# Welcome

This year has been an exciting time to be in the cattle industry. With the current cow herd still at historic lows, we do not see an immediate reason why the cattle market will change within the upcoming year. We hope the fall rains continue and feed prices remain cheap!

This year's offering is something we are extremely excited about. We have continued to push the envelope on maternal power as well as growth and carcass genetics to ensure the profitability of our customers. We believe the cow comes first, and we strive to produce bulls that not only give you an ideal cow, but offer the amount of growth and carcass one needs to perform in all areas of the cattle business. It is important to us that we identify the superior proven bulls such as Kenworth, Stone Cold, Eclipse, High Ridge, Ground Breaker, Honor, Eagle, and Essential. We also strive to produce the next generation and fresh pedigrees of new sires such as War Paint, Rarity, Homelander, the Angus sired pen, and Reserve.

Please make plans to be with us on November 9, 2024 for our sale. If you are unable to attend, please feel free to come view the cattle anytime ahead of the sale at your convenience. We will have several options to bid such as DVAuction or being on the phone with one of us for absentee bids. All of our cattle come with a complete satisfaction guarantee, so bid with confidence not only in the animal but in us and our program! Please give us a call with any questions!

Thanks,  
*The Gibbs Farms Crew*

- 63 years in the cattle business, Celebrating our 19<sup>th</sup> sale -

## Managed the Gibbs Farms Way

What does it mean to be managed “The Gibbs Farms Way?” The answer is simple, and we hope it is true. We manage our cattle the way most commercial programs run their cattle, cost-efficient, resource-efficient, and cow-efficient.

- **COST-EFFICIENT** We believe running a cost-efficient program is more essential now more than ever. Every year it appears that input prices continue to increase. To be a cost-efficient program you have to minimize costs while maximizing value. Ask yourself how genetics can do that for you.
- **RESOURCE-EFFICIENT** Let’s face it, land values will continue to increase over time and our value of water will continue to increase as well. It brings us to the famous word “sustainability.” Sustainability is a social goal for people to co-exist on Earth over a long period of time. The actual definition of this is often debated but we feel as if it is this, “Meeting our own needs as an industry collectively without compromising the ability of future generations to meet their own needs.” We believe there is no other person or entity that does this better than the American farmer or rancher, but ask yourself again, how can genetics do that for you.
- **COW-EFFICIENT** Cow efficiency is a hot topic throughout the cattle business now. Keeping mature cow size in a reasonable weight is completely necessary for your program. It is no secret that a 1700 lb cow eats way more than a 1300 lb cow. We believe that selecting cattle that perform in your environment as well as performance in the feedlot is required to be profitable in today’s cattle industry. Our cows are required to breed back, have an excellent udder, maintain body condition, and wean a heavy calf. Ask yourself how can genetics can do that for you.

So let me answer my own question, “How can genetics do that for you?” Pick a seedstock provider that is working towards the same goals as you should be doing. We cannot afford to be running all of our cows on a feed bunk. We select the genetics who are efficient in our environment. The number one cost to a commercial producer is not feed, fuel, or a green tractor. It is replacement females! We have a strict 45-day calving season. We do not believe in giving that open cow a second chance. Contrary to what many think, the southeast region of the United States has many challenges such as extreme heat, toxicity of fescue, and very limited resources. We continuously ask our cows to do more with less. Efficiency is everything and data proves that our cattle are doing so. There are many different ways one can become more sustainable and we believe a simple and easy way is in your genetics. Demand your seedstock provider to use all forms of technology available to produce the very best cattle that do exactly what you want. Pick a seedstock provider who values cattle that cash flow. Raising cattle is all that we do here at Gibbs Farms, and we are very passionate about producing superior genetics that not only win for us on sale day, but they win for you, our customer, in their program on your payday, and they win for the packer on their payday. We strive to become more sustainable. The best way we can do that for you and the future generations is produce a product that we all can win in.

***OUR SUCCESS DEPENDS UPON OUR CUSTOMERS’ SUCCESS.***

## General Sale Information

### SALE DAY CONTACTS

Doug Gibbs	404.717.2264
Bradley Gibbs	404.904.2914
Sam Young	770.710.4588
Marty Ropp	406.571.7835
Corey Wilkins	256.590.2487
Whitney Gibbs Brand	770.328.6752
Gordon Hodges	336.469.0489

### SALE LOCATION

1358 County Road 68, Ranburne, AL 36273

#### Directions:

Coming from the east, take HWY 166 from Bowdon, GA and go 4 miles to State Line Road.

Coming from the west, Exit 205 off I-20 and follow HWY 46 for 16 miles through Ranburne to State Line Road.

Go South on State Line Road for 0.8 mile, at the four way stop, take a right and Gibbs Farms Sale Facility is 0.3 miles on the left.

### SALE SCHEDULE (Times listed are CST)

# Improved Buying Confidence with Greater Genomic **ASSURANCE**

Access to more and better information has always been key to making wise decisions. The evolution and improvement of genetic evaluation tools too has given us an ever-clearer picture of the true genetic makeup of cattle and thus a better view of the value proposition. RightMate, powered by Top Genomics LLC is taking the evaluation of genetics and genomics one giant step further. By combining specific genomic information with the long-proven value of EPDs, this new advancement in technology improves our depth and precision when evaluating the actual ability to transmit value and profit.

