

49TH ANNUAL

PRODUCTION SALE

October 26, 2024 10678 FM 757, Winona, TX

1:00 PM AT THE RANCH, WINONA, TEXAS

Welcome to the sale

Welcome to the 7P Ranch 49th Annual Production Sale. We would like to start by letting you know how much we appreciate your interest in our cattle.

This year we are offering black and red purebred Simmental and SimAngus bulls and bred females. The bulls offered are from 12 to 33 months old. All bulls that are 14 months of age or older have been fertility tested. All fertility test on the bulls and pregnancy status on all 7P females offered will be determined by our licensed veterinarian, Dr. Adam Byrd.

Again, this year, we are offering 60 select black and red, Simmental and SimAngus females. This will include bred females and pairs. Also included will be a select group of 12 open yearling heifers. Six heifers will be pure bred Simmental and six will be SimAngus. These heifers will be ready to breed in the fall.

We will have a very nice set of 40 Simbrah females. All will be registered with the American Simmental Association and 18 are eligible to be Golden Certified by ABBA. All of these females will be bred to pure bred Simmental and Angus bulls, except for the select group of 5 open yearling Simbrah heifers.

Our breeding program consists of using a timed AI synchronization on all of our heifers and cows. After the females are inseminated once, they are observed until their next heat cycle, and we will AI those that come in heat a second time. Three to five days after their second cycle, we turn them in with the herd sires. Those females that do not have a second visualized heat cycle are turned in with the herd bulls and are not bred AI. We make every effort to call the due dates as correctly as possible. We are pleased to offer cattle from our friend Paul Bayer. Paul and his family share our commitment to producing good honest cattle.

Everyone will be able to view the cattle on Friday afternoon, October 25, and the morning of sale day. Our sale day BBQ lunch will be served at 12:00 noon and the sale will begin at 1:00 p.m.

Again, welcome to 7P Ranch and sale. If you need further assistance in any way, please do not hesitate to contact us.

49TH ANNUAL

PRODUCTION SALE

October 26, 2024 10678 FM 757, Winona, TX
1:00 PM AT THE RANCH, WINONA, TEXAS

SALE DATE AND TIME:

Saturday, October 26- Lunch at 12:00 p.m. sale at 1:00 p.m.

SALE LOCATION:

7P Ranch, 10678 FM 757, Winona, TX 75792
Located 1.3 miles south of I-20 at exit 571B

ACCOMMODATIONS:

Country Side Inn, 12732 State Hwy 155 North, Tyler, TX 75708
903-877-9227 (6 miles from the ranch)

La Quinta Inn and Suites, 2759 McDonald Rd, Tyler, TX 75701
903-525-9677 (15 miles from the ranch)

Holiday Inn Express, 2451 SH 323 Loop E, Tyler, TX 75701
903-566-0600 (16 miles from the ranch)

SALE DAY PHONES:

Joe 903-530-2371
Tom 903-235-9112
Jared 406-321-1542
Corey 256-590-2487

SALE CONSULTANT:

Warren Garrett 903-316-2889

AUCTIONEER:

Mark Tillman 210-216-6754

TERMS OF SALE:

Terms of sale are cash or check to be paid in full at the conclusion of the sale. See recommended terms and conditions on page 23 of this sale book.

SALE CONDITIONS:

Each animal will be sold to the highest bidder with the auctioneer settling any disputes as to bids. Each animal will become the property of the buyer as soon as sold. All persons attending the sale do so at their own risk. 7P Ranch, nor any person connected with the sale, assumes liability, legal or otherwise, for any accidents which may occur.

HERD HEALTH:

All cattle will sell with proper interstate health papers. All females were calvhooed vaccinated. All sale cattle have been vaccinated with IBR, P13, Vibrio Lepto 5, and eight-way black-leg. All bulls have been fertility checked and all heifers are reproduction tract examined. All sell guaranteed breeders. All eligible cattle will be brucellosis tested.

BULL CARE:

Your yearling bull is a major investment. Experience has shown us that yearling bulls can function very well even in harsh environments. You can count on them to breed 15-25 females depending on the conditions. We have the following recommendations:

- If possible, run your yearling bulls separately from older bulls during their first breeding season.
- Make sure that your bulls gain weight in the fall after the breeding season before winter.
- Feed energy supplementation (grain) beyond simply grass and protein to your yearling bulls. Avoid feeding the young bulls in the same pasture with older or horned bulls.

Simmental EPD Explanations

CALVING EASE DIRECT (CE)

Reported as the difference in probability of calves being born unassisted out of first-calf heifers. Higher values are more favorable.

CALVING EASE MATERNAL (MCE)

Reported as the difference in probability of daughters calving unassisted as first-calf heifers. Higher values are more favorable.

MILK (MLK)

Reported as the difference in maternal pounds of weaning weight from an individual's daughters due to milk. Desirable values are dependent on management constraints.

