

13th Annual
LYMAN LIVESTOCK BULL SALE

1:00 PM MT | PRODUCERS LIVESTOCK MARKET
SALINA, UTAH

FEBRUARY 22

PAP Tested **105** *Bulls Sell*

SIMMENTAL • SIMANGUS • ANGUS

Welcome to the Sale

Wow, as I sit here and write this welcome It's hard for me to believe this is our 13th production sale we have put on. While we have been in the Bull business for 20+ years, it never ceases to amaze me of the support we get from you fellow cattlemen and cattlemen.

This last year of 2024 and so far into the first few weeks of 2025 have been exceptional times in the beef business for the cow calf producer. "AND IT'S ABOUT DAMN TIME" you're being paid for your hard work and the premium product you're supplying the industry.

There has never been such a time where quality genetics and cross breeding heterosis is so important. Go get those pounds that the Sim-Angus cross produces while keeping functional maternal traits in your cowherd. We have always focused on our females, great mother cows raise top notch bulls and replacement females for us. Our SimAngus genetics run in some pretty harsh elevated environments. As I write this our mature cow herd is wintering out at 6300+ ft and hasn't been fed a bale of hay yet.

At this year's sale we will offer without a doubt our best set of 100+ pap tested bulls to date. We have large contemporary groups of several of our sires. You will find SimAngus, Purebred Simmental, Angus, and a select group of bulls with some Balancer in them. The bulls performed really well on pap testing day, 95% of the bulls are suitable for elevation Dr. Truman performed the test at 6,300 ft.

I would like to thank the teams that help you our customers and ourselves market our calves, Wayne Cowley and the team at Producers, Superior Livestock, Tait Gourney does a great job repping the cattle, and also R-Livestock auction to name a few of the locals that help us all get the best price possible. We are continuing to utilize Allied Genetic Resources help in marketing our cattle; they have become a household name in Simmental and SimAngus genetics.

Thanks to our sales management team Jared, Corey & Marty they do a great job helping us get the sale put together every year. They are also a great resource if you have any questions about our bulls.

Lastly, if there is a problem with your bull we are the only ones who can help solve it let us know we are your partner in the cow business and we stand behind our bulls that we sell. Come early to see the bulls on the 22nd or stop by anytime before sale day to view the bulls at the farm. We will have DVAuction on hand for internet bidding and viewing also on sale day please sign up ahead of time, as always we will take your bull home and deliver him the first part of April.

Many Thanks and God Bless!
From The Lyman Crew
Mike, Eric and Kevin Lyman families

Click on Producers Livestock, Salina, UT

All internet and phone bidders must be registered with Producers Livestock prior to bidding!

For DVAuction: www.DVAuction.com. See the page 15 for more information.

SCHEDULE OF EVENTS

February 22, 2025

10:00 am

Preview the Bulls

1:00 pm

Sale Begins

Join us for a complimentary lunch prior to sale.

VIEWING THE BULLS PRIOR TO THE SALE

Please visit us to view the bulls before the sale at Lyman Livestock Farm, 8500 S. State Road 198, Spanish Fork, UT 84660.

SALE TERMS AND CONDITIONS

Cattle will be sold under the terms and conditions of the American Simmental Association and American Angus Association.

BREEDING GUARANTEE

Bulls will be semen and Tric tested and are guaranteed breeders.

LIVESTOCK INSURANCE

We cannot guarantee the bulls will not be injured while at our facility post sale, we highly recommend you purchase livestock insurance. We will have it available sale day.

SPECIAL THANKS

Arrowhead Veterinary for doing our breeding and soundness exams, Producers Livestock Auction for hosting our sale and San Rafael Vet Clinic for PAP testing the bulls.

CATTLEMEN TO CATTLEMEN GUARANTEE

Cattlemen to Cattlemen guarantees the breeding animal for six months after the sale date as a satisfactory breeder. This guarantee does not cover illness, injury, neglect, or death. All animals become the responsibility of the buyer once it leaves the ring. The seller has the right to replace the animal with one of equal value or refund credit minus the salvage value at a future sale. All returned bulls will need a vet's detailed written diagnosis of cause to be a non-breeder.

LIABILITY

Neither Lyman Livestock, sale management, seller or Producers Livestock Auction is responsible for sale day accidents. Announcements made on sale day will take precedence over printed material in the sale catalog.

FEEDING AND DELIVERY

Lyman Livestock will keep your bull and deliver him to your ranch free of charge. However, we can not be responsible for injuries that occur after the sale. We will start delivering the bulls on April 5, 2025.

PAP TESTING

PAP scores are provided to indicate differences between bulls and how they may work at high elevations. PAP tested above 6,300 feet. See page 2 for more information.

