TRIANGLE J Ranch

Welcome to our Harvest Select Female Sale!

This sale will include many of our very best, from proven donor cows to the latest and most exciting genetics we have ever offered for sale. Since our very first female sale, our focus has been the same. We are here to offer sound, functional cattle (in volume) that present both eye appeal and the genetic numbers to move programs forward!

This offering will include **PROVEN DONORS**. Some are ready to flush right away, others will have a spring calf. We are selling our largest group of young cows and bred heifers to date. Many will be donors someday! As always, we are selling an elite group of open heifers. We are offering ALL of the Frosty, War Paint and Chief females born in 2024. Also selling are many of our embryo flush mates—without holding any back! This will allow you to pick from our very best.

The Darby Line Family

Coach Line with his favorite fans.

We are blessed to be in the cattle business at such an exciting time. We hope that you will be able to join us on November 3rd for our best offering to date. Thank You for your past business and we can't wait to meet new customers at the sale!

Sincerely,
Darby Line

Welcome to the 2024 Triangle J Harvest Select Female Sale! Once again, the Triangle J program will feature one of the largest offerings of SimAngus females in 2024. Flip through the book and one will be hard pressed not to be impressed with the quality of this fantastic set of females.

The Triangle J program balances genetic excellence with impressive phenotype to the highest degree. The selection pressure of increasing genetic potency without sacrificing balance and the practical cowman's trait has made Triangle J successful for decades. The growing embryo transfer program on multiplying some of the best young females in the herd has made Triangle J's genetic improvement faster than ever. Lastly, when you buy a TJ prefix you buy from a program. Massive sire groups and time-tested females are always a trademark of the TJ prefix.

As we travel the country and see the females who are rising to the top of cowherds the TJ Gold females come to the forefront. TJ 17J who headlines the sale will stack up with any young Gold daughter in the country. Likewise, the TJ crew dug deep in offering the full sib to the ever popular TJ Stone Cold. If one is looking for a cornerstone baldie female here is your chance. Finally, the open heifers come from large deep sire groups and a robust embryo program whose brothers will headline the bull sales in 2025. If you are looking for one female or fifty this impressive offering of genetics will take care of your needs.

We hope you have the chance to experience the hospitality and great cattle Triangle J will have on display November 3. As always, if we can be any assistance to you, please do not hesitate in reaching out to us for service.

Sincerely,
Marty Ropp, Corey Wilkins and Jared Murnin

harvest SELECT

SUNDAY, NOVEMBER 3, 2024

At the ranch in Miller, Nebraska • 1:00 PM (CT)

SALE LOCATION

At the ranch, 6 miles North of Miller Nebraska on Hwy 183, then 1 mile West and 1/2 mile South.

INSURANCE

A representative of Harding & Harding Insurance will be available at the sale site.

HOSPITALITY

Please join us for a complimentary lunch on sale day.

REGISTRATION AND TRANSFER

Registration certificates will be transferred to buyers upon request at the seller's expense. When making settlement, buyers must give complete written name and address information for making transfers.

ABSENTEE BIDS

Anyone wishing to bid who cannot attend the sale may place phone or mail bids by contacting any of the Line family, sale management, or sale staff.

TERMS AND CONDITIONS

Terms of the sale are cash. Every animal will be sold to the highest bidder. Announced changes on sale day take precedence over printed material in this sale book.

All cattle are the buyer's property as soon as sold and will be cared for a reasonable length of time at the buyer's risk. Any person attending the sale does so at their own risk. Neither the sale management, owners, nor any person connected with this sale, assumes any liability, legal or otherwise. All animals listed in the sale book as homozygous black or homozygous polled are done so to the best of our knowledge. We are not liable for any inaccuracies.

SALE ACCOMMODATIONS

Open Ready to Flush.

A great TJ Gold daughter who has been a great producer for us in the past. We left her open in the summer so we could get some more embryo inventory on her. Her Resource females in the sale will be certain to be highlights, and we could not be more excited on how her sons look on development. She stems from the 6C donor who was one if not the best Cowboy Cut female we had on our place. We feel 17J is Gold purebred female who still has a lot future left and is hard to part with.

Open Ready to Flush.

