

Cow Camp Ranch

SPRING BULL SALE

Saturday **January 18** 2025
1:00 PM CT

Lost Springs, KS

Welcome

We hope our 2025 Spring Bull Sale book finds you and your operation doing well. 2025 brings an immense amount of optimism for beef producers all across the country. The price of all classes of cattle looks promising for 2025 and the moisture brought to us in the late months of 2024 will serve ranchers well this spring.

Our 2025 sale features 180 age advantage SimAngus and Simmental bulls and 1 great young donor female. Our focus in the bull business is focusing on traits that will impact producers' bottom line the most. Ample calving ease, explosive growth, strong maternal traits, and solid carcass traits can be found from cover to cover in the stout offering of herd bulls. We also believe our bull development brings a different level of uniqueness to our program. Every bull sells in an age advantage package and has been developed on a slower plane of nutrition than many yearling bulls. The bulls are weaned prior to summer and spend a minimum amount of time in a dry lot setting in the summer. For the bulk of our bull development bulls are ran on large pastures grazing native forages of the Flint Hills. Ultimately, the older bulls will cover more cows and hold up better in the first breeding season. Also, we find our age advantage bulls will last longer and work for more years for beef producers.

We would like to thank past customers for placing their trust in our program over the years. For both past and new customers feel free to stop buy and view the bulls anytime ahead of the sale. If you can not be with us on sale day be sure to catch the sale on Superior Production or Live Ag.

Sincerely,
Cow Camp Ranch
The Brunner Family

Gary Schubert, Tracy Brunner, Kent Brunner, Tucker Day, Mark Brunner, Brody Bryant, Nolan Brunner, Lance Day, Kolton Aubuchon, Byron Noeth, Trent Turner, Travis Kitzmiller, Noah Brunner, Bryant Brunner, Tanner Brunner, Amanda Britton

Thank you to our great Cow Camp Crew.

TERMS & CONDITIONS

Terms of the sale are cash and all cattle become property of the buyer at the time of sale. All animals will be sold in accordance with the Suggested Sale Terms and Conditions of the American Simmental Association unless other terms are stated in this catalog. All announcements made sale day take precedence over printed material in this catalog or other printed material associated with this sale. All cattle will be registered with the American Simmental Association and those papers will be transferred after the sale. Please note all EPDs will change between the time this catalog is printed and the day of the sale. All EPDs in the catalog will be current as of the day they are printed. Owners, their agents or any of the sale staff will not be held responsible for any personal injury, loss or accident while attending this sale.

LIVESTOCK INSURANCE

We cannot guarantee against injury, frost bite, disease, mismanagement, or death. Therefore, we recommend you insure your purchase. If you would like the full protection of mortality and/or loss of use insurance, please contact Jared Mohnen with Dakota Ag Insurance at 605-999-4475.

SEMEN AND INTEREST

Selling full possession and 100% semen interest on all bulls unless otherwise noted in the sale book or announced prior to the sale. Cow Camp will retain the right to collect and/or use owner's semen on all bulls selling, for in herd use only. On retained interest bulls selling from \$30,000-\$49,999 Cow Camp will drop down to 1/3 semen interest and those bulls selling for \$50,000 or more Cow Camp will drop down to 1/4 semen interest.

BREEDING GUARANTEE

All bulls selling are guaranteed for fertility for the first breeding season. In the event a bull is deemed unsatisfactory the bull may be returned for a replacement bull of equal value or credit in the amount of the purchase price. All bulls selling have passed a complete BSE but should always be semen checked prior to turnout to ensure they are in proper breeding condition. Please contact Kent or Nolan about any issues prior to culling the animal. A signed veterinary statement may be required.

TRUCKING / FEEDING OPTIONS

- \$100 off bulls only picked up the day of the sale.
- Free delivery 300 miles to central locations on bull purchases of \$10,000 or more. Delivery past 300 miles will be prorated depending on the load. We guarantee delivery of bulls beyond 300 miles within the continental U.S. not to exceed \$400 per head. Delivery will begin following the sale, weather permitting. Bulls that do not qualify for free delivery can still be delivered at a reasonable cost depending on load and location.
- You may opt not to take your bulls at the time of their scheduled delivery and pick up at the ranch at your convenience. Any bulls not being delivered will be charged \$5 per head per day after March 1st until picked up.

