<i>Tristate Livestock News</i>	

### INTERNET BIDDING

Sale will be broadcast online with [www.DVAuction.com](http://www.DVAuction.com).  
Please see page xx for more information.

### ANNOUNCEMENTS

Announcements made sale day take precedence over printed material in the sale catalog. Anyone attending this sale attends at their own risk. TSN Simmentals and sale force are not responsible for any personal injury while attending this sale.

### TERMS OF SALE

All cattle will sell under the suggested sale terms and conditions of the American Simmental Association. Terms available sale day.

### SEMEN INTEREST

TSN Simmental Ranch will retain revenue sharing interest in semen sold from bulls in this sale according to the following:

Under \$20,000	TSN will retain 50% semen interest
\$20,000-39,999	TSN will retain 33.33% semen interest
\$40,000+	TSN will retain 25% semen interest

### FEEDING AND DELIVERY

We will offer to feed the bulls at no charge until April 15, 2025. Delivery will be free of charge up to 300 miles. We will assist in coordinating the arrangements to deliver. We are not responsible for injury or death to the bulls while they are in our care.

### COMMENTS ON OUR NUTRITION

When these bulls were weaned, we put together a GROWING ration not to maximize gain, but rather to develop the bulls slowly and correctly. The bulls are still on this ration today. In the seedstock industry today, it seems that the price we are willing to pay for a bull is affected by how fat the bulls are, and we are not distinguishing the difference between bulls that are fed too "hard" and bulls that are not. A fat bull has the tendency to have feet problems, lower semen quality, and no longevity. He may be easier on the eyes, but if he needs to be replaced in 2 years, is he really the right bull for your program?

**PURINA**

Tim has done a great job putting together some outstanding pedigrees. Feel confident that when you make your visual appraisal of the bulls, they are not lying to you. There's no "fluff" fed on. We at Pranger's Feed Mill are very proud to put our stamp on this set of bulls.  
Pranger's Feed Mill - Platte, SD  
Jason Kuhlman - Purina Animal Nutrition

# Welcome to the Sale

Welcome Cattlemen and Cattlewomen,

Thank you for your interest in our 2025 bull offering. It has been quite a year. The cattle markets have never been better. There is a lot to be optimistic about. I believe we are set to have a strong cattle market for the next few years. As you can see in the lineup we have a new prefix for the bulls that Wyatt and Sawyer are offering. Route 9 Simmental (Rt9) will be offering bulls with the quality that you have come to expect from TSN. We were blessed to welcome a new family member this September, our grandson Lael Charles Christman, born to Shad and Rebecca. What an experience it has been to become grandparents!

Our goal is to produce cattle that make you, our customers profitable. We use many tools to make this happen, including individual performance data, EPDs, and DNA analysis. We have teamed up with the ASA and Allied Genetic Resources to use these tools to help us make faster generic strides towards our goals. The team at Allied is great to work with and help us with marketing and DNA analysis. We encourage you to read through the RightChoice explanation on the inside back cover of this catalog. RightChoice combines a bull's specific genomic information EPDs to evaluate ability to transmit value and profit.

We are using DVAuction, the online auction service. All bulls have been video taped and will be offered online during the sale. The bulls will be at the sale facility the day of the sale and will be brought through ring. We are encouraging customers to get a DVAuction buyer number 24 hours prior to the sale. We also encourage you to view the bulls at the ranch prior to the sale.

We are offering to take the bulls home and winter them free of charge until April 1st. At that time delivery arrangements will be made. We are offering free trucking up to the first 250 miles of delivery. There will be a \$200 dollar credit off of the purchase price for the bull taken home sale day.

We look forward to seeing you, and again, thank you for your interest.

The Tim and Sandy Naasz Family  
Tim and Sandy Naasz, Sawyer and  
Wyatt Johnson, Lyra, Rebecca, and Shad

UNA

We've decided to sell a started cattledog this year. Louie is a neutered, 2 year old registered Border Collie. He has a lot of power and go. He both heads and heels cattle and they respect him. His video is with the videos of the bulls. He was competing in the NWSS Nursery class. This was the second round where he finished 4th out of 14.

*Louie*

One of our favorite Bold Ruler sons. His dam raised 3 calves with an average weaning ration of 109 before producing this bull and his twin sister in '24. Another full sister was added to the herd.

# KBHR BOLD RULER H152

The Bold Ruler's progeny is topping sales around the country. His pedigree is stacked, being sired by the immortal Proclamation and out of the great Keller's Broken Heart donor dam 106Z. Bold Ruler sires muscle, volume and performance in an eye appealing package. His EPD profile is outstanding and his \$API and \$TI are at the top of the breed.

A combination of calving ease and growth. This boy went from 54 to 1204 pounds in 345 days, gaining almost 4 lbs./day on test. Ratioed 113 at weaning, he's thick and powerful.

TSN STATESMAN K006

TSN STATESMAN K006 Sire of Lots 11-19.

