

SIMMENTAL SALE

WESTERN  
*choice*

SATURDAY - DECEMBER 7, 2024

Billings Livestock Commission at 1:00 PM MT

# A NOTE FROM THE SALE MANAGER

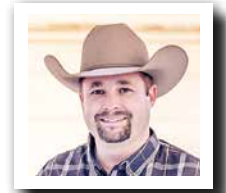

Welcome to the 2024 edition of the Montana Simmental Association's Western Choice consignment sale. This may very well be the best set of cattle ever consigned to this sale. I commend the breeders who are participating this year for opening up their gates and bringing some of the best representations of their programs to sell. Every breeder participating this year said that it was hard to let these cattle go but they want to showcase the best that their program has to offer. All of the females offered have the potential to be a difference maker in the new buyer's herd, and many of them have the potential to be your next donor cow if you so choose. I commend and thank the consignors for stepping up and making some tough choices to offer their very best in this offering.

You also have a great opportunity to purchase some excellent young females in the Clarks Fork Angus and Simmental herd reduction portion of this sale. These cows are all coming three- and four-year-olds and have their whole productive life ahead of them. This herd has been bred and designed to be problem-free cattle that know how to survive on their own in big country and wean a big calf. They are as gentle as a set of cows as you will find. Not to mention they are exceptional in their phenotype and have near flawless feet and legs. An opportunity to buy a set of young, registered females like this, that are all sired by some of the best AI sires in the breed, does not happen very often. Please feel free to reach out to Chris or any of the Allied team if you have questions. If you would like to preview these females before the sale, they are conveniently located about 30 minutes southwest of Billings at Edgar. They are right off the main highway, so they are very easy to look at.

As always, if you have any questions about the offering, please reach out to any one of the Allied team or give the consignors a call - their information is listed on page 3.

Sincerely,  
Marty Ropp, Rocky Forseth,  
Corey Wilkins and Jared Murnin

## MONTANA SIMMENTAL ASSOCIATION ANNUAL MEETING

**Friday, December 6, 2024**

**Hampton Inn**

*5110 Southgate Dr., Billings, MT 59101*

**6:00 PM SOCIAL**

**6:30 PM BANQUET**

*Annual meeting followed by Guest Speakers, as well as the Semen and Fun Auctions.*

11:00 AM Lunch Sponsored by MSA  
1:00 PM Western Choice Sale

## HOTEL ACCOMMODATIONS

Hampton Inn 406-248-4949  
5110 Southgate Dr., Billings, MT 59101  
*Room block under MSA.*

## TERMS

All cattle sell under the Suggested Terms and Conditions of the American Simmental Association.

## AIR TRANSPORTATION

Billings is served by Northwest, Delta, United, Horizon, Skywest, and America West, and has excellent facilities for light aircraft.

## ONLINE BIDDING

Broadcast live online at [www.dvauction.com](http://www.dvauction.com). See page 5 for more information.

## EPDS

The EPDs listed are current as of 11/9/2024. Please note the EPDs may change from the time the sale catalog is printed until registration papers are transferred.

## INSURANCE

Insurance will be available on sale day.

## TRUCKING

Cattle transportation details can be arranged through any of the consignors or by contacting Marty Ropp 406-581-7835.

## ANNOUNCEMENTS

Announcements made from the auction block during the sale take precedence over printed material in the catalog or other printed material associated with this sale.

## LIABILITY

Anyone attending this sale does so at their own risk. Consignors, sale management and Billings Livestock Commission will not be held responsible for any personal injury for attending this sale.

## MONTANA GUARANTEE

Many lots selling with a Montana Guarantee. If the buyer isn't confident the seller offered his very best, he has the option to come to the ranch and pick a replacement from the same calf crop.

**Sells open.** This Fire Power heifer is one to win! She comes right out of the heart of our heifer crop. We decided to send one we would like to own. She is an outcross half blood. Her dam is a Sitz Wisdom with an exceptional udder and raises the keeping kind. This heifer is fancy, clean made, and powerful. We will present her in her working clothes, and we won't have her fat so you can take her home and put her in your program and environment. We hate to see her go but are proud to donate this caliber of heifer. Good luck and buy the tickets, she is worth it.