Note: Trucking of the females will be the responsibility of the buyer. We ask that you try and find alternative trucking for them and that they be picked up no later than the week following the sale.

VOLUME DISCOUNTS

- 3 bulls = 3% off
- 4 bulls = 4% off
- 5 bulls or more = 5% off

CUSTOMER SATISFACTION GUARANTEE

We have done our best to represent the sale offering as they are, however our Customer Satisfaction Guarantee protects you against getting cattle that are not what you thought they were. If you have a problem with an animal, it's our problem. We are the only ones who can fix it, so please contact us and give us a chance to help.

SUPERIOR - HOW TO PARTICIPATE AS AN ABSENTEE BUYER

We have made preparations to bid and buy livestock through Superior Productions' "Click-To-Bid" service for those unable to attend in person on sale day. Please note that all of the lots in the sale will also be available for viewing online prior to sale day at www.superiorlivestock.com.

HERE'S HOW IT WORKS

CLICK-TO-BID

This is Superior's online bidding program for cattle buying. Please note that high speed internet is required – this is not for dial-up or satellite internet. Registration is free, but you must become a member of www.superiorclicktobid.com to sign up. Becoming a member is easy – just go to the homepage of www.superiorclicktobid.com and follow the out-lined steps to get started. Input your information and select a username and password. You will receive an e-mail confirming you are a member. From that point forward you just have to sign in and select the sale you would like to register for and once approved by the ranch you will receive an e-mail confirming which sale you are now registered for.

VIEWING THE AUCTION

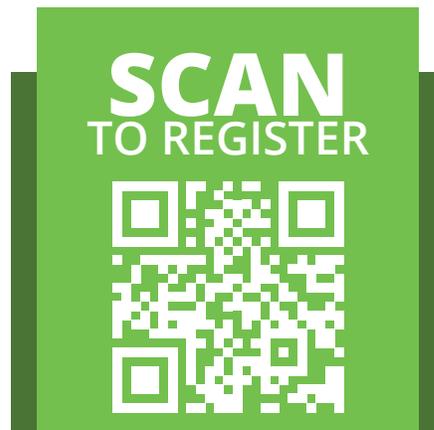

The sale will be broadcast live in Hi-Definition on the internet at both www.superiorlivestock.com and www.superiorclicktobid.com. The video feed on the homepage of www.superiorlivestock.com looks the same as the video feed on TV and can be watched over a smartphone or tablet. Remember you can call in to bid whether watching on the TV or on the internet, but you must be a member of www.superiorclicktobid.com to "click-to-bid".

Bidders who are successful in making purchases via satellite or internet will be contacted by the ranch after the sale to settle payment and make shipping arrangements.

BID FROM ANYWHERE

with 
PUREBRED

- 1. VISIT LIVE-AG.COM**
Navigate to the "Purebred" tab, located in the main menu. Select the auction of choice.
- 2. LOG IN / CREATE AN ACCOUNT**
Select the "Login or Create an Account" button. Fill out the required fields to bid online. Agree to the terms of service, and finish with the "Register" button." An account is not necessary to watch an auction.
- 3. REGISTER TO BID**
Once logged in, find your sale of choice and click "Register to Bid". Agree to the terms and conditions, and click the "Register" button. Your request will be approved in a timely manner.
- * CALL OUR TEAM WITH ANY QUESTIONS**
We're dedicated to ensuring you have a positive bidding experience. Please call **817-533-6699** with any questions.

Improved Buying Confidence with Greater Genomic **ASSURANCE**

Access to more and better information has always been key to making wise decisions. The evolution and improvement of genetic evaluation tools too has given us an ever-clearer picture of the true genetic makeup of cattle and thus a better view of the value proposition. RightMate, powered by Top Genomics LLC is taking the evaluation of genetics and genomics one giant step further. By combining specific genomic information with the long-proven value of EPDs, this new advancement in technology improves our depth and precision when evaluating the actual ability to transmit value and profit.