# Reference

TSN Statesman K006 Statesman was the top selling bull in our 2023 sale, going to Werning Cattle Company. We used him thinking he would be a calving ease bull, but his calves have shown exceptional growth with the majority ratioing above average at weaning. He now ranks in the top 2% for WW and 5% for YW while still in the top 3% for CE and BW.

We're excited to offer his first bull crop, but really looking forward to the replacement heifers coming up.

An ET bull out of our Shear Force donor cow. She weaned 6 calves with an average weaning ratio of 111. She's got 3 daughters in the herd and looks great at the age of 12 with an excellent udder and feet.

**LBR GENESIS G69** Sire of Lots 20-28.

Reference

## LBR GENESIS G69

Genesis has been a no mis sire. His progeny has great growth and muscle and his EPDs are breed leading. The added bonus is that his daughters are making beautiful cows with added volume and great teat and udders. Genesis is proving to be a great all-around sire for growth, carcass and maternal traits.

We had our eye on this bull all summer. He packs a lot of growth in a really attractive package. On a nostalgic note, his granddam was one of Sawyer's first show heifers and produced 11 calves for us. This Eagle sired cow was the last heifer she produced and she's of to a good start with this Guardian son.

## A Word from the Sale Manager

It is our pleasure to be working once again with TSN Simmentals. Tim and Sandy have always been at the forefront of utilizing technology and all the tools available to breed better cattle for their customers and this offering is proof that the plan is working. The bulls in this sale are sired by some of the most proven performance bulls in the industry without sacrificing the productive female. Over the years TSN Simmentals has produced bulls that have impacted the breed, and we are excited to offer the first progeny by TSN Statesman who sold in the 2023 sale. His sons are sure to impress, and it looks like this is just the beginning of a successful breeding career.

Once again TSN has utilized RightChoice technology to make your purchasing decisions easier. Please refer to the information page in this catalog for a description of what the logos mean and how best to put them to use for your breeding objectives. A majority of the bulls in this offering received logos for growth, maternal and calving ease traits making it a safe bet that you can find a bull that fits your breeding objectives. TSN Simmentals has quietly been breeding cattle that fit the demands of the industry, and the data of this offering proves they are producing cattle the meet industry demands.

If you have questions about the offering, please feel free to reach out to any of us on the Allied team. We will be glad to assist you in any way possible.

Sincerely,  
 Marty Ropp, Corey Wilkins and Jared Murnin

## GIBBS 9114G ESSENTIAL

Essential progeny excel in most all economically relevant traits. He has numerous sons at stud and many daughters are finding their way to the donor pen. They have unmatched growth combined with great STAY and Docility. Essential is also a go to sire to improve foot quality.

A younger bull here. His Prophet dam has weaned 6 calves with an average ratio of 107.

TSN ARCHITECT J618 Sire of Lots 53-55.

Reference

## TSN ARCHITECT M229

TSN Architect One of the best bulls produced here. He was the pick of Apex Cattle Co. in our 2022 sale, with our semen interest going to LCOC. From his first calf crop he produced the 2nd high selling bulls at Apex, LCOC, and TSN.

# Improved Buying Confidence with Greater Genomic **ASSURANCE**

Access to more and better information has always been key to making wise decisions. The evolution and improvement of genetic evaluation tools too has given us an ever-clearer picture of the true genetic makeup of cattle and thus a better view of the value proposition. RightMate, powered by Top Genomics LLC is taking the evaluation of genetics and genomics one giant step further. By combining specific genomic information with the long-proven value of EPDs, this new advancement in technology improves our depth and precision when evaluating the actual ability to transmit value and profit.

The 3 Accreditation Logos below are designed to simplify bull selection and improve buyer confidence by more accurately describing the genetics offered and by reducing risk. What this means to you as a customer is a much greater assurance that you are getting both what you want and need from the genetics you purchase. What it means to your seedstock provider is access to RightMate technology that simply sets them apart from the rest of the industry.

**ACCREDITED GENOMIC PLUS** – For the majority of producers who simply need consistent and balanced genetic improvement, without genomic setbacks, G+ Accredited bulls should be on your list for premium purchase. These sires will absolutely move you forward for both cost reduction and income producing traits and substantially reduce risk when compared to all other evaluation programs. It's simple, the right genes are in these bulls to help secure a profitable future and they have great EPDs to match!

**ACCREDITED CALVING EASE** – Simply find bulls with the ACE logo for third party Accredited, secure Calving Ease bulls. Though we have had tools in the past to assist in choosing heifer bulls, we've never had one nearly this effective. The reduced risk that comes with this genomic certification will simply make your decisions easier and your heifer calving season more successful. Purchase special purpose ACE bulls with confidence. They will deliver consistent and predictable calving ease.

**ACCREDITED TERMINAL MATE** – Just like an ATM machine makes it simpler to access your cash, the ATM Logo highlights bulls accredited to generate extra cash income as soon as your next calf crop! These bulls are meant specifically to use only on mature cows and for the purpose of adding performance, pay weight and end product value to market.