The 3 Accreditation Logos below are designed to simplify bull selection and improve buyer confidence by more accurately describing the genetics offered and by reducing risk. What this means to you as a customer is a much greater assurance that you are getting both what you want and need from the genetics you purchase. What it means to your seedstock provider is access to RightMate technology that simply sets them apart from the rest of the industry.

**ACCREDITED GENOMIC PLUS** – For the majority of producers who simply need consistent and balanced genetic improvement, without genomic setbacks, G+ Accredited bulls should be on your list for premium purchase. These sires will absolutely move you forward for both cost reduction and income producing traits and substantially reduce risk when compared to all other evaluation programs. It's simple, the right genes are in these bulls to help secure a profitable future and they have great EPDs to match!

**ACCREDITED CALVING EASE** – Simply find bulls with the ACE logo for third party Accredited, secure Calving Ease bulls. Though we have had tools in the past to assist in choosing heifer bulls, we've never had one nearly this effective. The reduced risk that comes with this genomic certification will simply make your decisions easier and your heifer calving season more successful. Purchase special purpose ACE bulls with confidence. They will deliver consistent and predictable calving ease.

**ACCREDITED TERMINAL MATE** – Just like an ATM machine makes it simpler to access your cash, the ATM Logo highlights bulls accredited to generate extra cash income as soon as your next calf crop! These bulls are meant specifically to use only on mature cows and for the purpose of adding performance, pay weight and end product value to market.