*Thank you*

AI bred to GW THREE PEAT 331K (4033844). Confirmed bred to AI and due 2/23/25. 932E has been one of the best red cows to grace the pastures of Gateway Simmental in recent years. She is the dam of the popular ABS sire GW Copperhead 919G who was the high seller in the 2020 Gateway sale. She boasts progeny ratios of 6@107 for weaning and 5@105 for yearling weight all while maintaining a 367 day average calving interval. She is still in her prime and sells safe in calf to the up and coming herd sire GW Three Peat 331K. Take her home and make her the cornerstone of your breeding program.

AI bred to HSF CARDINAL 133G (3749672). Confirmed bred to AI and due 3/28/25. This sleek designed and long bodied heifer offers the full suite of maternal traits and boasts a top 1% STAY. Her dam has been a high performer in our program, and we have no doubt this female will go right to work. If you can look past her nipped ears, there's tremendous value in this cherry red heifer. Confirmed bred to HSF Cardinal 133G for a March 28, 2024 calf.

AI bred to LCDR ANTHEM 33K (4113686). Confirmed bred to AI and due 2/25/25. This classically patterned baldy is the 12th generation from our program. We love this cow family, and wanted to bring a favorite to town. She's easy on the eyes, maintains power in a feminine and stylish design, and offers up a well-balanced EPD profile. Confirmed bred to LCDR Anthem 33K for a February 24, 2024 calf.

AI bred to GW COPPERHEAD 919G (3549340). PE to PPSR LOYAL RULER 5L. Confirmed bred to AI and due 2/5/25. This Hilger One (red sire) daughter has been one of our favorites out of this calf crop. She's a well-balanced heifer with tremendous volume and thickness. Her EPDs are excellent as well, as she is in the top 10% of the breed for weaning and yearling weight, 20% for stayability and 10% for docility.

AI bred to GW JAILBREAK 555 (4185092). PE to PPSR LOYAL RULER 5L. Confirmed bred to AI and due 2/5/25. This Southern Fortune Teller daughter comes from one of our favorite cows, Buttercup. Lady is a super broody cow, with a ton of depth and carries a lot of muscle. She has an excellent EPD package, with great growth and carcass EPDs.

TJ 14J Dam of Lots 31A and 31B.

BCLR MANIFESTO G352 Sire of Lots 31A and 31B.

# Selling Choice

TJ 14J is proving herself around the country with numerous top programs using her as a donor and coupled with the powerhouse BCLR Manifesto bull these calves have endless potential. TJ 14J also produced the top selling calf at the Table Rock Simmental annual production sale in April of 2024 these calves are full of rib, muscle and should make for top females in any program! We will have two flush mates on display and will be giving choice of the two flush mates. The second calf not picked will be coming home with us, that is how much we think of these heifers.

Rank	20	80	55	30	30	85	50	35

**Sells open.** This heifer has that uber stylish and elegant presence that will catch the judge's eye. She's green as grass in her photo, but we think she's got potential to do some damage in the show ring. She's also extremely versatile and functional in her design and will make a whale of a cow, just like her perfectly-udderred dam. She offers a reasonable EPD package in a front pasture phenotype.

## ASA QUICK REFERENCE TO EPDS, INDEXES AND \$VALUES

**EXPECTED PROGENY DIFFERENCES (EPDS):** EPDs are the most accurate and effective tool available for comparing genetic levels. In using EPDs, the difference between two sires' EPDs represents the unit difference expected in the performance of their progeny. For example, if sires A and B have EPDs of +10 and -5, a 15-unit difference would be expected in their progeny (moving from -5 to +10 yields 15 units). Key to using EPDs is knowing in what units they are expressed. For example, if the above case referred to weaning weight EPDs, sire A would be expected to sire 15 pounds more weaning weight than sire B. If calving ease was the trait, sire A would be expected to sire 15 percent more unassisted births in first-calf heifers; in other words, if sire B sired 30 assists in a group of 100 heifers, we would expect sire A to require 15 assists. A percentile-ranking chart is required to determine where a bull's EPDs rank him relative to other bulls in the breed. For more detailed information about EPDs and \$ indexes, visit [www.simmental.org](http://www.simmental.org).

