# Welcome

Welcome to our 2nd Annual Spring Sale!

What an extraordinary time to be in the cattle business! Cattle prices are setting record highs nationwide, and we are confident that good rain and a thriving economy will lead to success for everyone.

Our 2025 sale offering is something we take great pride in. Over the past year, particularly during our inaugural spring sale, we have gained invaluable insights. We are committed to pushing the boundaries of genetic quality, always with our customers' success at the forefront. This year, we are delivering a second set of age-advantaged bulls that will significantly enhance your operations. Each bull comes in an age-advantage package and has been nurtured on a carefully managed nutrition plan to promote longevity. These bulls have never been offered for sale before and were deliberately set aside after weaning for this event. We are confident that they are ready to get to work for you!

Furthermore, we are thrilled to offer 60 fall-calving bred heifers that represent the best of our herd. In our traditional fall sale, offering fall-calving cows with calves at their side was not ideal due to the stress on young calves. However, this year, our fall-calving bred heifers are AI bred to breed-leading sires, ensuring you a superior genetic advantage. With the cull cow market currently booming, now is the time to replace older cows or any under-performers with young, highly productive animals.

We invite you to come by and visit us at your convenience to see our exceptional offering. Don't miss this opportunity to enhance your herd. We are looking forward to seeing each of you on March 1st! If you have any questions, reach out to us. We are here to help!

Thanks,  
*The Gibbs Farms Crew*

- 64 years in the cattle business, Celebrating our second spring sale -

# Since 1961

## General Sale Information

### SALE DAY CONTACTS

Doug Gibbs	404.717.2264
Bradley Gibbs	404.904.2914
Marty Ropp	406.571.7835
Corey Wilkins	256.590.2487
Whitney Gibbs Brand	770.328.6752
Gordon Hodges	336.469.0489
Sam Young	770.710.4588

### SALE LOCATION

1358 County Road 68, Ranburne, AL 36273

*Directions:*

Coming from the east, take HWY 166 from Bowdon, GA and go 4 miles to State Line Road.

Coming from the west, Exit 205 off I-20 and follow HWY 46 for 16 miles through Ranburne to State Line Road.

Go South on State Line Road for 0.8 mile, at the four way stop, take a right and Gibbs Farms Sale Facility is 0.3 miles on the left.

### SALE SCHEDULE *(Times listed are CST)*

#### FRIDAY, FEBRUARY 28, 2025

All day Sale cattle available for viewing, herd sires on display and pasture tours.

#### SATURDAY, MARCH 1, 2025

All day Sale cattle available for viewing, herd sires on display and pasture tours.

11:00 AM Lunch

12:00 PM SALE TIME

### AUCTIONEER

Ron Kreis 740.683.3235

### MARKETING ASSISTANCE TEAM

William Mayfield, Ringside Assistance	931.309.8892
Ben Hicks, Ringside Assistance	770.722.5861
Nathan Lipscomb, Ringside Assistance	334.799.4915

### VIDEO AUCTION

Sale cattle viewed on five big screens. Sale cattle will be displayed in the grass lots at our sale facility same as always. No cattle will come through the sale arena.

### INTERNET LIVE VIEWING & BIDDING

Sale broadcast live online with DV Auction. See page 7 for more information.

### UPDATES

Please visit our website to view the sale cattle video catalog, sale order and all additional sale information... [WWW.GIBBSFARMS.NET](http://WWW.GIBBSFARMS.NET)

### DELIVERY OPTIONS

Please see page 2 for delivery options.

### ACCOMMODATIONS

Numerous hotel options are within a short drive to the farm. We recommend staying in Oxford, AL, Bremen, GA, or Carrollton, GA.

### SEMEN INTEREST

Gibbs Farms will retain a semen interest in the bulls as follows:

- For bulls selling for less than \$20,000, Gibbs Farms will retain 50% semen interest.
- For bulls selling for \$20,000-\$39,999, Gibbs Farms will retain 33% semen interest.
- For bulls selling for \$40,000 or more, Gibbs Farms will retain 25% semen interest.

### TERMS AND CONDITIONS

Please see page 12 for terms and conditions.