# A Note From The *Sale Manager*

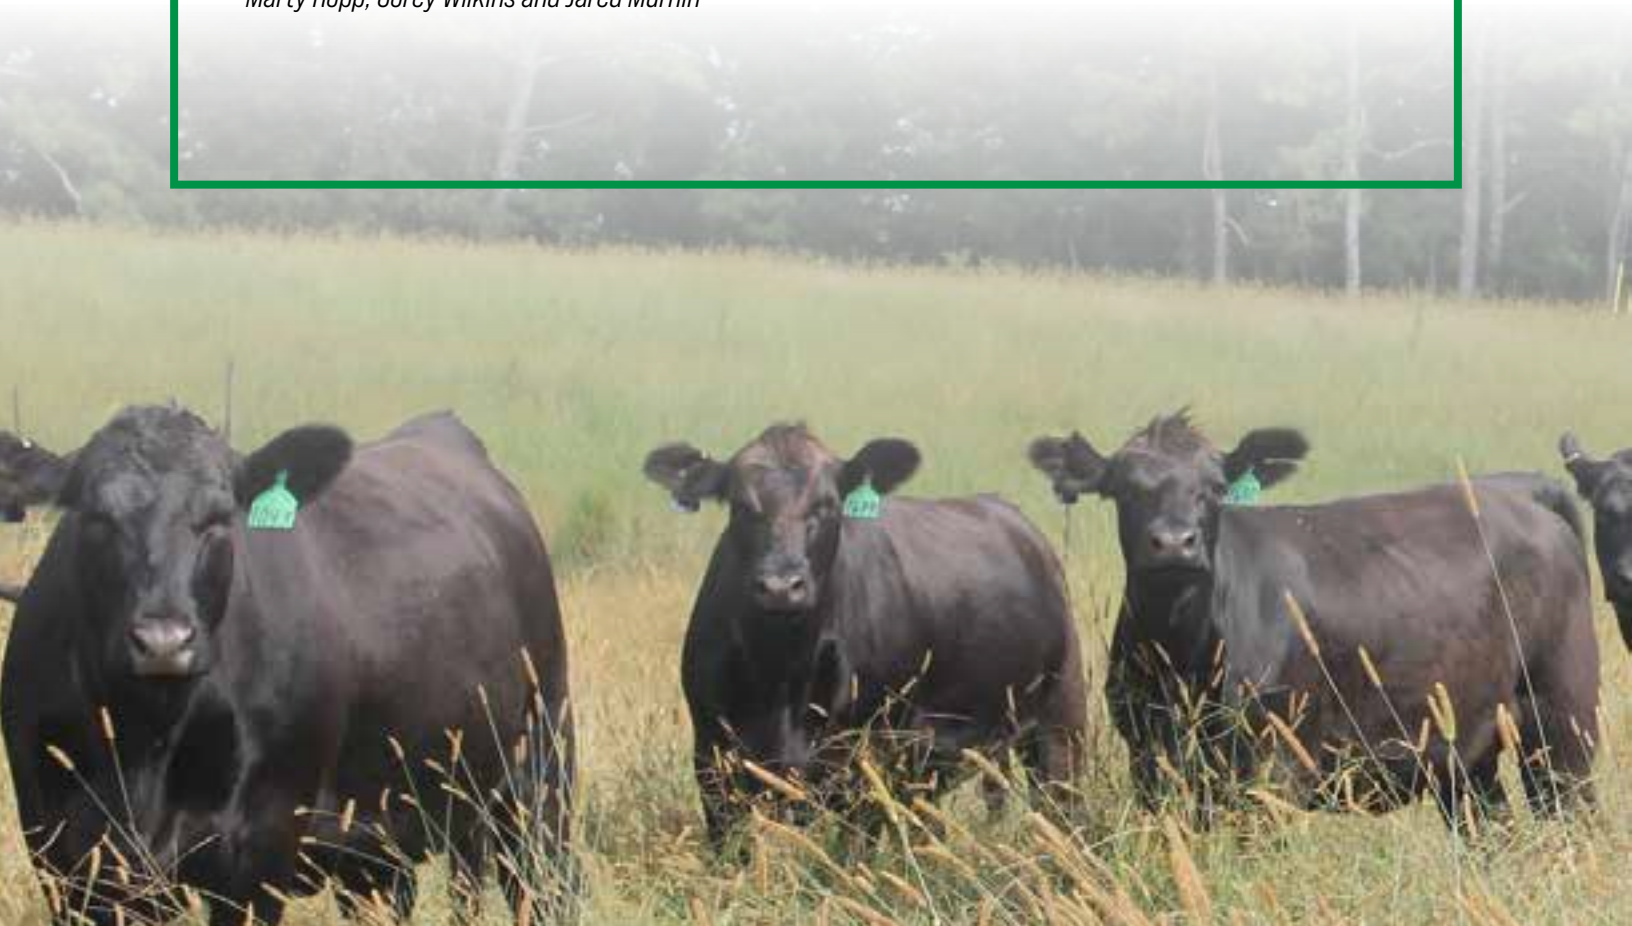

Welcome to the Gibbs Farm Annual Bull & Replacement Female Sale! What a phenomenal set of cattle the Gibbs crew has produced for your appraisal the second Saturday of November. From Lot 1 to 337, quality and genetic advancement is represented in every animal. We hope you are planning to experience the hospitality and large volume of Sim genetics the Gibbs crew will have on display November 9 in Ranburne, AL.

Fruitful times in the cattle business has arrived for cow calf producers all across our great country. Producers are receiving record breaking prices for all classes of beef cattle. The demand for US quality beef and the low inventory of the US cowherd has been the driving forces behind the record prices. We get the question on how long will prices stay this strong? Most of the sophisticated price predictors say cattlemen will remain seeing strong feeder cattle prices into 2027. A much larger window than the 2014 and 2015 window of feeder cattle price spikes.

Selecting a seedstock producer who can cover your two basic needs in genetic improvement and superior service is a must. The genetic potency of the Gibbs Farm is simply unmatched. Superior marbling, maternal traits, growth and calving ease can be found all through the strong offering of bulls. The genetic horsepower of the herd has led to the GF prefix of having a strong reputation in video sales platforms and cattle feeders throughout the country. The service component of Gibbs farms offers a strong warranty, affordable deliver, and a continued effort to make your feeder cattle and bred females more valuable to buyers. If you have not gave a Gibbs animal a chance, they will backwards in order to earn your business.

We hope you can join us November 9 or catch the sale online on DV. As always if we can be any assistance, please do not hesitate to reach out.

Sincerely,  
*Marty Ropp, Corey Wilkins and Jared Murnin*

# Generations of Progress

Dewey Gibbs, Wendell's dad, patriarch of Gibbs Farms. Hard working, Conservative, Innovative, Soft Spoken. Owner of Gibbs Feed and Poultry and 30 plus chicken houses and over 100 cows in the late 1940s.

**2005**  
Marketing 40 bulls private treaty and 100 bred heifers.

**2006**

Built the sale barn and had Rob Harms come in full time as the lead cowboy.

**2006**

November 11, 2006, we had our first sale. Sold 115 Bulls and 150 Heifers.

**1999**

In addition to marketing the first bulls and females, Wendell was president of the Alabama Cattlemen's Association in 1999.

**2002**

Doug Gibbs returns to the farm full time in 2002.

**2002**

Significant expansion begins in 2002 with cattle purchased from Pat Dye and Sherrod Angus. A new commodity barn and the first cabbed John Deere tractor.

**2006-2007**

Established our first website and bought our first AI bull with ABS, Dikemans Sure Bet.

**2006**

Purchase of Optimal Beef Genetics of Burlington, NC and hired Gordon Hodges as the Genetics and Marketing Manager.

**1988-1992**

Wendell retires from banking, and purchases Dewey Gibbs's polled Hereford herd and introduces Hybrid Vigor.

**1961**

Wendell and Nan Gibbs married.

# GF

## 2008-2012

2008 BCIA Alabama Purebred Breeder of the Year

2012 Wendell is inducted into the Alabama Livestock Hall of Fame

2012 Georgia Simmental Breeder of the Year

## 2012

Purchase of the three youngest generations of Sunshine Farms. Including the Y534 Louise cow

## 2017

Sold Gibbs 7382E Broad Range for a record setting price to Select Sires, Trauernicht Simmentals, TNT Simmentals and Select Sires.

## 2020

Sold Gibbs 9114G Essential for a record setting price to Genex, All Beef, J/C Simmentals and Salinas Farms.

## 2024

Gibbs Farms Inaugural Spring Sale

## 2012-2014

Clayton Young, Sam Young and Bradley Gibbs, Wendell and Nan's grandsons, all enjoyed the farm through summer and in between sports. 2014 Clayton pursued his dad's foot steps in being a teacher and a football coach. Sam finished high school and eventually went into law enforcement, and now is a Game Warden for Cleburne County. Bradley returns to the farm full time and purchases the last remaining herd from Gordon Hodges.