The 3 Accreditation Logos below are designed to simplify bull selection and improve buyer confidence by more accurately describing the genetics offered and by reducing risk. What this means to you as a customer is a much greater assurance that you are getting both what you want and need from the genetics you purchase. What it means to your seedstock provider is access to RightMate technology that simply sets them apart from the rest of the industry.

ACCREDITED GENOMIC PLUS – For the majority of producers who simply need consistent and balanced genetic improvement, without genomic setbacks, G+ Accredited bulls should be on your list for premium purchase. These sires will absolutely move you forward for both cost reduction and income producing traits and substantially reduce risk when compared to all other evaluation programs. It's simple, the right genes are in these bulls to help secure a profitable future and the they have great EPDs to match!

ACCREDITED TERMINAL MATE – Just like an ATM machine makes it simpler to access your cash, the ATM Logo highlights bulls accredited to generate extra cash income as soon as your next calf crop! These bulls are meant specifically to use only on mature cows and for the purpose of adding performance, pay weight and end product value to market.

ACCREDITED CALVING EASE – Simply find bulls with the ACE logo for third party Accredited, secure Calving Ease bulls. Though we have had tools in the past to assist in choosing heifer bulls, we've never had one nearly this effective. The reduced risk that comes with this genomic certification will simply make your decisions easier and your heifer calving season more successful. Purchase special purpose ACE bulls with confidence. They will deliver consistent and predictable calving ease.

COW CAMP FEEDER CATTLE MARKETING OPTIONS

Cow Camp Inc, established in 1989, is our family-owned commercial cattle feeding operation. We have purchased and fed cattle from our bull customers for over 30 years now, and we will always continue to be active buyers of Cow Camp Genetics. There are several different feeding and marketing options as well as feed lot placement options. If you have any interest in selling or retaining interest in your calves through Cow Camp Feed Yard, please contact Tracy Brunner at (785) 965-2228.

Likewise, we have a strong relationship with Superior Livestock. If a customer has load lot capabilities, we would have an interest in assisting you with marketing your calves. We have numerous loads of calves with the Cow Camp and Allied logo marketed annually on Superior. We view it as an extremely effective avenue to market your calves with the largest buyer base across the U.S. If you have any interest in marketing calves do not hesitate contacting us.

Cow Camp Ranch *Advantage*

*58 years in the
business is
no accident.*

Your Largest Source of **AGE**
ADVANTAGE SimAngus Bulls.

Cover **MORE COWS** and find more
bull when you pull bulls at the end of
breeding season.

One of the industry best bull development
programs. Our bulls are developed with
the rancher and **LONGEVITY IN**
MIND.

The Cow Camp feed yard has fed
countless CCR sired feeder calves. If you're
looking to feed your cattle or need a
COMPETITIVE BID look no further.

HETEROSIS! Our SimAngus and
Simmental bulls will provide hybrid vigor
from a maternal and terminal standpoint.

From the Sale Manager

Welcome to the 2025 Cow Camp Ranch Spring Bull Sale! We are excited to kick off the Spring marketing run starting with a great set of Age Advantage SimAngus and Simmental bulls in Lost Springs Kansas.

Propagating genetic advancement of economic relevant traits while not losing sight of maternal and longevity traits has become the trademarks of the great CCR cowherd. The uniformity from Lot 1 to 185 is incredible and the longevity and development of these age advantage bulls is simply some of the very best you will find in the industry. Every bull in this strong offering has been through a magnitude of genetic and performance testing and have been critically evaluated for docility, fertility and phenotype. No matter the lot buyers should have the utmost confidence the genetic package you are purchasing will move you ahead in a positive manner. If it has been a while since you have made the trip to see the bulls yourself, we highly encourage you to do so.

Optimism for our country and the beef business continues to build as we turn the calendar into 2025. All classes of cattle are trading at strong price point and the cow calf producer is looking at a highly profitable year in 2025. Premiums have never been higher for quality genetics and management. If you are in search of increasing the genetic potency of your next calf crop the CCR prefix will get you there. The 2025 offering is simply covered with large predictable sire groups along with some fresh genetics for seedstock producers. The lone female lot in the sale represents an exciting donor who could truly build the genetic component of a program.

