# Welcome

Here at Bielenberg Angus Simmental we have focused on building great mother cows. Cows that are easy going, very balanced and well rounded with great maternal traits. We utilize sires that have similar traits and few, if any holes in them.

This way we are not trying to breed something in that is missing and potentially end up keeping daughters that perform inconsistently. We have been crossing like on like for decades, trying to improve the predictability which has helped us and our customers stay in business. It may sound like we've plateaued, but really quite the opposite is true.

We continue to strive for genetic excellence. If we believe we can gain more pay weight, larger hip, more fertility, etc. We utilize a sire as long as we aren't undoing anything and breeding out another economical trait or using a bull whose calves are lacking in phenotype.

The tools we use to accomplish our goals are cow sense, the stuff our parents, grandparents and accomplished cattlemen neighbors taught us as we grew up.

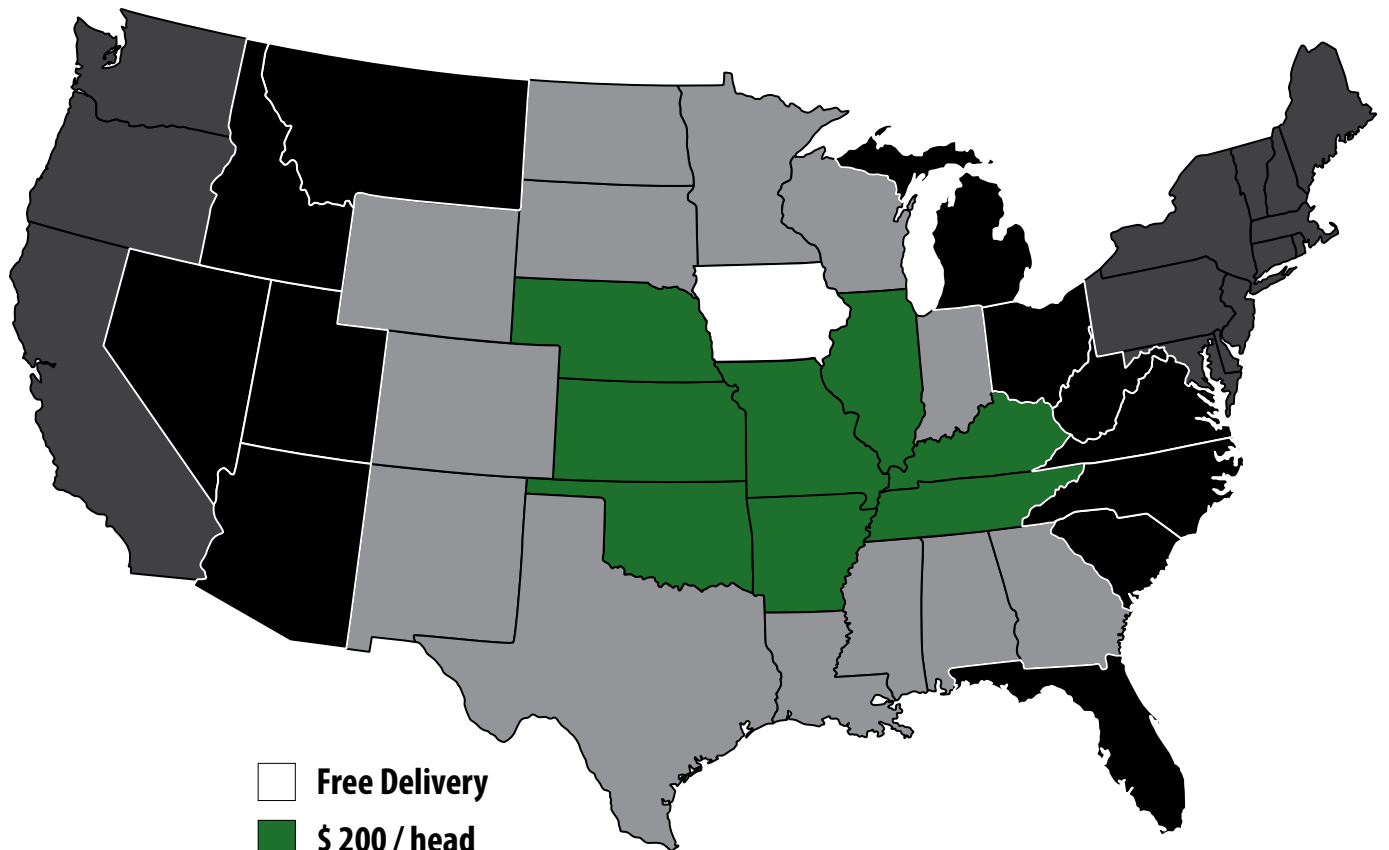

We also rely on the science that is helping our breed move forward so rapidly. Not only does the genomic test give us a better prediction and accuracy of the traits our bulls or cows possess, but we also pay attention to how much the EPDs change per animal. In our cow 801's case she seems to really hit the genomic markers well and when her or her progeny are tested, we see a larger positive change in the numbers.