MATERNAL WEANING WEIGHT (MWW)

Reported as the pounds of weaning weight expressed in daughters' progeny due to the milk production of the daughter and the direct genetic effect for weaning growth. Higher values are more favorable.

STAYABILITY (STAY)

Reported as the difference in probability of a sire's daughters staying in the herd until 6 years of age, given that they calved as a 2-year-old. Higher values are more favorable.

BIRTH WEIGHT (BW)

Reported as the difference in pounds of calf birth weight. Desirable values are dependent upon management goals, however if selecting for reduced calving difficulty the appropriate EPD to use is CE.

WEANING WEIGHT (WW)

Reported as the difference in pounds of progeny weaning weight. Higher values are more favorable.

YEARLING WEIGHT (YW)

Reported as the difference in pounds of progeny yearling weight. Higher values are more favorable.

CARCASS WEIGHT (CW)

Reported as the difference in pounds of progeny carcass weight. Higher values are more favorable. Only economically relevant if producers retain ownership or are driven by terminal performance.

RIBEYE AREA (REA)

Reported as the difference in square inches of ribeye area between the 12th and 13th rib. Higher values are more favorable. Only economically relevant if producers retain ownership or are driven by terminal performance.

BACK FAT (BF)

Reported as the difference in inches of external backfat at the 12th and 13th rib. Lower and more negative values represent less backfat, resulting in leaner carcasses, and are more favorable. Only economically relevant if producers retain ownership or are driven by terminal performance.

YIELD GRADE (YG)

Reported as the difference in progeny USDA Yield Grade score units (1-5). Lower values represent leaner carcasses with more saleable beef. Only economically relevant if producers retain ownership or are driven by terminal performance.

MARBLING SCORE (MRB)

Reported as the difference in progeny carcass marbling score. Higher values are more favorable.

ALL-PURPOSE INDEX (\$API):

Evaluates sires for use on the entire cow herd (bred to both Angus first-calf heifers and mature cows) with the portion of their daughters required to maintain herd size retained and the remaining heifers and steers put on feed and sold on a grid (carcass grade and yield). Use if you are planning on retaining females. A higher value is more favorable.

TERMINAL INDEX (\$TI):

Evaluates sires for use on mature Angus cows with all offspring put on feed and sold on a grid (grade and yield). Use in a straight terminal breeding program. A higher value is more favorable.

From the Sale Manager

Welcome to the 49th Annual 7P Ranch Production Sale! All of us at Allied Genetic Resources are very excited to be working with the Prud'homme family and Tom Barker on this sale. 7P Ranch is one of the longest running seedstock operations not only in Texas but the nation. They have long been known for producing quality Simmental genetics and in recent times the addition of marketing Simbrah females has made 7P a trusted source for producer to source quality bulls and replacement females. One does not last this long in the seedstock business without doing things right and providing their customers with cattle that work.

As you look through this offering you will find age advantaged bulls that are ready for heavy service as well as yearling bulls that are sired by some of the top Simmental genetics the breed has to offer. All of the bulls will be semen tested and ready to turn out this fall or can be held over for use in spring calving operations. The Simmental females in the offering are deep. No matter if you are spring calving or fall calving operation you can find females that fit your calving window. The Simbrah females are outstanding! It is hard to find a set of bred or open heifers like the ones in this sale.

We are experiencing some historic times in the cattle business. Our nations cow herd is at record low numbers that most of have never seen in our lifetimes. This puts the cow-calf producer in the driver's seat to turn healthy profits for the next several years as we rebuild the nation's cowherd. It is very important as we build back to use bulls that will add performance and hybrid vigor to capitalize on these record prices. It is also the best time to add quality replacement females. When you look at the price of calves and the price of cull cows these replacement females make sense to purchase right now. You can add quality young, productive females to your herd and have a chance of paying them off and making money in the next couple of years. We don't always see opportunities like this in our business.

If you have any questions about the offering, please reach out to any of us on the Allied team.

Sincerely,
 Marty Ropp, Corey Wilkins and Jared Murnin

American Simmental Association Terms and Conditions

BIDDING AND APPLICABLE LAW: All cattle listed in this offering comply with prevailing sale terms and conditions as set forth by the laws of the state wherein the sale is conducted. There are no warranties, expressed or implied, by either the auctioneer or consignor, except as set forth herein, as to the merchantability of fitness for any particular purpose of any animal offered in this sale. The right to bid or the right to reject the final bid, if done before the hammer falls, is reserved for all sellers unless otherwise announced from the sale block or as prohibited by law in the state wherein the sale is being conducted.

ANNOUNCEMENTS: Any change of information other than in the catalog will be announced from the auction block and such announcements shall take precedence over printed material. All statements made from the auction block or those made by the seller (in private treaty), must be documented by seller if requested by the buyer at time of sale.