## 2008

Gibbs acquire T N T Dual Focus T249 with ABS

## 2014

Sold Gibbs 3133A Mountaineer to Fred Smith Company Ranch. Mountaineer is still being used heavy today.

## 2022

2022 largest sale to date. 185 bulls and 200 females. Currently running 850 brood cows. Looking forward to developing fourth generation at the Ranch.

## 2024

Sam Young returns to the farm and started working full-time

Since 1961

This year's "Lot 1" bull was a no-brainer. 3125L is the purebred bull we have been searching for a long time. He is a complete outcross to most of the popular purebred bloodlines today. He offers so much mating flexibility with his pedigree and his phenotype. This bull is loaded with muscle, depth of body, and eye appeal. He is sound as you can make one and travels flawlessly. He is backed by one of our best young donors and goes back to the "Louise" cow family. He is a maternal brother to last year's highlight bull GIBBS CULMINATION 2411K. We would love to sample this bull in our A.I. program. He would be the perfect cross with our Essential, High Road, Honor, and Genesis cow families.

**GIBBS 3423L RESERVE** Sells as Lot 4.

**GIBBS 7019E BRONCO** Maternal brother to Lot 4.

The Reserve x 0532X flush is extremely nice. All the bulls and heifers are cookie cutter and are the model for consistency. Admired for their fleshing ability and hoof shape, look for this flush to give you that maternal power. 0532X is a proven donor here and is the dam of Kenworth. Any of these three bulls can move your program forward.

# LCDR RESERVE 210J

## SIRE OF LOTS 5-14

The Reserve progeny are home run hitters in the 2024 sale offering. The cattle provide ample calving ease, explosive growth, and undeniable balance and eye appeal. What makes us so excited for the Reserve progeny is that he offers a completely new genetic line of purebreds to our operation and customers. We lead off the sale book with some impressive flushes sired by Reserve, but the power and quality runs deep in this impressive sire group.

One of the first bulls to ever be marketed out of the Mayhayley cow that we purchased from JC Simmentals in Michigan with All Beef and Salinas Farms. This baldy reserve son has a striking profile and offers a ton of mating flexibility. A 3/4 Simmental can be mated to purebreds to make purebreds or SimAngus to make SimAngus. We plan on making more 3/4 bloods in the future.

The Reserve x 0532X flush is extremely nice. All the bulls and heifers are cookie cutter and are the model for consistency. Admired for their fleshing ability and hoof shape, look for this flush to give you that maternal power. 0532X is a proven donor here and is the dam of Kenworth. Any of these three bulls can move your program forward.

**Wilson Farms**  
**Heflin, AL**

“For almost two decades we have purchased SimAngus Bulls from Gibbs Farms to use in our commercial cow-calf operation utilizing natural service over 60 days, fertility and longevity are a must. These bulls have proven themselves year in and year out to “hold up” due in part to the stringent bull development program that is unique to Gibbs Farms.

Over two decades of online feeder calf marketing, with value added programs have consistently given us top dollar as well as repeat buyers at sale time. The Gibbs name has become synonymous nationally for industry leading SimAngus genetics. Whatever the genetic trait or package you are looking for they always have a prospect, backed by a bull guaranteed that is one of the best available. We are fortunate they are here at home.”

**GIBBS 3L06 HONOR** Sells as Lot 12.

**SSF BLK LOUISE Y534** Dam of Lots 12-13.

# Honor x Y534 FLUSH BROTHERS

If you have opened a Gibbs Farms sale book over the past 8 years, you know the Y534 Lousie cow family is certainly familiar and has been a staple to our program. She is still alive and well and is serving Lucas Cattle Company today. Her incredible production record has allowed us to build our purebred herd around her. We have offered several different matings to her with such success. This Honor x Y534 mating is just different than most. A touch more power and frame as well as more muscle and bone. Look for this mating to be a proven touch to your program of some of the best cow families that the Simmental breed has ever seen.

**Sale Terms and Conditions**

**Herd Health...** Every sale animal and the entire Gibbs Farms breeding herd is properly vaccinated and boosted annually for 7-Way Clostridium, IBR-BVD-BRSV-PI3, Hamophilus Somnus, Pasturella, Leptospirosis, and Vibriosis. All heifers are calthood vaccinated for Brucellosis and every calf born on the farm each year is tested for BVD-PI. All sale animals have been tested negative for Johne's Disease and the cow herd is being tested annually. All animals on the farm are treated at least twice annually with a parasitic pour-on and at least once annually with Safe-Guard drench. All bulls have successfully passed a complete breeding soundness exam.

**Guarantee on the Sale Females...** Every open heifer selling is guaranteed to be open at the time of the sale and guaranteed to be a satisfactory breeder provided they are managed for proper and acceptable nutritional and physical health. In the event a heifer proves to be a non-breeder, the customer must contact Gibbs Farms on or before May 15, 2021 to make a claim. A veterinarian's statement will be required and Gibbs Farms reserves the right to have the heifer returned if deemed necessary. The customer will be given a full credit (minus salvage value of the original heifer) to be used in a future Gibbs Farms Sale. Every bred female is guaranteed to be bred on sale day as stated in the sale catalog or as updated from the auctioneer at the time of the sale. In the even any bred female is found to not be bred represented when sold, the customer needs to contact Gibbs Farms immediately and no later than May 15, 2021. The customer will be given a satisfactory credit on a future Gibbs Farms Sale. Remember: All potential claims must be made to Doug Gibbs or Bradley Gibbs at Gibbs Farms on or before May 15, 2021.