The last tool we used and maybe most important is Microsoft excel. We are a part of the Total Herd Enrollment program with the ASA. We also have all our cows, their calves, their sires, and our yearlings every year on Microsoft Excel. We always encourage breeders to use this tool. With the click of our mouse, I can tell you the average birth weight a sire has had on all calves. We also can see the wean weights and ratios and yearling weights. We can sort it for cow families, we can sort it for cows out of x, y or z bull, and we can quickly figure out where we are making money and where we are losing it. This really helps us make wiser decisions.

We are a program designed to create efficient cattle with max pound at wean and yearling, maternally productive cows that look great while weaning off those big calves, cows with longevity-built in. If you breed for excellent cows all other pieces will fall into place!

We thank you for your interest in our sale and hope you can join us on sale, either in person or online. We will be available and would like to meet new friends and give you the information you need to get the bull or heifer best suited for your program.

All Day Cattle are available for viewing at the WCC Cow Palace

#### April 13, 2025

9:00 AM	Cattle Available for viewing
11:30 AM	Complimentary Lunch
1:00 PM	Auction Begins

### SALE MANAGEMENT

Marty Ropp	406-581-7835
Corey Wilkins	256-590-2487
Jared Murnin	406-321-1542

[www.alliedgeneticresources.com](http://www.alliedgeneticresources.com)

### HERD HEALTH

The bulls and females in the offering have been on a complete herd health program. They were given 7-way black leg and Inforce 3 at spring turn out time. At weaning they were boosted with Vision 7/Somnus, Inforce 3, and Pyramid 5 + Presponse SQ. The females are bangs vaccinated and the bulls and heifers have had all of their prebreeding vaccinations.

### REGISTRATION AND UPDATED EPDs

All cattle will be registered in the American Simmental Association. All EPDS are the most current BOLT at the time of printing conducted by IGS and the American Simmental Association. Please note that EPDs may change from the time the sale catalog is printed until registration papers are transferred.

### BREEDING GUARANTEE

We stand behind all of our bulls and want you to be satisfied, so let us know as soon as possible if there are any problems. Scrotal measurements are actual (not adjusted) as reported at the time of fertility exam, and will be listed on the supplement sheet on sale day. All of our bulls have passed a fertility soundness exam unless indicated on the sale block. All bulls are guaranteed breeding sound. Come with a standard 90 day breeding season guarantee at the onset of breeding season.

### ANNOUNCEMENTS

Announcements made sale day take precedence over printed material in the sale book or other printed material associated with the sale.

### LIABILITY

Owners, their agents, sales management, or any of the sale staff will not be held responsible for any personal injury, loss or accident while attending this sale.

### CONDITIONS OF SALE

All animals will be sold in accordance with suggested guidelines of the American Simmental Association. Unless other conditions are stated in this book.

### VOLUME DISCOUNT

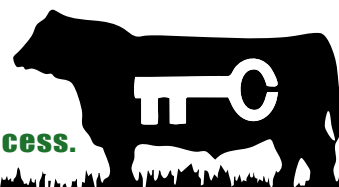

5% off of 5 or more bulls purchased.

### ONLINE BIDDING

Bid live online at [www.dvauction.com](http://www.dvauction.com).

# Improved Buying Confidence with Greater Genomic **ASSURANCE**

Access to more and better information has always been key to making wise decisions. The evolution and improvement of genetic evaluation tools too has given us an ever-clearer picture of the true genetic makeup of cattle and thus a better view of the value proposition. RightMate, powered by Top Genomics LLC is taking the evaluation of genetics and genomics one giant step further. By combining specific genomic information with the long-proven value of EPDs, this new advancement in technology improves our depth and precision when evaluating the actual ability to transmit value and profit.

The 3 Accreditation Logos below are designed to simplify bull selection and improve buyer confidence by more accurately describing the genetics offered and by reducing risk. What this means to you as a customer is a much greater assurance that you are getting both what you want and need from the genetics you purchase. What it means to your seedstock provider is access to RightMate technology that simply sets them apart from the rest of the industry.

**ACCREDITED GENOMIC PLUS** – For the majority of producers who simply need consistent and balanced genetic improvement, without genomic setbacks, G+ Accredited bulls should be on your list for premium purchase. These sires will absolutely move you forward for both cost reduction and income producing traits and substantially reduce risk when compared to all other evaluation programs. It's simple, the right genes are in these bulls to help secure a profitable future and they have great EPDs to match!

**ACCREDITED CALVING EASE** – Simply find bulls with the ACE logo for third party Accredited, secure Calving Ease bulls. Though we have had tools in the past to assist in choosing heifer bulls, we've never had one nearly this effective. The reduced risk that comes with this genomic certification will simply make your decisions easier and your heifer calving season more successful. Purchase special purpose ACE bulls with confidence. They will deliver consistent and predictable calving ease.

**ACCREDITED TERMINAL MATE** – Just like an ATM machine makes it simpler to access your cash, the ATM Logo highlights bulls accredited to generate extra cash income as soon as your next calf crop! These bulls are meant specifically to use only on mature cows and for the purpose of adding performance, pay weight and end product value to market.