A wonderful Wide Range purebred female, we gained when we purchased the Altenburg herd in Colorado. She is picture perfect physically with wonderful udder quality, added mass and depth of body. The El Dorado flush will be featured in the open heifer division and her sons we have big expectation for in the spring of 2025.

Proven Producer.

ASR MS DESI H001 Sells as Lot 3.

Outercross Genetics.

We are always looking for some outcross females in our purebred herd and H001 does exactly that. We flushed her heavy over the summer months to gain an ample embryo inventory on her prior to the sale. She offers endless mating flexibility and mating options with her very unique pedigree. Physically she will add everything you expect in higher percentage cattle long bodied, heavy muscled and reads with added power.

171K Flush

The Coach Campbell X 17K flush sells in its entirety and we lead off our open heifer division with the powerful sisters. Here is a chance for buyers to acquire some fresh purebred genetics who can serve as a cornerstone donor for any operation. The females are blessed with undeniable balance and eye appeal and offers balanced genetic predictors across the board.

95A Flush

The 95A females have dominated our heifer sales in the past and we expect a lot of the same in 2024 with her 3/4 SM Bold Ruler daughters. They offer multi trait excellence from a genetic standpoint and they have the striking balance that has made the 95A progeny so popular in the past. Here are 4 flush sisters you can have a lot of confidence in that they will perform and produce in the future.

36K is a Teardrop female who is new to our donor lineup and her first Bold Ruler females and bulls will cement herself as a donor cow in our operation for years to come. Not only do the heifers read with as much genetic horsepower from an API and TI standpoint as anything in the sale, but backs it up with picture perfect phenotype.

58M Sells as Lot 109.

Open Heifers

We decided to flush the 827F donor once again to Bold Ruler as we were so excited with the results last year. A full sib to this mating was our high selling open heifer and the bulls were all highlights in the 2024 spring bull sale. The depth and quality of this flush should once again generate interest both near and far.

79M Sells as Lot 110.

The Pontiac X 2G flush is coming to the forefront of both our bull and female sale. The females are dense, bold bodied and are awesome for docility. They offer an immense amount of mating flexibility to many mainstream pedigrees and will be certain to have bright futures ahead of them.

2G Flush

CHIEF DAUGHTERS

Chief is another sire group we chose to feature the entire sire group in the 2024 female sale. The females are easy to like with their added length and balance. Genetically the Chief daughters offer a balance of calving ease and growth with exceptional maternal predictors. As we are calving more and more Chief daughter maternal traits are off the charts and will improve udders and quality.

TJ CHIEF 460G Sire of Lots 147-154.

FROSTY DAUGHTERS

The Frosty sire group were once again crowd favorites at last year's bull and female sales and represents consistent producers who will sire wonderful females. The Frosty progeny are deep sided, squared made and many come in a blaze faced package. Likewise, the cattle excel at the details being great for disposition and hoof quality. The consistency and quality Frosty transmits to his progeny rivals any baldie bull we have utilized in the past. Also, every open Frosty daughter is featured in the sale.

TJ FROSTY 318E Sire of Lots 155-171.

BOLD RULER DAUGHTERS

We decided to feature a very large offering of KBHR Bold Rulers in the heifer sale. Bold Ruler is cementing himself as one of the very best purebred bulls in the beef business. The cattle bring a strong set of genetic predictors and offer a blend of both maternal and terminal superiority.

Physically the cattle will improve fleshing ability, structure and docility. Expect for the Bold Ruler females to serve as the backbone of our program for years to come.

KBHR BOLD RULER H152 Sire of Lots 172-190.

ARROWHEAD DAUGHTERS

Arrowhead has established himself as one of the best SimAngus heifer bulls in the industry. He offers a giant spread from BW to YW which always appeals to commercial cattlemen. He stems from the highly prolific 22X donor who is known for producing genetic horse power and breathtaking phenotype. The Arrowhead females are standouts being moderate easy keeping and great uddered.

TJ ARROWHEAD 2636 Sire of Lots 191-198.

HIGHLIFE DAUGHTERS

The Highlife females represent the power and performance you expect of higher percentage cattle. The females are long bodied, stout hipped and just read with an extra punch of performance. Highlife is becoming the top purebred option in a lot of operations being the leading seller for Select Sires.