# A Note From The *Sale Manager*

Welcome to the Gibbs Farm Annual Spring Bull & Replacement Female Sale! What a phenomenal set of cattle the Gibbs crew has produced for your appraisal the first Saturday of March. The sale features the same quality and reputation as the historic Gibbs Fall Sale. The bulls were hand selected at weaning and have never been marketed before. The bred heifers feature the only opportunity for buyers to purchase true fall bred females from Gibb Farms.

Optimism for our country and the beef business continues to build as we turn the calendar into 2025. All classes of cattle are trading at strong price point and the cow calf producer is looking at a highly profitable year in 2025. Premiums have never been higher for quality genetics and management. The demand for US quality beef and the low inventory of the US cowherd has been the driving forces behind the record prices. We get the question on how long will prices stay this strong? Most of the sophisticated price predictors say cattlemen will remain seeing strong feeder cattle prices into 2027. A much larger window than the 2014 and 2015 window of feeder cattle price spikes.

Selecting a seedstock producer who can cover your two basic needs in genetic improvement and superior service is a must. The genetic potency of the Gibbs Farm is simply unmatched. Superior marbling, maternal traits, growth and calving ease can be found all through the strong offering of bulls. The genetic horsepower of the herd has led to the GF prefix of having a strong reputation in video sales platforms and cattle feeders throughout the country. The service component of Gibbs farms offers a strong warranty, affordable deliver, and a continued effort to make your feeder cattle and bred females more valuable to buyers. If you have not gave a Gibbs animal a chance, they will backwards in order to earn your business.

We hope you can join us March 1st or catch the sale online on DV. As always if we can be any assistance, please do not hesitate in reaching out.

Sincerely,  
*Marty Ropp, Corey Wilkins and Jared Murnin*

# Improved Buying Confidence with Greater Genomic **ASSURANCE**

Access to more and better information has always been key to making wise decisions. The evolution and improvement of genetic evaluation tools too has given us an ever-clearer picture of the true genetic makeup of cattle and thus a better view of the value proposition. RightMate, powered by Top Genomics LLC is taking the evaluation of genetics and genomics one giant step further. By combining specific genomic information with the long-proven value of EPDs, this new advancement in technology improves our depth and precision when evaluating the actual ability to transmit value and profit.

The 3 Accreditation Logos below are designed to simplify bull selection and improve buyer confidence by more accurately describing the genetics offered and by reducing risk. What this means to you as a customer is a much greater assurance that you are getting both what you want and need from the genetics you purchase. What it means to your seedstock provider is access to RightMate technology that simply sets them apart from the rest of the industry.

**ACCREDITED GENOMIC PLUS** – For the majority of producers who simply need consistent and balanced genetic improvement, without genomic setbacks, G+ Accredited bulls should be on your list for premium purchase. These sires will absolutely move you forward

for both cost reduction and income producing traits and substantially reduce risk when compared to all other evaluation programs. It's simple, the right genes are in these bulls to help secure a profitable future and the they have great EPDs to match!

**ACCREDITED TERMINAL MATE** – Just like an ATM machine makes it simpler to access your cash, the ATM Logo highlights bulls accredited to generate extra cash income as soon as your next calf crop! These bulls are meant specifically to use only on mature cows and for the purpose of adding performance, pay weight and end product value to market.

**ACCREDITED CALVING EASE** – Simply find bulls with the ACE logo for third party Accredited, secure Calving Ease bulls. Though we have had tools in the past to assist in choosing heifer bulls, we've never had one nearly this effective. The reduced risk that comes with this

genomic certification will simply make your decisions easier and your heifer calving season more successful. Purchase special purpose ACE bulls with confidence. They will deliver consistent and predictable calving ease.

MARTY ROPP 406-581-7835

Lot 1 is always reserved each year for the purebred or simangus bull that is an ideal representation of our program. This bull is a true breeder bull with as much uniqueness to his impeccable EPD profile as well as eye appeal. He is backed by one of the most famous cows in the breed SSF LOUISIE Y534. This bull offers the ideal amount of calving ease for a heifer bull, adequate growth, and a superior stay and API. Physically he is big-footed and loaded with muscle.