**Genetic Conditions...** The knowledge and testing technology for all types of genetic conditions is almost changing daily. What we knew to be policy yesterday may be obsolete today. Our policy at Gibbs Farms is to fully follow and abide by any and all testing and reporting policy pertaining to genetic conditions as recommended by the American Simmental Association. We further state that our personal policy is to not market any animals known to be carriers or suspected of being carriers of any genetic conditions classified by the ASA as lethal and/or high occurrence. On any animals known to be carriers of other non-lethal genetic conditions that the ASA recommends testing, we will test and provide results on any animals marketed. For full disclosure and explanation of all genetic conditions monitored by the ASA, please refer to the TraitTrac shown on their individual pedigree on the ASA website.

**Guarantee on the Sale Bulls...** Every Bull selling is guaranteed to be sound on sale day to the best of our knowledge and has successfully passed a complete breeding soundness exam performed within 60 days of sale time.

**Full Purchase Value Extended Warranty on Sale Bulls...** Every bull selling carries a 100% guarantee extended warranty for one breeding season, provided the bull is managed for proper and acceptable nutritional and physical health, not to exceed six months beyond sale day. In the event customer has any problem with a bull should immediately contact Gibbs Farms to report a claim. A veterinarians statement of the problem will be required and Gibbs Farms reserves the right to have the bull returned if necessary. A replacement bull of mutually agreed upon quality will be provided if Gibbs Farms has one available with delivery expense not to exceed Gibbs Farms Delivery amounts on regular sale day animals. If a satisfactory replacement bull is not available, the customer will receive be given full sale credit (minus salvage value) to be used at future Gibbs Farms Sale. Gibbs will not be responsible for any settlement amount exceeding the purchase price of the bull.

Remember: All Potential Claims must be made to Doug or Bradley at Gibbs Farms prior to May 15, 2021.

**NO ONE CAN GUARANTEE EVERY ANIMAL WILL PERFORM PERFECTLY, BUT AT GIBBS FARMS WE GUARANTEE WE WILL MAKE THINGS RIGHT IF THEY DO NOT!**

# KBHR HONOR H060

## SIRE OF LOTS 15-22

Multi-purpose cattle who excel at both maternal and terminal traits can best describe what we have seen in the Honor cattle. Honor sons represent the cattlemen kind and will provide unprecedented value across the board. The sons of Honor will sire cattle who come small and explode thereafter for growth. The daughters are sensible for mature size and offer added fleshing ability.

## SIRE OF LOTS 23-29

Gibbs Essential was our 2020 high seller and his progeny is creating quite the buzz in the Simmental business in recent months. Essential is proving to be a genetic superstar who rivals any bull in the business for the spread he offers from birth to yearling. The sons are wonderful structured, easy to look at, great for docility and will no doubt sire cattle who create premiums.

# Eagle x Y534 FLUSH BROTHERS

These two Eagle sons out of the Y534 cow are the perfect example of a proven and no-holes mating. They seamlessly blend elite maternal power and stoutness that can rival any in the country. In person this flush is physically imposing and displays a tremendous amount of growth. With their proven pedigree, one can guarantee the daughters produced from this mating will be exceptional.

If you are searching for elite heifer bulls that will not sacrifice growth and body type, look at the Enhancement cattle. The first daughters have just calved and they are tremendous. Admired for their beautiful udders and phenotype, they are the cattlemen's dream. These two flush brothers are truly something to get excited about. They are outcross to many popular matings, and have a phenomenal look.

This bull is a result of some purchased embryos from the breeder of Reserve, Lazy C Diamond, out of North Dakota. The dam is the granddam of Reserve and has an impressive production record and is admired for her standout eye appeal. This bull is completely outcross to our program and is a true breeder bull that deserves some attention. His outcross pedigree and superior phenotype is impressive. He does have some flush sisters that we retained in the herd and, they have donor potential written all over them.

## EFFECT OF SIRE BREED ON SALE PRICE OF BEEF STEER CALVES

Superior Livestock Auction, Summer 2020<sup>a</sup>

SimAngus<sup>™</sup>-sired steer calves sold through Superior Livestock Auction in summer 2020 earned **more at sale time** than all other calves.<sup>a</sup>

It's no wonder the percentage of SimAngus<sup>™</sup> calves marketed through the industry's largest video auction has grown **eightfold** since 2010.

Want low-risk, high-potential calves with earning potential?

## STAND STRONG SIMMENTAL

406-587-4531 • [simmental.org](http://simmental.org)

<sup>a</sup> For lots of 50 head or more. <sup>b</sup> Kansas State University, December 2020, Superior Livestock Auction data analysis of 3,180 lots, 394,901 head of beef calves marketed during summer 2020. (P<.0001)  
<sup>c</sup> Lots that qualified for breed-related programs were excluded from the model due to potential confounding effects with sire breed analysis and, for many, few lots in the data.  
<sup>d, e</sup> Means without a common superscript differ (P<.05). Lots of calves in breed-identified groups were sired by bulls from the respective breeds and out of dams with no Brahman influence.