ABOUT THE BULLS

All bulls were weaned on September 8, 2024. Bulls without a BW listed calved out unassisted on the open desert range. Lyman Livestock will be retaining 25% semen interest in all bulls sold. Buyer owns 100% possession and salvage value. If semen collection is done, it will be at our expense and the buyer's convenience.

More on PAP Testing

Details for PAP Testing and Scoring of Cattle PAP Tested at 6,300'

PAP Score mmHg	Evaluation
30-35	Excellent and Highly Reliable Score
36-40	Excellent for animals older than 12 months. For a younger animals the score is fairly reliable, but testing is suggested.
42	Reliable score in all animals older than 12 months. It is recommended that younger cattle score less than 42 depending on test altitude.
43-46	Acceptable score for animals older than 12 months. Younger animals should be retested.
47-49	Acceptable score for animals older than 16 months that have been at high elevations for an extended period. These animals should be considered at some risk. Testing altitude and animal's location should be considered.
>50	Animals in this range are considered at high risk for themselves and their offspring. Many animals scoring in this range have died of high-altitude disease.

***Note These figures are based on cattle 12 months of age and older and tested at or above 6,300 ft. If an animal does not meet these criteria, adjustments must be noted.

Accuracy of measuring PAP to predict pulmonary hypertension at various altitudes.

Elevation	Accuracy
< 5,000 ft.	NOT VALID
5,000 - 7,000 ft.	75%
7,000 - 8,000 ft.	80%
8,000 ft.	85%

Animals must be exposed to the altitude above 5,000 ft for a minimum of 4-6 weeks.

LYMAN LIVESTOCK

Lyman Livestock is a fifth generation ranching operation based out of Central Utah. The ranch is run by three brothers Eric, Kevin, Mike, along with their parents, Keith and Glenda, and our kids. Everyone pitches in with the work, our kids are taught to work at a young age and are very capable of all ranching activities. Our wives are our unsung troopers, from meals delivered, to feeding when no one is around, to clerical work, and bull sale info.

While our ranch is nearing 100 plus years in the cattle industry, it has been a meticulous amount of dedication that our parents Keith and Glenda have put into expanding the ranch to what it is today. Our father has never believed in money, he has always believed in dirt and has worked his hole life to put this ranch together along with his boys. In 1998, we began raising Simmental genetics and have never stopped trying to improve our customers and our own cow herds. Sim influenced genetics flat pay you more money. It been proven what heterosis does in a cowherd. As we push forward in this new cattle age, we will continue to keep our customers wants and needs at the for front of our seedstock operation.

25 years in the seedstock industry raising and selling bulls, the life lessons these cattle have taught us are priceless. We annually offer 100 yearling pap tested bulls in Lyman Livestock's Cattlemen to Cattlemen bull sale the last Saturday in February at Producer's livestock sale barn in Salina Ut. Where we offer the best in SimAngus, Simmental and Angus genetics for our customers cowherds.

The ranch consists of three main properties where we use a three area rotation for the cows. The summer ranch is located between Montpelier Idaho & Cokeville Wyoming. We typically summer 450 pair there from late May to early November.