Listed below are the units in which ASA EPDs are expressed:

**ALL-PURPOSE INDEX (API):** Dollars per cow exposed under an all-purpose-sire scenario.  
**BACK FAT (BF):** Inches of carcass backfat at 475 days.  
**BIRTH WEIGHT (BW):** Pounds of birth weight.  
**CALVING EASE (CE):** Percent of unassisted births when used on heifers.  
**CARCASS WEIGHT (CW):** Pounds of carcass weight at 475 days.  
**DOCILITY (DOC):** Percent of offspring receiving a disposition score of 1 (docile).  
**MATERNAL CALVING EASE (MCE):** Percent of unassisted births in first-calving daughters.  
**MILK (MLK):** Pounds of weaning weight due to milk.  
**MARBLING (MARB):** Carcass marbling score at 475 days.  
**MATERNAL WEANING WEIGHT (MWW):** Pounds of weaning weight due to milk and growth.  
**RIBEYE AREA (REA):** Square inches of carcass ribeye at 475 days.  
**TERMINAL INDEX (TI):** Dollars per cow exposed under a terminal-sire scenario.  
**WEANING WEIGHT (WW):** Pounds of weaning weight.  
**YEARLING WEIGHT (YW):** Pounds of yearling weight.  
**YIELD GRADE (YG):** Carcass yield grade score at 475 days.

**\$ INDEXES:** Though EPDs allow for the comparison of genetic levels for many economically important traits, they only provide pieces of the economic puzzle. This is where \$ indexes come in. Through well-conceived, rigorous mathematical computation, \$ indexes blend EPDs and economics to estimate an animal's overall impact on integrated commercial production. The same technology that led to the dramatic progress in swine, poultry and dairy genetics over the last several decades was used to develop the following \$ indexes:

**ALL-PURPOSE INDEX (API):** Evaluates sires for use on the entire cow herd (bred to both Angus first-calf heifers and mature cows) with the portion of their daughters required to maintain herd size retained and the remaining heifers and steers put on feed and sold grade and yield.

**TERMINAL INDEX (TI):** Evaluates sires for use on mature Angus cows with all offspring put on feed and sold grade and yield.

For more detailed information about EPDs and \$ indexes, visit: [www.simmental.org](http://www.simmental.org)

# CLARKS FORK ANGUS AND SIMMENTAL RANCH

## Herd Reduction

Chris Coombe and family have been building this herd for a number of years and now it is time to cut back on some cow numbers to better fit their resources. Chris has decided to offer the very best of his good young cows in this offering. This group of females would have been the heart of the herd, they are all coming three and four-year-old cows that calve in the first 60 days of his calving season. These cattle have been selected for great feet, disposition, and fertility all while keeping mature cow size in check with great fleshing ability. These cows run in big country, and know how to survive and raise a big calf to weaning. They have great dispositions and are easy to handle in the pasture or in the corral on foot or horseback and they are used to dogs. This is an excellent opportunity to buy some great AI sired females that have their whole productive life ahead of them.

These cow were synchronized and AI once on 6/17/24 and then had bulls turned out for 60 days. They were turned into a multi-sire cleanup pasture and the service sires are listed below. To register a calf out of one of the pasture service sires, DNA for parentage will need to be performed.

## Multi-Sire Group FOR REFERENCE

## EFFECT OF SIRE BREED ON SALE PRICE OF BEEF STEER CALVES

Superior Livestock Auction, Summer 2020<sup>c</sup>

SimAngus™-sired steer calves sold through Superior Livestock Auction in summer 2020 earned **more at sale time** than all other calves.<sup>ab</sup>

It's no wonder the percentage of **SimAngus™** calves marketed through the industry's largest video auction has grown **eightfold** since 2010.

Want low-risk, high-potential calves with earning potential?