3130L is the lead off SimAngus bull and deservingly so. We have never produced a SimAngus bull with this type of breed leading figures on paper, and physically he is as good as you can make one. Loaded with muscle and eye appeal, 3130L is admired for his athleticism and foot shape. A bull that packs about as much growth in one as possible and keeps mature cow size in check. He comes from a young productive donor cow that goes back to the same cow family as last years crowd favorite GIBBS HAYMAKER 2380K. Look for this bull to be used throughout the industry as well as here if we can get some semen on him!

BALDY

This Homelander flush of bulls will be crowd favorites on sale day. They blend elite marbling genetics with outstanding performance. Their dam is a proven donor that is admired for producing superior phenotype and superior baldys.

# KBHR HOMELANDER J071

## SIRE OF LOTS 44-48

New blood for old customers is what KBHR Homelander will bring to the table for our customers in 2024. The Homelander cattle represent some of the highest TI values you will find in the IGS data base. If you are looking to add growth, marbling, and payweight we would encourage you to take a strong look at an impressive lineup of Homelander sons.

# GIBBS 9121G KENWORTH

## SIRE OF LOTS 49-60

Kenworth's consistency and quality of his progeny is making him the go to SimAngus bull in our program. The sons are exceptional for docility, foot quality, and hair shedding while providing an extra shot of growth and strong carcass figures. The wet daughters are cementing Kenworth legacy in our operation as one of our very best SimAngus bulls.

**Matthew Grogan**  
*AI and Ultrasound Technician*

We would like to thank Matthew Grogan from Calhoun, Georgia for his many years of dedicated service. Matthew assist us with AI during breeding season and then performs the ultrasound pregnancy exams for all of our cow herd, replacement females, and sale females.

# GIBBS HIGH RIDGE 0226H

## SIRE OF LOTS 61-67

The Highridge sons are built like bricks and will weigh like lead. They are moderate framed who are big bodied and heavy muscled. He will add weight to a set of calves and we believe his true calling card will be to sire incredible replacement. The cattle love the south being slick haired and are some of the best for hair shedding we have to offer.

# GIBBS KINGPIN 1140J

## SIRE OF LOTS 68-70

Take a small preview of what will be one of our laresgt offerings of bulls in 2025 in Gibbs Kingpin. The cattle absolutely will work in the south being great haired, easy fleshing and great for docility. Genetically the bulls offer ample calving ease, explosive growth and top tier profit indexes. We are excited for Kingpin and expect a lot more of them in the 2025 sale offering.

# GIBBS HILLTOP 0062H

## SIRE OF LOTS 71-76

Hilltop is combining the docility, hair shedding and soundness of his famous sire Triple Crown while siring cattle with all kinds of performance and growth. The Hilltop's will be perfect candidates if you are looking to add payweight for your next set of calves. Likewise, his combination of marbling and REA will sire cattle who garner premiums on the grid.

## Stewart Land and Cattle Rutherfordton, NC

I've been the manger at Stewart Land & Cattle for almost 30 years during which we have used different breed bulls on our commercial herd. For the past 5 years we have been using Gibbs SimAngus bulls, the weaning weights have been heavier and the calves really grow fast after weaning. The bulls and their calves have good disposition and the bulls hold up well during the breeding season on our fescue pastures. We always get a premium price for our Gibbs sired calves at market and the Gibbs family are good people to work with.

# GW TRIPLE CROWN 018C

## SIRE OF LOTS 77-81

Triple Crown is no doubt a genetic superstar bringing value across the board and every Triple Crown son received the G+ logo on Rightchoice. For those customers who have utilized Triple Crown in the past one can bet they will be repeat users as the cattle just flat work in multiple different environments. The sons bring to the table a unique package of calving ease, growth, and terminal merit. Likewise, his wet daughters are not only perfect for hair shedding but are wonderful for maternal traits.

This is THE Stone Cold son we have been looking for. A baldy bull that keeps everything we love about his sire (Superior feet, scrotal, and fleshing ability.) He even offers more marbling than his sire. 3363L is a bull we would love to use in addition to his sire. This bull does it all and will certainly move any program in the right direction! The white face is just an added "plus"!

GIBBS 3363L STONE COLD Sells as Lot 80.

GIBBS 3239L STONE COLD Sells as Lot 81.

**SIRE OF LOTS 82-86**

One of the very best baldy bulls in the industry can be found in TJ Stonecold. The bulls are balanced in every sense of the word. Genetically the Stone Cold sons display modest birthweights, and strong growth figures. Physically, they are level, big topped, and easy fleshing and always catches your eye with their striking balance.

**Gibbs Farms Bull Development**

Gibbs Farms Bulls are grazed on pastures containing KY-31 Fescue and volunteer summer grasses like common Bermuda, crabgrass, and clover very similar to the environment most of them will encounter when they go to work of the environment most southeastern cattlemen operate in. They remain in the large pasture environment from the time they are weaned right up until sale time, never spending anytime in a dry lot environment.