We hope you will take the time and join us January 18 in Lost Springs. As always if we can be any assistance, please do not hesitate in reaching out.

Sincerely,
Marty Ropp, Corey Wilkins and Jared Murnin

About the Bulls

DOCILITY RATING

All Bull lots will also have a Docility Rating. This is our own evaluation of the bulls and not based on their EPD. Both measurements should be considered when making a buying decision. The bulls are ranked 1-3. Anything worse than a 3 (4-6) has been culled from the herd. The definitions are as follows:

- 1 - Docile (Gentle and easily handled)
- 2 - Restless (Quieter than average, but can be stubborn)
- 3 - Nervous (Manageable, but may require a different level of management and respect when handling)

CALVING EASE STAR

All Bull lots have a Calving Ease Rating. This is a star rating system to help you select bulls based on how we believe they will calve. Always remember that the cow contributes 50% of the genetics and this should be taken into consideration when making your final mating decisions. The definitions are as follows:

- **** Can be used on virgin heifers with confidence
- *** Potential heifer bull, should be used on young cows first
- ** Acceptable calving ease, but should not be used on heifers
- * Terminal sire, should be used on mature cows only.

CCR COCHISE 1260L Sells as Lot 1.

Cow Camp will retain 50% semen interest.

CCR MS COWBOY 7662E Grandam of Lot 1.

A great way to lead off the 2025 sale book with 1260L. His physical presence and striking look have made him a standout for some time. He is long, level, and has a high-quality herd bull look from the profile. He packs an extra punch of muscle as you step in behind him, and offers superb foot quality and docility. Genetically he supplies extra growth and breed leading Stayability.

Powerful herd bull prospect who excels at growth, maternal and carcass traits. If you are familiar with our program, you know the Command females have been some of our best producers and 8594F female is no exception.

BASIN TRUE GRIT 1021 Sire of Lot 16.

The Basin True Grit sire group is DEEP with quality. 115L leads off the sire group and will impress you with his balance, body and outstanding genetic profile. He offers true balance across the board from a genetic standpoint and will be poised to move your operation ahead in a magnitude of different areas.

An absolute **BRUTE** of a herd bull. 1318L is massive middled, big topped and is as impressive as any in terms of muscle shape and power. He will sire progeny who weigh like lead come weaning and yearling time.

CCR TRUE GRIT 1318L Sells as Lot 17.

Huge growth bull who will prove to add payweight and value to his progeny. This first generation Simangus bull is a beast to look at and comes in at a 6+ frame and 40+ SC package.

CCR TRUE GRIT 1367L Sells as Lot 18.

BASIN TRUE GRIT 1021

We are always searching for the right Angus Bull to make the next generation of SimAngus bulls at the ranch. After seeing True Grit in stud, we felt like he was the right choice for an Angus bull and we are really pleased with the results. The cattle are complete and as fault free as they come. They supply ample calving ease, great growth and strong maternal and carcass traits. We feel the bulls are the “ranchers” kind who will move your program ahead on all fronts.

A powerful purebred bull whose combination of marbling and STAY puts him in rare air. He comes from a wonderful Heisman dam and his type and figures makes him a great breeder bull candidate.

CCR GUNSMOKE 0321L Sells as Lot 45.

KBHR GUNSMOKE J131

The Gunsmoke sons represent a new sire group of herd bulls in the 2025 offering. These higher percentage bulls will add power, stoutness and payweight to a set of cows. If you are in search for more payweight in a higher percentage package look no further.

KBHR GUNSMOKE J131 Sire of Lots 46-53.

KBHR HONOR H060

Multi-purpose cattle who excel at both maternal and terminal traits can best describe what we have seen in the Honor cattle. Honor sons represent the cattlemen kind and will provide unprecedented value across the board. The sons of Honor will sire cattle who come small and explode thereafter for growth. The daughters are sensible for mature size and offer added fleshing ability.

KBHR HONOR H060 Sire of Lots 54-62.