TERMS: Terms of sale are cash unless satisfactory credit arrangements have been made with the seller previous to the sale of any animal so affected.

PURCHASER'S RISK: Each animal becomes the property of and therefore is also the risk of the purchaser as soon as it is sold; except it shall be the obligation of the seller to see that animals are fed and cared for free of charge to purchaser, until loaded for shipment or until the expiration of twenty-four (24) hours after the sale, whichever occurs first.

HEALTH REQUIREMENTS:

1. All cattle entered for sale must meet the health regulations of the state in which they are sold. All other agreements regarding the health of the animal will be between the buyer and seller and should be documented in writing.
2. If sale cattle are returned to the seller for an adjustment, they must meet the health requirements of the state they are returned to.

CERTIFICATE OF REGISTRY: Each animal, which is catalogued, offered and sold as a registered animal, shall have a certificate of registry available at time of sale. When an animal is sold as "eligible for registry" or "registry applied for", the seller shall be responsible for obtaining the certificate of registry and for the proper transfer of the certificate to the purchaser including full payment of transfer fees.

IDENTIFICATION: Each animal, at time of sale, must have a readable tattoo or brand corresponding to that shown on the certificate of registration.

AUTHENTICITY OF PEDIGREE: When an animal, through parental validation, is determined to have an ancestry other than that reported on the registration certificate, the buyer shall be entitled to a refund of the purchase price from the seller upon return of the animal to the farm of the seller at the seller's expense. The animal in question, at the buyer's option, may be exchanged for another animal of equal value, or if agreeable with the buyer, the seller may have the certificate returned to the buyer. Any adjustment provided herein, if selected, shall absolve the seller from further liability for authenticity of pedigree to the buyer.

BREEDING GUARANTEES AND DEFINITIONS:

1. Females are guaranteed to be breeders, with the exception of:
 - a) Female calves sold at side of dam
 - b) Injury or disease occurring to the animal after time of sale
 - c) Gross negligence or willful misconduct on the part of the purchaser
 - d) Females used in ovum transplant after time of sale
 - e) Cows sold with calf at side or a female that calves after sale to breeding prior to the date of sale
2. Bulls are guaranteed to be breeders (definition as the ability to settle healthy cows by the time the bull is 18 months of age) with the exception of:
 - a) Bull calves sold at side of dam
 - b) Injury or disease occurring to the animal after time of sale
 - c) Gross negligence or willful misconduct on the part of the purchaser
 - d) Bulls shown competitively after sale
3. Any guarantees with respect to the ability to freeze semen shall be made by separate agreement between buyer and seller.
4. Safe in calf females are females that have been diagnosed pregnant by a competent veterinarian, and are pregnant at time of sale.
5. A bred female is a female known to have been served by a bull either by natural breeding or artificial insemination, but it does not necessarily mean that the female is safe in calf to that service.
6. A pasture-bred female is a female that has been pastured with a designated bull and has been exposed for the time stated, but it does not necessarily mean that this female is safe in calf to that bull.
7. An open female is a non-pregnant animal.
8. Calves sold off their dams (split pairs) shall carry the full breeding guarantee.

PRIVILEGE OF PURCHASER TO EXAMINE: The purchaser of a female animal may have her examined within twenty-four (24) hours after the fall of the hammer and prior to removal from sale premises. The pregnancy status of breeding status of a female so examined, when found not to be as represented at the time of sale, is cause for the female to be returned to the seller as unsold.

EMBRYO TRANSFER:

1. Sellers should provide upon request a complete history of embryo transfer activity for any female offered for sale.
2. Withholding information on the existence of frozen embryos at the time of sale would be considered an unethical practice.

HORNED-SCURRED-POLLED DEFINITIONS:

1. **HORNED** – An animal with a horn growth affixed to the skull that has or has not been removed.
2. **POLLED/SCURRED** – An animal with rudimentary horn growth that will not develop into a horn. The rudimentary horn growth may or may not become affixed to the skull at an older age.
3. **POLLED** – An animal with absence of horn growth. (An animal can have scurs and still be genetically polled.)
4. **SMOOTH POLLED** – A smooth-polled individual has no scurs and does not develop scurs later in life.

GUARANTEES:

1. If an animal is sold as polled or polled/scurred and proves to be horned, the seller shall be obligated to refund the purchase price upon return of the animal to the farm of the seller at the expense of the seller or may be exchanged for a polled animal of equal value whichever is acceptable to the buyer. The buyer has thirty (30) days from date of sale to notify the seller that an adjustment is in order.
2. If an animal is sold as smooth-polled and proves to be scurred, the seller shall be obligated to refund the price upon return of the animal to the farm of the seller at the expense of the seller or at the buyer's option shall be exchanged for a smooth-polled animal of equal value.
3. If an animal is sold as polled and develops scurs, the seller will not be obligated to make any adjustment as a scurred animal is considered polled.
4. If an animal is sold as polled and has scurs, it shall be so announced at the time of sale that the animal has scurs. If it is not announced and the buyer finds before the animal leaves the sale premises that the animal has scurs, the buyer must notify the seller of the findings. The seller shall then be obligated to refund the purchase price.