Yes, we supplement the bulls on a high roughage, properly balanced bull developer ration consisting of soyhull pellets, peanut by products pellets, cotton by products, ground hay, a special mineral package and enough extruded cottonseed meal to balance their protein needs. We never use high starch cereal grains in our breeding cattle developer rations.

Placing our breeding stock in settings which will replicate most commercial environments operate in, results in bulls who will absolutely meet your needs. We want customers to be able to recognize their bulls in coming months after the sale.

# TJ WAR PAINT 759J

## SIRE OF LOTS 87-100

We sampled TJ War Paint in our herd and super excited for the results. The cattle have a lot of type and eye appeal. The bulls are outliers for growth and offer an impressive combination of maternal predictors. If you want some power baldy bulls with lots of eye appeal look no further.

## ASA QUICK REFERENCE TO EPDS, INDEXES AND \$VALUES

**EXPECTED PROGENY DIFFERENCES (EPDS):** EPDs are the most accurate and effective tool available for comparing genetic levels. In using EPDs, the difference between two sires' EPDs represents the unit difference expected in the performance of their progeny. For example, if sires A and B have EPDs of +10 and -5, a 15-unit difference would be expected in their progeny (moving from -5 to +10 yields 15 units). Key to using EPDs is knowing in what units they are expressed. For example, if the above case referred to weaning weight EPDs, sire A would be expected to sire 15 pounds more weaning weight than sire B. If calving ease was the trait, sire A would be expected to sire 15 percent more unassisted births in first-calf heifers; in other words, if sire B sired 30 assists in a group of 100 heifers, we would expect sire A to require 15 assists. A percentile-ranking chart is required to determine where a bull's EPDs rank him relative to other bulls in the breed. For more detailed information about EPDs and \$ indexes, visit [www.simmental.org](http://www.simmental.org).

Listed below are the units in which ASA EPDs are expressed:

- ALL-PURPOSE INDEX (API): Dollars per cow exposed under an all-purpose-sire scenario.
- BACK FAT (BF): Inches of carcass backfat at 475 days.
- BIRTH WEIGHT (BW): Pounds of birth weight.
- CALVING EASE (CE): Percent of unassisted births when used on heifers.
- CARCASS WEIGHT (CW): Pounds of carcass weight at 475 days.
- DOCILITY (DOC): Percent of offspring receiving a disposition score of 1 (docile).
- MATERNAL CALVING EASE (MCE): Percent of unassisted births in first-calving daughters.
- MILK (MLK): Pounds of weaning weight due to milk.
- MARBLING (MARB): Carcass marbling score at 475 days.
- MATERNAL WEANING WEIGHT (MWW): Pounds of weaning weight due to milk and growth.
- RIBEYE AREA (REA): Square inches of carcass ribeye at 475 days.
- TERMINAL INDEX (TI): Dollars per cow exposed under a terminal-sire scenario.
- WEANING WEIGHT (WW): Pounds of weaning weight.
- YEARLING WEIGHT (YW): Pounds of yearling weight.
- YIELD GRADE (YG): Carcass yield grade score at 475 days.

**\$ INDEXES:** Though EPDs allow for the comparison of genetic levels for many economically important traits, they only provide pieces of the economic puzzle. This is where \$ indexes come in. Through well-conceived, rigorous mathematical computation, \$ indexes blend EPDs and economics to estimate an animal's overall impact on integrated commercial production. The same technology that led to the dramatic progress in swine, poultry and dairy genetics over the last several decades was used to develop the following \$ indexes:

**ALL-PURPOSE INDEX (API):** Evaluates sires for use on the entire cow herd (bred to both Angus first-calf heifers and mature cows) with the portion of their daughters required to maintain herd size retained and the remaining heifers and steers put on feed and sold grade and yield.

**TERMINAL INDEX (TI):** Evaluates sires for use on mature Angus cows with all offspring put on feed and sold grade and yield.

For more detailed information about EPDs and \$indexes, visit: [www.simmental.org](http://www.simmental.org)

## SIRE OF LOTS 101-116

The sons of Eclipse come light, many being suitable for heifers, and absolutely explode thereafter for growth. They offer a different twist in their pedigree for longtime customer and the caliber of his replacement females will make you happy to purchase an Eclipse son.

## Gibbs' Genetics AT WORK

**Clint Berry**  
*Superior Livestock*

"Over the last several years, I've been blessed with the opportunity to market cattle sired by Gibbs Farms SimAngus bulls for multiple, long time Gibbs bull customers, located in the heart of the South. These cattle consistently compete for the top of the market, as their reputation with our buyers have solidified the value in feedlot performance and carcass merit on the rail. Gibbs Farms genetics work both in the pasture and beyond."

## SIRE OF LOTS 117-125

Excited to market our first sons of Rarity cattle in 2024. The bull are big, long, and will add payweight and enhance terminal traits to his progeny. If you are looking to market a heavier set of calves a Rarity son will help you get there.

# C-3 GROUND BREAKER NS G953

## SIRE OF LOTS 126-135

We acquired Ground Breaker as a baldy bull who would increase growth and terminal merit and his sons should no doubt answer the call. The bulls are heavy muscled, big ribbed and stout hiped. His blend of both maternal and terminal traits is a rare find.