BIG HORN SONS

GW BIG HORN 491J

Excited in what we see in the first large group of Big Horn sons we are marketing. The sons of Big Horn are outliers for calving ease, marbling and are well above breed average for growth. We feel the genetic horsepower combined with no holes phenotype will make this a popular sire group come sale day.

GW BIG HORN 491J Sire of Lots 70-79.

LRS CROSSFIT 4306J

Crossfit is a first generation SimAngus bull we purchased from the Lasse Simmental Ranch in Montanna. The Crossfit sons receive high marks for uniformity. The entire sire group will supply extra fleshing ability and added stoutness. The bulls are great for foot quality and will improve docility.

LRS CROSSFIT 4306J Sire of Lots 80-86.

CLRS HERDBOOK 316H

Herdbook is one of the best bulls we have ever ran for handling the details. The cattle are superb for docility and truly impressive to study in the flesh. He covers all the traits you admire out of his famous sire Triple Crown while adding even more punch from a growth and muscle standpoint. We promise any cattlemen will admire the Herdbook sons.

CLRS HERDBOOK 316H Sire of Lots 87-98.

RESERVE SONS

Lots 105 and 106

A great pair of Reserve sons who results from the 0346H donor female. They offer balance from a genetic standpoint providing ample calving ease and growth while being outliers for marbling and maternal traits. The pedigree has proven to be consistent and high quality.

CCR 0346 RESERVE 4525L Sells as Lot 105.

JC MR HURON 7262G

The Huron cattle have been well received the last few years with their added length mass and stoutness. The cattle are incredible growth and carcass quality and will improve ranchers bottomline at marketing time.

JC MR HURON 7262G Sire of Lots 111-117.

A DIFFERENT APPROACH TO BULL DEVELOPMENT - GROWN SLOW TO INCREASE LONGEVITY FOR YOU

The shift in our operation to develop 18-month-old bulls has allowed us to become more creative in our bull development program, in order to deliver a better product to commercial cattlemen.

All our bulls within the sale offering come in a fall born 18-month-old package. Pre weaning our development process looks similar to how every commercial cattleman runs their cattle. We look for cost effective feedstuffs and maintain the calves at a level or nutrition which will show their genetic potential. Our fall born calves come into weaning pens in April in May and are left there for a few weeks to monitor health and we begin making culling decisions for our bull sale.

Post weaning is where our bull development is vastly different versus most. After weaning and monitoring them for a few weeks for health the bulls are then returned to forage for the summer months. They graze a variety of native forages the Flint Hills has to offer along with Triticale. When summer ends the bulls will weigh near 1,000 pounds for their yearling weight. After Labor Day the bulls return to headquarters, and we begin feeding them a more traditional bull development ration ahead of our bull sale.

Our goal has always been to sell bulls that hold up well but feel this type of development is another step to ensure longevity and added breeding ability in the bulls that you purchase here. We think you'll find the bulls sound on their feet and legs, athletic and ready to endure that first breeding season that typically is the hardest on them.

CCR BLACKFOOT 7098H

Blackfoot was the phenotypical choice from the 2020 bull offering. He is a Pounder son who combines top notch growth with incredible look and phenotype. The sons all study with top tier growth and will sire wonderful daughters and high valued steers.

CCR BLACKFOOT 7098H Sire of Lots 118-125.

REDUCE RISK WITH AGE ADVANTAGED BULLS

There are several important and logical reasons why commercial customers should consider purchasing bulls with a few more months of age and development on their side. Some of the benefits are obvious, but some others we don't always consider.