This a purebred bull with as much eye appeal and performance as you can make in one. Completely outcross to most modern lines, the Reserve progeny are topping sales across the country. We sold two brothers to this bull in our fall sale for \$28,000 and \$27,000. This Reserve son deserves to be looked at because we believe his genetic value is truly special.

This is the only Essential son in the sale and he is truly special. Its hard to find this much spread in a bull and maintain the eye appeal and thickness that cattlemen desire, but this bull has it all!

## Sale Terms and Conditions

**Herd Health...** Every sale animal and the entire Gibbs Farms breeding herd is properly vaccinated and boosted annually for 7-Way Clostridium, IBR-BVD-BRSV-PI3, Hamophilus Somnus, Pasturella, Leptospirosis, and Vibriosis. All heifers are calthood vaccinated for Brucellosis and every calf born on the farm each year is tested for BVD-PI. All sale animals have been tested negative for Johne's Disease and the cow herd is being tested annually. All animals on the farm are treated at least twice annually with a parasitic pour-on and at least once annually with Safe-Guard drench. All bulls have successfully passed a complete breeding soundness exam.

**Guarantee on the Sale Females...** Every open heifer selling is guaranteed to be open at the time of the sale and guaranteed to be a satisfactory breeder provided they are managed for proper and acceptable nutritional and physical health. In the event a heifer proves to be a non-breeder, the customer must contact Gibbs Farms on or before May 15, 2021 to make a claim. A veterinarian's statement will be required and Gibbs Farms reserves the right to have the heifer returned if deemed necessary. The customer will be given a full credit (minus salvage value of the original heifer) to be used in a future Gibbs Farms Sale. Every bred female is guaranteed to be bred on sale day as stated in the sale catalog or as updated from the auctioneer at the time of the sale. In the even any bred female is found to not be bred represented when sold, the customer needs to contact Gibbs Farms immediately and no later than May 15, 2021. The customer will be given a satisfactory credit on a future Gibbs Farms Sale. Remember: All potential claims must be made to Doug Gibbs or Bradley Gibbs at Gibbs Farms on or before May 15, 2021.

**Genetic Conditions...** The knowledge and testing technology for all types of genetic conditions is almost changing daily. What we knew to be policy yesterday may be obsolete today. Our policy at Gibbs Farms is to fully follow and abide by any and all testing and reporting policy pertaining to genetic conditions as recommended by the American Simmental Association. We further state that our personal policy is to not market any animals known to be carriers or suspected of being carriers of any genetic conditions classified by the ASA as lethal and/or high occurrence. On any animals known to be carriers of other non-lethal genetic conditions that the ASA recommends testing, we will test and provide results on any animals marketed. For full disclosure and explanation of all genetic conditions monitored by the ASA, please refer to the TraitTrac shown on their individual pedigree on the ASA website.

**Guarantee on the Sale Bulls...** Every Bull selling is guaranteed to be sound on sale day to the best of our knowledge and has successfully passed a complete breeding soundness exam performed within 60 days of sale time.

**Full Purchase Value Extended Warranty on Sale Bulls...** Every bull selling carries a 100% guarantee extended warranty for one breeding season, provided the bull is managed for proper and acceptable nutritional and physical health, not to exceed six months beyond sale day. In the event customer has any problem with a bull should immediately contact Gibbs Farms to report a claim. A veterinarians statement of the problem will be required and Gibbs Farms reserves the right to have the bull returned if necessary. A replacement bull of mutually agreed upon quality will be provided if Gibbs Farms has one available with delivery expense not to exceed Gibbs Farms Delivery amounts on regular sale day animals. If a satisfactory replacement bull is not available, the customer will receive be given full sale credit (minus salvage value) to be used at future Gibbs Farms Sale. Gibbs will not be responsible for any settlement amount exceeding the purchase price of the bull.

Remember: All Potential Claims must be made to Doug or Bradley at Gibbs Farms prior to May 15, 2025.