**FRAME SCORE**

**What is the RIGHT ANSWER?**

Everyone seems to have a strong opinion one way or the other in what the optimal frame size of a bull should be. First, any seed-stock producer would agree frame scores is the most difficult and inaccurate data we collect annually. Cattle not standing perfectly in the chute among other challenges will greatly compromise the accuracy of frame size. Make no mistake, we value growth as much as anyone but in our eye's growth traits are measured by the scale not by height. Likewise, the correlation between frame size and growth is not as highly correlated as one might suspect.

Ultimately, research shows cattle who fall in the middle in regards to mature frame size are the most productive in terms of weaning off the highest percentage of calf versus their body weight. We are not attempting to sway customers one way or the other we have bulls in the offering who fall in a wide array of frame size. However, placing a high selection pressure on frame size as it relates to growth might not be the best answers for customers.

# Gibbs' Genetics **AT WORK**

## Lovvorn Family Farms Graham, AL

"We have been purchasing Gibbs Farms bulls for the last 16 or 17 years, the first bull actually being bought private treaty right out of the pasture from Mr. Wendall. Over those years we have transitioned from a Brangus influenced herd and into a SimAngus herd through keeping Gibbs Farms sired replacement females. Gibbs farms genetics have performed both in the pasture and in the feedlot. For the past two years our steers have graded 93 and 97% choice and higher. This past spring when we blood tested our cattle we had a 96% conception rate in a 60 day breeding season, that was 100% natural service from yearling bulls to our oldest herd sire that is 10 years old. Our calving season started August 15th and by October 1 we are 85% finished, all by natural service. The Gibbs Farms bulls have helped make our cow herd into what it is today!"

# KENNY ROGERS

## SIRE OF LOTS 162-166

We tested Kenny Rogers on several purebred cows and are excited with the results. The sons are just different in their makeup. They will add frame and growth and will not sacrifice foot quality and structure. We rarely utilize an Angus bull twice but we feel Kenny Rogers will stick around in our breeding program for years to come.

The lead off Kenny Rogers son shows tremendous length, frame, growth, depth of body, and foot quality. Perfectly made and powerfully constructed, 3152L will add performance to any cow. If you sell your cattle by the pounds, this bull and his brothers deserve some serious attention.

GIBBS 3152L KENNY ROGERS Sells as Lot 162.

## CARCASS SELECTION Matters

We have been feeding and receiving carcass records out of our own cattle for over 20 years. Focusing on producing cattle who receives premiums on the rail is a large goal of Gibbs Farms.

# DB ICONIC G95

## SIRE OF LOTS 167-171

The Iconic cattle are moderate dense and wide. Genetically here is a bull who will add pounds and with his added fleshing ability we feel like his daughters will be beautiful in production. Likewise, if you are in search of enhancing marbling the Iconic cattle will increase your chance of receiving premiums.

3644 is a huge spread bull with phenomenal carcass, docility, and growth. Flawless in his design and moves effortlessly. He is the natural calf out of 7077E, the dam to last year's high seller GIBBS SIGNATURE 2510K. One of the youngest bulls in the sale but also one of the stoutest. He has been an absolute standout here since day 1 and is one we would love to sample through our A.I. program.

**GIBBS 3461L DEADWOOD** Sells as Lot 173.

**POSS DEADWOOD** Sire of Lots 172-174.

**GIBBS 5319C LOUISE Y534** Dam of Lots 173-174.

**Triple D Farms Wallace, NC**

"Triple D farms is a family owned farm, we have been buying genetics from the Gibbs family for over the past ten years. We are a cow-calf operation, who have recently started to retain ownership of our calves. In Addition to sending our steers and some heifers to feed yards, we also keep and develop our heifers for replacements for our herd. Throughout the years we feel like Gibbs Farms has excelled in offering a balance of maternal and carcass genetics. This year our cattle that was sent to the feed yard averaged 129.26 in grid premiums, and were 95.65% choice or better. We value and appreciate our relationship with the Gibbs family farms. "

# Selling Choice

GIBBS 3400L SM STAR 0532X Sells as Lot 282.

Every year we give Corey permission to go deep into the replacement pen and pick out three of the very best genetic pieces we have in the whole herd. We ran into a problem this year and had two full sisters that we could not decide which was the best. Lot 281 is the the more moderate and thickest heifer in the flush. Lot 282 offers more frame and length of body. We feel certain that both of these females deserve to be in the donor pen because of their superior phenotype and pedigree. We are selling choice of 281 and 282. We are going to retain the female that is not chosen and intend to flush her this coming fall.

This Essential daughter has everything we love about her great sire. Loaded with eye appeal and power, this female is phenomenal. She offers a tremendous amount of mating flexibility because she is a 3/4 blood female and has an outcross dam. Look for this heifer to produce the next great one, because she is in fact a great one.

**GIBBS 9114G ESSENTIAL** Sire of Lot 283.

**DB ICONIC G95** Sire of Lot 284.

 This heifer is a tank! Coming from the "Star" cow family ensures that she will make an excellent cow. She is a first generation SimAngus and proves that hybrid vigor is real. She will certainly be a crowd favorite on sale day and is easily one of the best SimAngus heifers we have to offer.
