nothing that impacts profitability longer than the decision on which bulls to buy. Your genetic supplier should be a professional cattleman that uses all technology available to identify the genetic value of each individual animal and the long-term impact that bull will make in your cow herd. At Black Summit we think it is our responsibility to bring this information to you. We are diligent about staying up to date and knowledgeable on the freshest developments and Genetics in the cattle business. Let us serve you in your genetic decisions with the most information available!

Where cattle that perform get the ribbon.

FEMALES FIRST

Simmental cows set the bar for fertility, weaning weights and exceptional calving ease suited to all environments.

And, the American Simmental Association offers the industry's most expansive selection of cow-calf tools – like Cow Herd DNA Roundup – to identify longer-lasting replacement heifers. Get years of information on your commercial herd before investing years of time.

Simmental stands for better females.

STAND STRONG SIMMENTAL

What does “Good Cattle” mean to you?

Traveling as a college judging coach and a seedstock producer you get the opportunity to visit a lot of great operations and pick the brains of the best cattlemen this country has to offer. It's always been interesting to me how many different meanings the phrase “Good Cattle” can have. The term is used totally different by the guy that just Ave. \$7,000 on his 200 hd bull sale from the feedlot owner that's feeding a pen of steers that are converting like champions. Even a bigger contrast might be between the show cattle guy that just won Denver and the Grass and cake guy that wants his cows no bigger than a 1000 lbs and can live on sage brush and rabbit tracks. Amazingly enough the saying is applicable, in it's varying meanings, to all these guys for different reasons. Each one feels like their kind of “Good Cattle” are the key to profitability.

I ask why “Good Cattle” have to be one or another?

- Why can't we raise cattle that are structurally sound, big footed and good moving that can cover country and breed cows?
- Why can't we raise cattle that are 3 dimensional enough in their build to grow, convert feed and kill like “good cattle” can?
- Why can't we raise cattle that are built good enough to look like “good cattle” do and maternal enough to stay in the herd like “Good Cattle” should?

The answer is, we do and you can!

At Black Summit Cattle we are 100% committed to providing bulls with the genetic value and Quality to sire “Good Cattle” for you. We use genomically enhanced EPDs along with Right Choice technology to identify the cattle that have the ability to be seedstock. Once they are identified to have the genetics to be of value to you, they are evaluated on quality and structure. We believe “good cattle” are good looking because they're built right. “Good Cattle” are laid back in their shoulder, good hiped and soft legged. They're big footed, bold ribbed and stout pinned. They're long, wide and deep!

We use selection pressure by feeding the bulls enough to express their genetic ability and also test their foot quality. The bulls are developed on a long, steep, rocky hill where they have to climb each day to the feed bunk to eat a high roughage ration. This keeps them athletic and in good shape.

We believe these bulls are developed as good as any and are ready to make “Good Cattle” for you.

COMMANDER SONS

We purchased 4404 from Cow camp Ranch in Kansas. We bought him for his impeccable foot quality and great structure. We used him to cleanup heifers. Being a G+ ACE for his calving ease and maternal quality, we're excited about the calves we have. Unfortunately, we lost him last summer so this will be his only calf crop. If you run in Big Country and like calving ease cattle with average growth, moderate frame and are great footed, look at the Commander sire group.

CCR COMMANDER 5135F Paternal grandsire of Lots 64-69.

Hero was our choice for an outcross bull to use in 2022. We saw him at ORigen when we went up to look at Homeland. We loved his build, his foot structure and balance for a higher percentage bull. At top 1% STAY and API, he brings maternal quality in a moderate growth package that we like.

TUEL COWMAKER A3032 Sire of Lot 80.

ASA QUICK REFERENCE TO EPDS, INDEXES AND \$VALUES

EXPECTED PROGENY DIFFERENCES (EPDs): EPDs are the most accurate and effective tool available for comparing genetic levels. In using EPDs, the difference between two sires' EPDs represents the unit difference expected in the performance of their progeny. For example, if sires A and B have EPDs of +10 and -5, a 15-unit difference would be expected in their progeny (moving from -5 to +10 yields 15 units). Key to using EPDs is knowing in what units they are expressed. For example, if the above case referred to weaning weight EPDs, sire A would be expected to sire 15 pounds more weaning weight than sire B. If calving ease was the trait, sire A would be expected to sire 15 percent more unassisted births in first-calf heifers; in other words, if sire B sired 30 assists in a group of 100 heifers, we would expect sire A to require 15 assists. A percentile-ranking chart is required to determine where a bull's EPDs rank him relative to other bulls in the breed. For more detailed information about EPDs and \$ indexes, visit www.simmental.org.