**NO ONE CAN GUARANTEE EVERY ANIMAL WILL PERFORM PERFECTLY, BUT AT GIBBS FARMS WE GUARANTEE WE WILL MAKE THINGS RIGHT IF THEY DO NOT!**

We start the SimAngus bulls with a Kenny Rogers son that is a true heifer bull that is loaded with WW and YW. The Kenny Rogers sire group were our high selling sire group in our fall sale for a good reason. Look for this bull to be a heifer safe option out of this sire and improve marbling.

**GIBBS 3482L KENNY ROGERS** Sells as Lot 22.

**BALDY**

This bull is possibly the best option for a true baldy power bull. He will increase weaning weights and performance in your cow herd. He is admired for his striking eye appeal, bone, and shape. He goes back to the same cow family that produced the \$55,000 high selling bull, GIBBS BLAZER 3L02.

**GIBBS 3514L** Sells as Lot 48.

## Gibbs Farms Bull Development

Gibbs Farms Bulls are grazed on pastures containing KY-31 Fescue and volunteer summer grasses like common Bermuda, crabgrass, and clover very similar to the environment most of them will encounter when they go to work of the environment most southeastern cattlemen operate in. They remain in the large pasture environment from the time they are weaned right up until sale time, never spending anytime in a dry lot environment.

Yes, we supplement the bulls on a high roughage, properly balanced bull developer ration consisting of soyhull pellets, peanut by products pellets, cotton by products, ground hay, a special mineral package and enough extruded cottonseed meal to balance their protein needs. We never use high starch cereal grains in our breeding cattle developer rations.

Placing our breeding stock in settings which will replicate most commercial environments operate in, results in bulls who will absolutely meet your needs. We want customers to be able to recognize their bulls in coming months after the sale.

# PHENOTYPE or NUMBERS?

Too often we get asked the question, “What’s most important, phenotype or numbers?” We feel like it is an important question and one that is much debated within the industry and often divides the industry. It is also a question that needs to be tackled in a few parts.

We feel as phenotype should be the base and starting point of any animal. Cattle should simply be built to last with structural integrity, correctness, and be overall sound. If a bull or heifer can grow really good or has great carcass quality, but cannot stay sound for many years to come then they will cost you money! Many do not realize that the number one expense to a producer is replacing females in the herd. Another way phenotype is important to us is simply that we like to look at the cattle and be happy with what we see. It sounds simple minded, but it brings us joy to ride into the pasture and have “good lookin” cows running around, and we know our customers feel the same. Also, I have a little boy coming up, and I hope he will want to drag one in the show ring in a few years and have some success and learn a few lessons.

Where do we stand on “numbered cattle?” To answer that correctly, we first must understand what EPDs do. “EPD” stands for expected progeny difference. They compare individual animals to other animals in different ages and environments. They are extremely important in the fact that they give you the opportunity to seek the best cattle for what you need. Individual data such as weights and carcass scans are put into contemporary groups, and go into these EPDs, and move the animal where it is compared to where it was projected on from the pedigree. The actual EPD allows you to compare animals from your neighbor’s bull or even other breeders. EPDs are will not change if the pounds are fake and are just fed on. The actual growth epds will reflect where the animal will grow in your environment. I have seen a few breeders bosting huge 1000-pound weaning weights, and we have used their bulls and never seen 1000-pound weaning weights. Do you know why?? It isn’t because they or we are doing something wrong, it is because our environments are not the same. EPDs are what keeps breeders honest. EPDs are the only tool we have to compare different herds in different environments. EPDs measure important traits that we all need to pay attention to if we truly want to be successful.

So, what’s our answer?

Both! Phenotype and numbers are important. If anybody tells you different, then they are deceiving you. The older I get, the more I see greed and marketing come into this business. Find you a breeder you trust and a program that fits what you believe in, and go with it! We hope its us! A simple analogy to remember... If your bull looks like crap, but has really pretty numbers then it’s still crap... If your bull has crappy numbers, doesn’t grow, or give you the carcass you need to hit the premiums, then you just have pretty crap... The only way to be truly successful is to have everything, and that’s what we strive to produce.

# GF Your HERDSIRE Headquarters

- Breed-leading genetic growth
- Disciplined and balanced maternal and terminal traits
- Cattle built to perform in the pasture and the feedlot
- Soundness and fertility is a must