- Older bulls have the ability to service more females in a shorter period of time than yearling bulls. Age advantaged, 18-20 month old bulls should be capable of safely settling at least 5-10 more females in their first breeding season with minimal risk over a 45 day breeding period due to greater fitness, superior average semen production and maturity.
- Over-fat bulls are an issue in this industry. A high quality, slower paced development program is possible when producing older bulls for sale. Age advantaged bulls can simply be developed more slowly and still reach target weights and marketable condition with ease. Too often bulls developed to be sold as yearlings are subjected to extra push nutritionally in order to make those same thresholds. When done improperly, the results can be reduced longevity and lifetime service because of damage to feet, soft skeletal tissues and in extreme cases even internal organs associated with excess or faulty nutrition and exaggerated growth rate.
- Certainly, older bulls lose less weight and strength during their first breeding seasons. With that in mind the risk of your bull taking a week off or quitting the process of breeding cows completely is reduced. This is especially true in the more challenging breeding environments of the southern US.
- More of the guess work is taken out when purchasing older bulls. Strengths and flaws can both be more evident to buyers with an extra 6 months of development. For example, by that age foot and leg or disposition issues will be more evident and a higher percentage of potential problem bulls should have been identified and removed from the offering.
- Sorting older bulls does not give license to buy poorer genetics just because they have more age. It is important to make sure the age advantaged bulls you are evaluating are not just the leftovers after the more valuable bulls were not marketed as yearlings and low genetic value bulls should never be an option, regardless of age.

Many producers will always favor purchasing high value, younger bulls because of the potential of an extra season of use later in life and often sellers prefer the simplicity and lower cost of producing them. Correctly developed older bulls however, simply have a greater probability of breeding success in the first season than when they were younger. Give them a try for reduced risk.

CCR KIOWA 5065H

Kiowa transmits as much width and mass to his progeny as any sire in the offering. The bulls are big topped and impressive as you step in behind them for stoutness. Many of his sons are higher percentage and would be wonderful candidates to use on English based cows.

CCR KIOWA 5065H Sire of Lots 126-132.

HA JETPACK 60J

A wonderful genetic profile and great type is what you will find in a strong selection of Jetpack sons we have for your evaluation in 2025. The Jetpack sons offer pleasing phenotype and great uniformity. We believe they will help from both a maternal and terminal standpoint.

HA JETPACK 60J Sire of Lots 135-140.

ASA QUICK REFERENCE TO EPDS, INDEXES AND \$VALUES

EXPECTED PROGENY DIFFERENCES (EPDS): EPDs are the most accurate and effective tool available for comparing genetic levels. In using EPDs, the difference between two sires' EPDs represents the unit difference expected in the performance of their progeny. For example, if sires A and B have EPDs of +10 and -5, a 15-unit difference would be expected in their progeny (moving from -5 to +10 yields 15 units). Key to using EPDs is knowing in what units they are expressed. For example, if the above case referred to weaning weight EPDs, sire A would be expected to sire 15 pounds more weaning weight than sire B. If calving ease was the trait, sire A would be expected to sire 15 percent more unassisted births in first-calf heifers; in other words, if sire B sired 30 assists in a group of 100 heifers, we would expect sire A to require 15 assists. A percentile-ranking chart is required to determine where a bull's EPDs rank him relative to other bulls in the breed. For more detailed information about EPDs and \$ indexes, visit www.simmental.org.

Listed below are the units in which ASA EPDs are expressed:

ALL-PURPOSE INDEX (API): Dollars per cow exposed under an all-purpose-sire scenario. (See \$ Indexes for more details.)

BACK FAT (BF): Inches of carcass backfat at 475 days.

BIRTH WEIGHT (BW): Pounds of birth weight.

CALVING EASE (CE): Percent of unassisted births when used on heifers.

CARCASS WEIGHT (CW): Pounds of carcass weight at 475 days.

STAYABILITY (STAY): Percent of daughters remaining in the cow herd at 6 years of age.

DOCILITY (DOC): Percent of offspring receiving a disposition score of 1 (docile).

MATERNAL CALVING EASE (MCE): Percent of unassisted births in first-calving daughters.

MILK (MLK): Pounds of weaning weight due to milk.

MARBLING (MARB): Carcass marbling score at 475 days.

MATERNAL WEANING WEIGHT (MWW): Pounds of weaning weight due to milk and growth.

RIBEYE AREA (REA): Square inches of carcass ribeye at 475 days.

TERMINAL INDEX (TI): Dollars per cow exposed under a terminal-sire scenario. (See TI for more details.)

WEANING WEIGHT (WW): Pounds of weaning weight.

YEARLING WEIGHT (YW): Pounds of yearling weight.

YIELD GRADE (YG): Carcass yield grade score at 475 days.