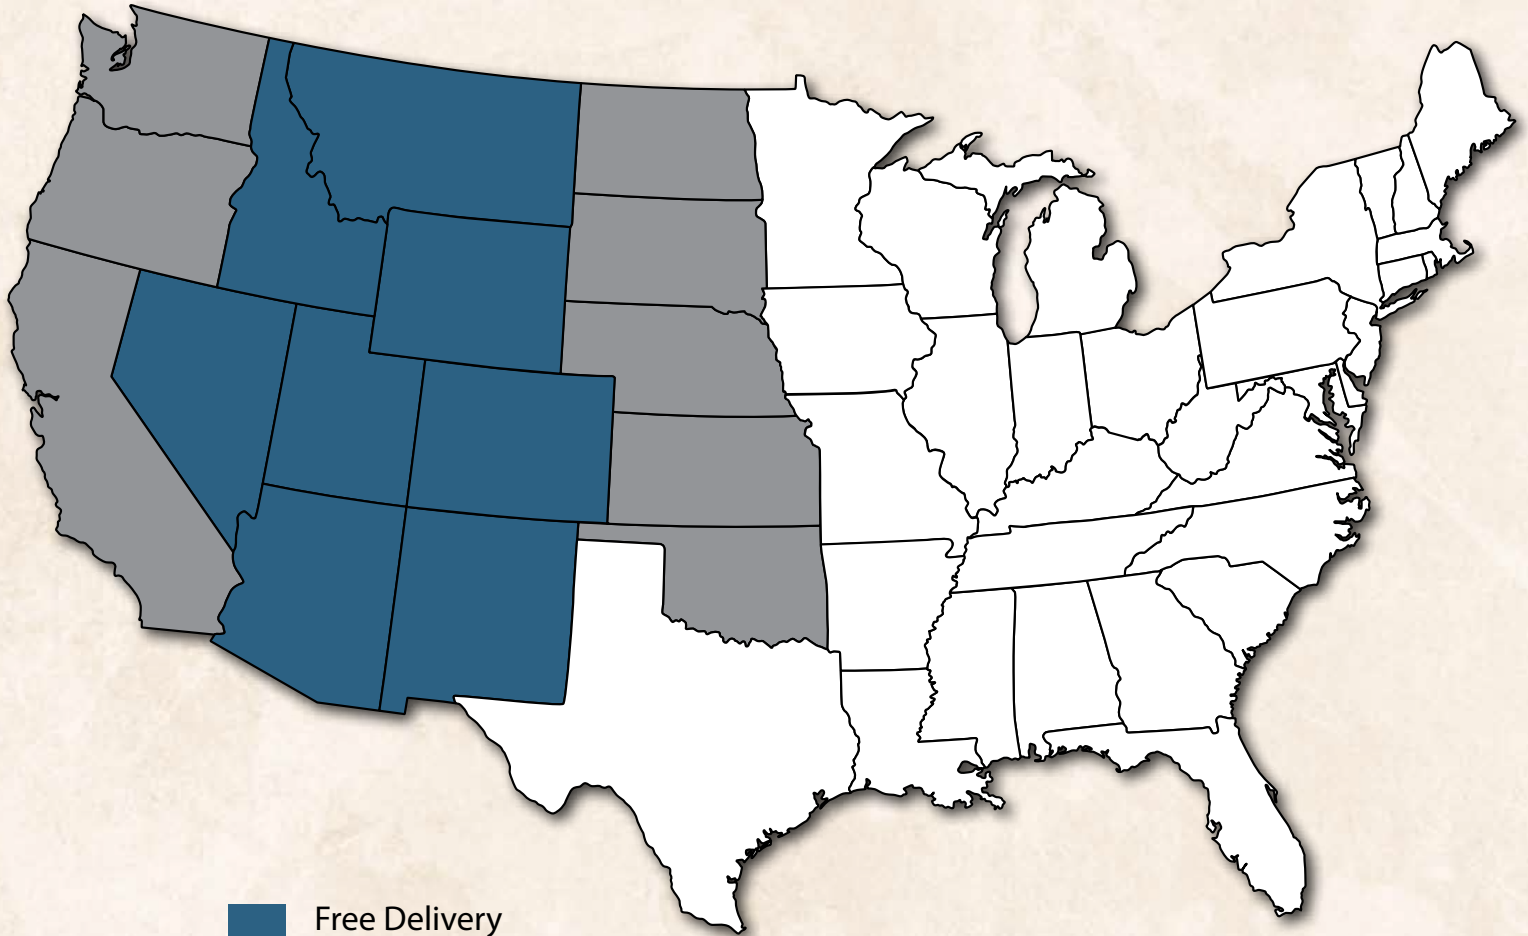

From there the cows are loaded on trucks and either took to late fall pasture or hauled to Monticello, UT, where we winter from December till April. We winter out in large 1,000 acre plus high, 6,500 ft, desert pastures where cows calve unassisted and are supplemented very little if any hay.

As we move from winter to spring the cows are hauled from Monticello to Yuba reservoir area in central Utah. We put the cows on lush green spring grasses to help get the bred back in April and May.

A few things to know about our cattle herd. We have been PAP testing for close to 20 years. We believe in high altitude genetics and search and use only bulls that can produce suitable pap scores on their offspring. We run our registered stock like a commercial operation no pampering the cows are wintered in tough conditions and must breed back with minimal supplemented feed. We operate around 500-600 head of momma cows. 300 registered Simmentals, 80 registered Angus, 40 registered Gelbvieh, and around 180 commercial SimAngus influenced cattle.

We Deliver

-  Free Delivery
-  \$300 Delivery Fee
-  \$400 Delivery Fee

Going the Extra Mile

Lyman Livestock bulls are ready to go to work for YOU.

- PAP tested at 6,300' elevation - see page 2 for more on PAP testing
- DNA Tested and RightMate scored - see page 5 for more on RightMate
- Breeding Soundness Exam and Semen Tested
- "Cattlemen to Cattlemen" guarantee
- Bulls raised by BLM range-calved cows on the 6,500' Utah high desert
- Developed to go to work in rugged country

Improved Buying Confidence with Greater Genomic **ASSURANCE**

Access to more and better information has always been key to making wise decisions. The evolution and improvement of genetic evaluation tools too has given us an ever-clearer picture of the true genetic makeup of cattle and thus a better view of the value proposition. RightMate, powered by Top Genomics LLC is taking the evaluation of genetics and genomics one giant step further. By combining specific genomic information with the long-proven value of EPDs, this new advancement in technology improves our depth and precision when evaluating the actual ability to transmit value and profit.