## STAND STRONG SIMMENTAL

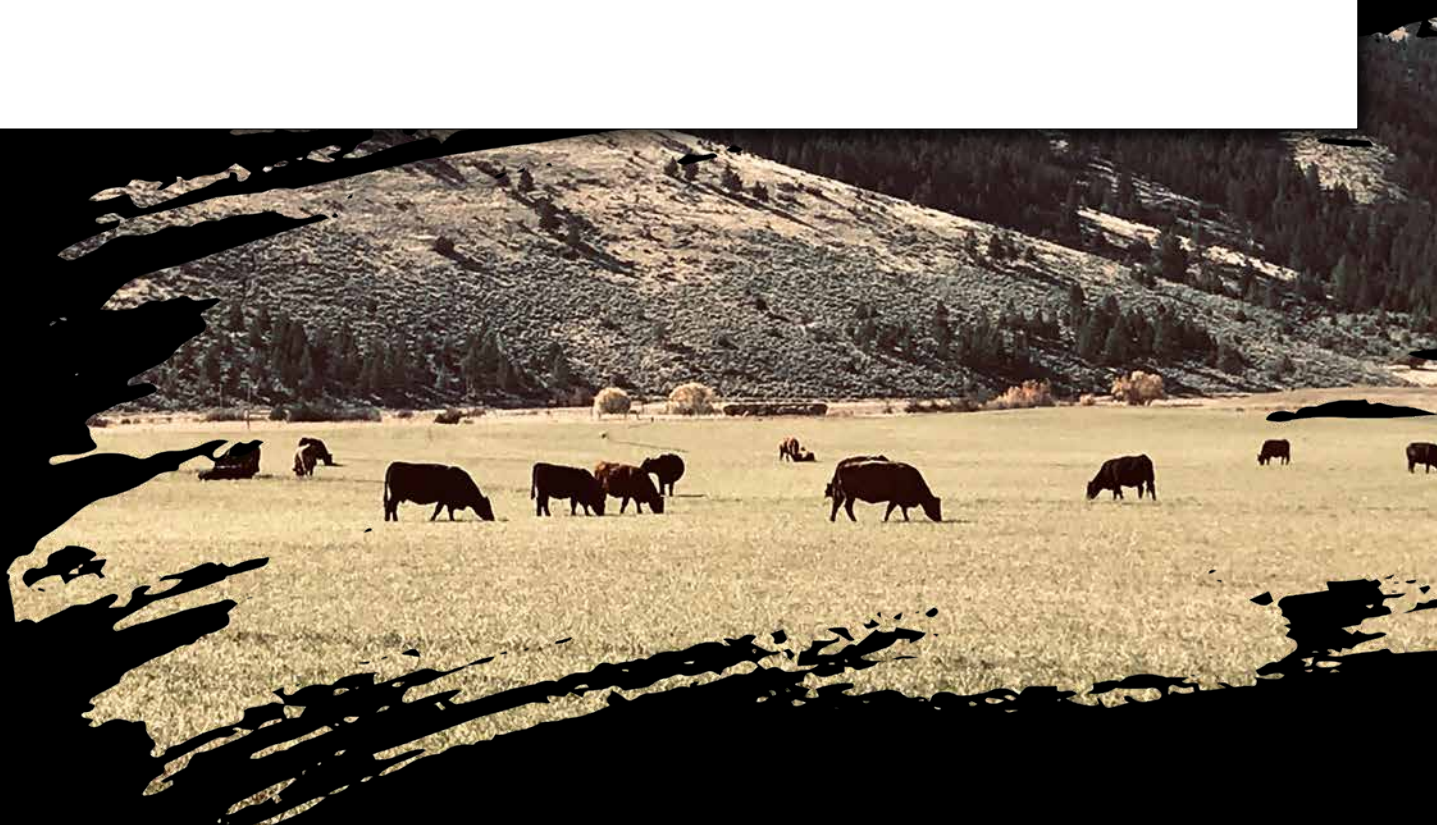

406-587-4531 • [simmental.org](http://simmental.org)

<sup>a</sup> For lots of 50 head or more. <sup>b</sup> Kansas State University, December 2020, Superior Livestock Auction data analysis of 3,280 lots, 394,900 head of beef calves marketed during summer 2020. (P<.0001)  
<sup>c</sup> Lots that qualified for breed-related programs were excluded from the model due to potential confounding effects with sire breed analysis and, for many, few lots in the data.  
<sup>d, e, f</sup> Means without a common superscript differ (P<.05). Lots of calves in breed-identified groups were sired by bulls from the respective breeds and out of dams with no Brahman influence.