\$ INDEXES: Though EPDs allow for the comparison of genetic levels for many economically important traits, they only provide pieces of the economic puzzle. This is where \$ indexes come in. Through well-conceived, rigorous mathematical computation, \$ indexes blend EPDs and economics to estimate an animal's overall impact on integrated commercial production. The same technology that led to the dramatic progress in swine, poultry and dairy genetics over the last several decades was used to develop the following \$ indexes:

ALL-PURPOSE INDEX (API): Evaluates sires for use on the entire cow herd (bred to both Angus first-calf heifers and mature cows) with the portion of their daughters required to maintain herd size retained and the remaining heifers and steers put on feed and sold grade and yield.

TERMINAL INDEX (TI): Evaluates sires for use on mature Angus cows with all offspring put on feed and sold grade and yield.

USING API AND TI: First, determine which index to use; if you are keeping replacements use API, if not, use TI. Then, just as with EPDs, zero in on the unit difference between bulls. (As described above, index units are in dollars per cow exposed.) The difference can be used to determine how much a bull is worth compared to another. Put another way, how much you can pay for one bull compared to another. For example, when buying an all-purpose-type sire, you can quickly figure a bull scoring +100 for API is worth an extra \$6,000 over a +50 bull if both are exposed to 30 cows over 4 years ($\$50 \text{ diff.} \times 30 \text{ hd.} \times 4 \text{ yr.} = \$6,000$). A percentile-ranking chart is required to determine where a bull's index value ranks him relative to other bulls in the breed.

For more detailed information about EPDs and \$indexes, visit: www.simmental.org Important disclaimer: DO NOT compare index values of purebreds of different breeds, hybrids of different breed composition or purebreds with hybrids - our system was not developed to make valid comparison among these groups. Therefore, you must first determine the breed and breed composition appropriate for your herd and use index values to compare animals within that population.

Two-Year-Old Bulls

Upon request from customers, we made an effort in providing some really high quality two-year-old bulls to the 2025 sale. These bulls have never been marketed and many are a direct result from our embryo program. The bulls were managed in large pastures and grazed forage all summer before entering back into the feedlot late fall. You will not find a higher quality more genetically potent set than these powerful two-year-old bulls.

CCR MS BLUE PRINT 7001E dam of Lot 170.

A herd bull who checks all the boxes. Physically, this lead off two-year-old comes with an immense amount of body, structural soundness and quality. Genetically he will prove to be one of the best heifer bulls in the offering and provides unprecedented carcass and maternal value. He is backed by the wonderful 7001E donor.

TWO-YEAR-OLD BULLS

50K X the Justified donor who is a specimen to look at of foot. He will add power and performance to his progeny.

CCR MS RAINMAKER 9524G Dam of Lot 176.

Lot 176 is loaded with herd bull potential. An Ace calving ease sire with a high yearling weight EPD and packed with maternal and carcass traits. A smooth look, tremendous disposition and flawless structure will make lot 176 a sale day favorite. He hails from our great 9524G Rainmaker donor that was featured in our 2024 Production Sale and is now working for Thomas Collier and the Circle Ranch in California.

ELITE DONOR

CCR MS GALILEO 2649K Sells as Lot 184.

Sells open and ready to flush in her entirety, with calf at side.

Here is the opportunity to source one of the best young donors from our embryo program. This beautiful Galileo daughter combines phenotype and genotype to the highest degree and sells with a fancy Bridle Bit Blackout heifer calf at side. She sells open and ready to enter the buyers own embryo program this spring. We feel this female will serve as a cornerstone piece to any program and we are immensely excited about the future of this incredible female. She stems from one of the best cow families ever at Cow Camp going back to the ageless 2073Z donor. No other cow family has consistently transmitted udder, foot quality and phenotype and 2649K is another in a long line of brood cows. Flush sisters to 5051C, the dam of Ms Galileo have produced AI sires CCR Bedrock 5171J, CCR Commander 5135C and CCR Kiowa 5065H. In her own right, 5051C is the granddam of lots 16 and 21, two highlight True Grit sons. Don't miss this wonderful opportunity to tap into some of the best genetics we have to offer at Cow Camp.