MR SR HIGHLIFE G1609 Sire of Lots 199-209.

WINDFALL DAUGHTERS

Really excited to have the first GW Windfall cattle to market in 2024. The cattle are everything we hoped for. He offers genetic diversity for our SimAngus program and offers a lot of growth and will add marbling. The females are dense, big bodied and will make wonderful additions to any program.

GW WINDFALL 285J Sire of Lots 210-214.

FRANCHISE DAUGHTERS

Franchise has continued to do an excellent job for us over the past six years. The cattle have modest birthweights with big time growth potential, and have the added look and mass that made him one of the most used bulls in years past. If you are looking for phenotypic excellence with strong maternal traits, take a strong look at the Franchise sire group.

TJ FRANCHISE 451D Sire of Lots 217-224.

RANGER DAUGHTERS

The Ranger progeny have been a great source of outcross purebred genetics to our program in the past. The cattle come easy grow fast and study with added muscled and width while being more conservative in their frame. The females are just the broody kind who will be valuable replacements for any program.

GIBBS 8025F RANGER Sire of Lots 233-239.

Homozygous Black, Homozygous Polled
SimAngus™ Genetics

EXPECTED PROGENY DIFFERENCES (EPDS): EPDs are the most accurate and effective tool available for comparing genetic levels. In using EPDs, the difference between two sires' EPDs represents the unit difference expected in the performance of their progeny. For example, if sires A and B have EPDs of +10 and -5, a 15-unit difference would be expected in their progeny (moving from -5 to +10 yields 15 units). Key to using EPDs is knowing in what units they are expressed. For example, if the above case referred to weaning weight EPDs, sire A would be expected to sire 15 pounds more weaning weight than sire B. If calving ease was the trait, sire A would be expected to sire 15 percent more unassisted births in first-calf heifers; in other words, if sire B sired 30 assists in a group of 100 heifers, we would expect sire A to require 15 assists. A percentile-ranking chart is required to determine where a bull's EPDs rank him relative to other bulls in the breed. For more detailed information about EPDs and \$ indexes, visit www.simmental.org.

Listed below are the units in which ASA EPDs are expressed:

ALL-PURPOSE INDEX (API): Dollars per cow exposed under an all-purpose-sire scenario.

BACK FAT (BF): Inches of carcass backfat at 475 days.

BIRTH WEIGHT (BW): Pounds of birth weight.

CALVING EASE (CE): Percent of unassisted births when used on heifers.

CARCASS WEIGHT (CW): Pounds of carcass weight at 475 days.

DOCILITY (DOC): Percent of offspring receiving a disposition score of 1 (docile).

MATERNAL CALVING EASE (MCE): Percent of unassisted births in first-calving daughters.

MILK (MLK): Pounds of weaning weight due to milk.

MARBLING (MARB): Carcass marbling score at 475 days.

MATERNAL WEANING WEIGHT (MWW): Pounds of weaning weight due to milk and growth.

RIBEYE AREA (REA): Square inches of carcass ribeye at 475 days.

TERMINAL INDEX (TI): Dollars per cow exposed under a terminal-sire scenario.

WEANING WEIGHT (WW): Pounds of weaning weight.

YEARLING WEIGHT (YW): Pounds of yearling weight.

YIELD GRADE (YG): Carcass yield grade score at 475 days.

\$ INDEXES: Though EPDs allow for the comparison of genetic levels for many economically important traits, they only provide pieces of the economic puzzle. This is where \$ indexes come in. Through well-conceived, rigorous mathematical computation, \$ indexes blend EPDs and economics to estimate an animal's overall impact on integrated commercial production. The same technology that led to the dramatic progress in swine, poultry and dairy genetics over the last several decades was used to develop the following \$ indexes:

ALL-PURPOSE INDEX (API): Evaluates sires for use on the entire cow herd (bred to both Angus first-calf heifers and mature cows) with the portion of their daughters required to maintain herd size retained and the remaining heifers and steers put on feed and sold grade and yield.

TERMINAL INDEX (TI): Evaluates sires for use on mature Angus cows with all offspring put on feed and sold grade and yield.

For more detailed information about EPDs and \$ indexes, visit: www.simmental.org