Listed below are the units in which ASA EPDs are expressed:

- ALL-PURPOSE INDEX (API): Dollars per cow exposed under an all-purpose-sire scenario.
- BACK FAT (BF): Inches of carcass backfat at 475 days.
- BIRTH WEIGHT (BW): Pounds of birth weight.
- CALVING EASE (CE): Percent of unassisted births when used on heifers.
- CARCASS WEIGHT (CW): Pounds of carcass weight at 475 days.
- DOCILITY (DOC): Percent of offspring receiving a disposition score of 1 (docile).
- MATERNAL CALVING EASE (MCE): Percent of unassisted births in first-calving daughters.
- MILK (MLK): Pounds of weaning weight due to milk.
- MARBLING (MARB): Carcass marbling score at 475 days.
- MATERNAL WEANING WEIGHT (MWW): Pounds of weaning weight due to milk and growth.
- RIBEYE AREA (REA): Square inches of carcass ribeye at 475 days.
- TERMINAL INDEX (TI): Dollars per cow exposed under a terminal-sire scenario.
- WEANING WEIGHT (WW): Pounds of weaning weight.
- YEARLING WEIGHT (YW): Pounds of yearling weight.
- YIELD GRADE (YG): Carcass yield grade score at 475 days.

\$ INDEXES: Though EPDs allow for the comparison of genetic levels for many economically important traits, they only provide pieces of the economic puzzle. This is where \$ indexes come in. Through well-conceived, rigorous mathematical computation, \$ indexes blend EPDs and economics to estimate an animal's overall impact on integrated commercial production. The same technology that led to the dramatic progress in swine, poultry and dairy genetics over the last several decades was used to develop the following \$ indexes:

- ALL-PURPOSE INDEX (API): Evaluates sires for use on the entire cow herd (bred to both Angus first-calf heifers and mature cows) with the portion of their daughters required to maintain herd size retained and the remaining heifers and steers put on feed and sold grade and yield.
- TERMINAL INDEX (TI): Evaluates sires for use on mature Angus cows with all offspring put on feed and sold grade and yield.

For more detailed information about EPDs and \$indexes, visit: www.simmental.org

IF YOU SELL YOUR CALVES ON SUPERIOR, MAKE SURE AND PUT THE BLACK SUMMIT LOGO ON THEM, AS WE ARE A RECOGNIZED SUPERIOR PROGRESSIVE GENETICS HERD.

The Bulls in this sale offering qualify for Superior Progressive Genetics

Superior Progressive Genetics (SPG) is a Value Added Program launched by Superior Livestock Auction to create a premium for commercial cattlemen when they sell calves on Superior by identifying load lots of cattle sired exclusively by bulls purchased directly from qualified seed stock producers. SPG brings attention to the investment commercial cattlemen have made by doing business with leading seed stock producers. T-Heart Ranch and their bull buying customers will be recognized by branding the SPG icon and T-Heart Ranch logo on qualified load lots as the cattle sell on Superior's video sales live on RURAL TV and the internet. In addition to the qualified lots being identified on television, the lots will also be branded as SPG in Superior Livestock Auction's print and web sale catalogs. The premium for qualified SPG lots selling on Superior in 2015 was on average \$3.26/cwt.

Additional Benefits to Commercial Cattlemen Selling on Superior:

- *Doing business with a reputable company who has your best interest in mind.*
- *Superior ties the commercial and purebred cattle industry together full circle.*
- *Largest cattle auction in North America along with the largest active buyer list.*
- *Can sell on contract to take advantage of current market conditions & deliver later.*
- *Established premiums for cattle on good health programs.*
- *Established premiums for many Value Added Programs.*
- *Cattle are sold "country fresh" direct from the ranch resulting in less stress.*
- *Seller determines weighing conditions.*
- *Seller does not have the expense of trucking.*
- *Payment is guaranteed to sellers through Superior's bonded custodial account.*

For more information contact Superior at 800-422-2117 or visit www.SuperiorLivestock.com.

CLARITY IS CASH

\$20+
**MORE PER
CARCASS**

74lb.
LIGHTER COWS

Today's industry pays big for heavy fat steers, but your pocketbook demands smaller cows. What to do?

The answer is clear, dependable data and the courage to bypass traditional straightbreeding.

Simmental-influenced cows are an average **74 lb. lighter** at maturity than Angus-sired counterparts.^a

Meanwhile, packers pay **\$20 to \$34 more** for SimAngus™ and Simmental-sired steers than English-sired calves.^b

Finally, raise efficient cows and high-performance calves. The proof is in the data – and the cash.