OPTIONS AND PRIVILEGES OF RETURN OR ADJUSTMENT:

The following adjustments do not preclude the right of the buyer and seller to mutually agree upon other terms and conditions for settlement of any dispute.

1. All claims for adjustment or refund must be made in writing either six (6) months from the date of sale or no later than when the animal reaches 24 months of age whichever occurs later, with the exception of claims involving misrepresentation of service sire or as otherwise provided herein.
2. In the event an animal is claimed to be a non-breeder, the animal may be returned to the farm of the seller, at the buyer's expense, if in good physical condition, and the return is in compliance with the health requirements of the seller's state. The seller shall be entitled to a six (6) month trial period following the return of the animal in which to prove the animal is a breeder. If at the end of six (6) months the seller is unable to prove the animal is a breeder, the seller shall, at the option of buyer, replace the animal with another equal value or refund the purchase price. Either option shall be deemed full satisfaction and settlement.
3. If a female is sold as "safe in calf" to a given sire or sires on a specified date or dates and proves not to be as represented, the buyer is entitled to a refund of the purchase price from the seller upon return of the animal and resulting progeny thereof to the farm of the seller at the seller's expense.
4. If a female is sold as "open" and proves to be with calf at time of sale and examined pregnant within sixty (60) days after sale, the buyer may return the animal to the farm of the seller prior to calving for a refund of the full purchase price or for another animal of equal value, whichever acceptable to the buyer. It shall be the obligation of the seller to bear any expenses incurred for transportation of the animal in question to the farm of the seller.

GENETIC TESTING AND TraitTrac STATUS: Sellers must identify the TraitTrac status and the results of any qualitative genetic testing performed on any animals or genetic material offered for sale. The ASA considers it an unethical practice to misrepresent or fail to disclose the TraitTrac status or qualitative genetic test results of any animal or genetic material.

DISCLOSURE OF MATERIAL INFORMATION: Sellers must disclose all material information concerning any animal or genetic material offered for sale. For the purposes of these Sale Terms and Conditions, "Material Information" is defined as any information which would be likely to affect the value of the animal or genetic material if the information were known to the public.

Material Information includes, but is not limited to, information related to genetic tests, blood tests, ultrasound pregnancy results, disease tests, pregnancy and fertility test results, information related to the sex and age of in utero calves or embryos, and information related to the fertilization status of in utero calves, including whether the calf was conceived via artificial insemination or natural service. The ASA considers it an unethical practice to misrepresent or fail to disclose any Material Information concerning an animal or genetic material offered for sale.

LIMITATIONS OF OBLIGATIONS: These sale terms and conditions constitute a binding legal obligation between the buyer and seller of any animal or genetic material sold under these terms and conditions. However, the ASA, its directors, officers, employees and agents do not assume any obligation, legal or otherwise, to enforce the sale terms and conditions agreed to between buyer and seller.

You know the ropes when it comes to ranching, and with over 100 years in the ag lending business, so does Texas Farm Credit. Find out why we're such a good fit with farmers and ranchers.

Kyle Watts
Branch Manager
903-245-2226
KWatts@TexasFCS.com

Offering Loans for:

- Farms & Ranches
- Rural Real Estate
- Cattle Operations
- Equipment Purchases
- Homes & Rural Land

"I mention Texas Farm Credit to my friends and associates. Their professionalism and expertise in the ag industry is very strong. Thanks to TFC, our operations have strengthened."

- Jack W.

Nothing is without risk, especially farming and ranching in Texas. We have an insurance program that helps our customers manage the liabilities in their lives and livelihoods.

Insurance Programs:

- Pasture, Rangeland and Forage (PRF)
- Livestock Risk Protection (LRP)
- Annual Forage Insurance
- Crop Insurance
- Life Insurance

Adding value to your calves doesn't have to be complicated.

Drive profitability without adding complexity with the Purina® Wind and Rain® Mineral Value-Added Program.

Fueled by the power of Wind and Rain® mineral with a proven performance advantage through 15 months of age.*

Contact your local Purina dealer to learn more.

PURINA
WIND AND RAIN
PROGRAM

If you currently feed Wind and Rain® mineral, you may already qualify!

Requirements: To qualify for the program, dams must be fed Purina® Wind and Rain® mineral or Purina® RangeLand® Pro mineral for 60 days prior to breeding through calf weaning. Calves must be fed Purina® mineral as part of their nutrition program from conception through sale delivery.