The 3 Accreditation Logos below are designed to simplify bull selection and improve buyer confidence by more accurately describing the genetics offered and by reducing risk. What this means to you as a customer is a much greater assurance that you are getting both what you want and need from the genetics you purchase. What it means to your seedstock provider is access to RightMate technology that simply sets them apart from the rest of the industry.

ACCREDITED GENOMIC PLUS – For the majority of producers who simply need consistent and balanced genetic improvement, without genomic setbacks, G+ Accredited bulls should be on your list for premium purchase. These sires will absolutely move you forward for both cost reduction and income producing traits and substantially reduce risk when compared to all other evaluation programs. It's simple, the right genes are in these bulls to help secure a profitable future and they have great EPDs to match!

ACCREDITED CALVING EASE – Simply find bulls with the ACE logo for third party Accredited, secure Calving Ease bulls. Though we have had tools in the past to assist in choosing heifer bulls, we've never had one nearly this effective. The reduced risk that comes with this genomic certification will simply make your decisions easier and your heifer calving season more successful. Purchase special purpose ACE bulls with confidence. They will deliver consistent and predictable calving ease.

ACCREDITED TERMINAL MATE – Just like an ATM machine makes it simpler to access your cash, the ATM Logo highlights bulls accredited to generate extra cash income as soon as your next calf crop! These bulls are meant specifically to use only on mature cows and for the purpose of adding performance, pay weight and end product value to market.

ASR AMERICAN PROUD H0301

American Proud was our purchase in 2021 from Altenburg Super Baldy Ranch. He has gone on to be a heavily used AI sire because of his combination of calving ease and growth with strong carcass traits. His progeny at Lyman Livestock have excelled in our environment and the best thing about him might be his daughters.

HOOK'S GALILEO 210G

Galileo calves have been topping sales all across the country. His combination of calving ease and growth with an outcross pedigree made him a good selection for us. Then look at the bulls he produced in this sale. They have the look, calving ease and performance we were hoping for.

Summerfall and Summer Angus Bulls

A Note from the Sale Manager

Welcome to the 2025 Lyman Livestock Annual Bull Sale. This is our third year working with the Lyman family and it has been a pleasure. The Lyman's work very hard at producing the best product they can for their commercial customers. Their commitment to improving the genetics of their herd to make bulls that fit their customers' environment is second to none. Every mating and Herd Bull purchase keeps in mind how the progeny is going to work in their western environment. This is something you don't always see in a seedstock producer. Many are focused on using the most popular AI sires with the biggest set of EPDs they can get without thinking about how their progeny are going to fit in their customers environment. The Lyman's make every breeding decision with you, the customer, in mind. It is people with this kind of philosophy that Allied Genetic Resources works with.

Some examples of their commitment to making cattle that work in their customers environment is PAP testing. Lyman Livestock has been committed to producing cattle that thrive at high elevations. They have been PAP testing for over a decade now and they have developed a herd that thrives at high elevations. Just look at the PAP scores on this set of bulls, very few are not suitable for high elevations. The Lyman's also make their cows work on the range just like their commercial customers. You do not see the feed truck pulling away from a big silage pile to feed the cows most of the year like a lot of seedstock operations. The mature cow herd is out wintering and calving in the desert in southern Utah as we speak. If the cows can't make it on their own and raise a calf they do not live here. These examples are what make this program so unique compared to traditional seedstock producers. These cattle flat work in our Western environment and if they can work here, they can work where feed is more abundant as well.

With the goal of always making genetic advancement and better selection tools for their bull buyers, the Lyman's took DNA on the sale bulls and the Simmental bulls have RightChoice logos. This relatively new technological advancement utilizes high impact genes for each trait and categorizes bulls that qualify with a simple logo system. To learn more about RightChoice please see the information page in this catalog or feel free to reach out to one of us on the Allied team with questions.

If you have any questions about the offering or need assistance sale day, please contact one of the Allied team members, we will be happy to assist you.

Sincerely,
 Marty Ropp, Corey Wilkins and Jared Murnin

Reference SIRE OF LOTS 21, 38, 39, 86, 87

CLRS JENKINS 616J

Jenkins was our selection in the 2022 Bred for Balance sale. His progeny are moderate at birth and really grow. He is stamping his calves with exceptional phenotype with tons of rib and volume. To top it off his progeny PAP test very well.

LYMANS JENKINS M125 Sells as Lot 38.