## *From the Sale Manager*

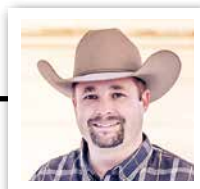

We would like to welcome you to the inaugural Bielenberg bull and female sale. The cattle in this offering are exceptional and have genetic value to burn. The EPD profiles on this group of bulls and females is eye popping and then you look at the cattle on the hoof and the quality matches the data. This program has recently produced two breed leading A.I. sires with BAS Money Maker J801 and BAS Mega Millions K2801. The influence of both sires, as well as their donor dam F801, is heavy in this offering and I promise you will not be disappointed. Along with Money Maker and Mega Millions they will offer sons of other breed leading A.I. sires like Gibbs 9114G Essential and KBHR Bold Ruler to name a few. Again, the genetic value in this offering runs deep.

To sweeten the deal the Bielenberg's are offering choice of the open heifers right out of the heart of their replacement females. All twenty-five head of females they chose to keep as replacements are listed in this catalog and they will sell in groups of five with the winning bidder being able to pick their choice out of the group. The Bielenberg's will keep the other four heifers not chosen by the winning bidder to keep as their replacement females to continue to progress their program. Opportunities to select off the front end of a herd of this quality doesn't happen very often. Don't miss out on this golden opportunity.

If you have questions about the offering or need assistance on sale day, please reach out to one of us on the Allied team.

Sincerely,

*Marty Ropp, Corey Wilkins and Jared Murnin*

Rank	1	1	5	10	1	1	1	2	15	65	15	10	1	1

This Guy really has it all. He's an attractive made bull and stands at a moderate 5.8 frame. Max is a very correct and good footed, big spread bull. He'll be a sleep all night safe bet with heifers or cows. Wow what an epd profile, with 7 EPD's in the top 1%, and 12 EPD's in the top 10%. Max's mother is a rising star in our herd, she's a very fault free young cow with an extremely snug udder, and great little teats, she's surely built to last! Her stats read 2@89bwr, 2@121wwr, 2@113ywr. This cross made Max Money, and his 3/4 brother in blood across the page is currently our favorite. Max would be a bull we would really count on to be very consistent in throwing the sensible traits we most need and desire as breeders, or commercial men. His best feature may be his ability to make great females with a lot of maternal power and instinct

Scrotal: 36 cm BW: 70 BW Ratio: 82 WW: 739 WW Ratio: 112 YW: 1,354

BAS MISS BEACON F801

This donor has been a phenomenal producer. She is the most consistent cow weve had and comes with a lot of maternal instinct. Each calf she has had, have all been home runs, with excellent performance phenotype and genotype. She is a very fertile, longer bodied cow, structurally correct with a great set of feet and legs. Her cow families stats are unparalleled, her individual stats are vest in herd. We could not be more excited to offer so many grandsons in our sale. We crossed her sons on our greatest cows primarily stemming from our best cow families.

BAS MISS BEACON F801   Paternal grandam of Lot 1.

**BAS DREAMED UP M4042 Sells as Lot 2.**

**BAS MISS FREE TRADE H042**

When this donor dam was a calf as well as a yearling, Mike would see her and comment "Wow, I don't think we've made a nicer heifer!" She is a moderate framed very attractive female. Her sire CLRS Free Trade 210F really stamps out these smooth made very correct and tight uddered females that have a ton of maternal character built in they make for excellent mothers. Since we've had Free Trade, each year one of his two-year-olds had the heaviest wean weight among the heifers, they are shooting up the ranks in our herd and turning into great cows. Miss Free Trade H042 is a very well accomplished cow, throwing lighter birth weights and her and her DAM, both collectively each have raised all calves @115 WWR. Customer satisfaction guaranteed on her progeny!

Rank	1	3	1	1	5	1	1	1	20	35	35	1	1	1

Dreamed Up is a stud! He's a thick made bull with a lot of depth and rib shape. His donor dam and granddam are known to throw exceptional phenotype, he certainly comes with extra style, and he's a smooth made wider bull, and is very square and masculine. He has 11 EPD's in the top 1% and has an incredible EPD average percentile ranking. His cow family have done a tremendous job for us his dam and granddam record great stats as well as both have a 115wrr collectively on calves raised. We named him dreamed up because it's been such a dream growing the two great cow lines that made him and making that cross that we feel ensures genetic superiority. All four cows in pedigree we have flushed and have calves out of. This bull we have the highest hopes for and like lot one believe he will consistently do so many things right, and stamp out some really awesome females and sons alike.

Rank	3	4	4	4	15	1	1	40	5	35	70	5	20	5

This bull is one we were looking forward to being born as much if not more than anything. He has got a great cow making package with all the maternal instinct built in and growth on his calves. His dam is of our 551 family which has been by far the most successful cow line in herd statistically, they've been genetically strong for consistent type and performance. His dam we consider our most valuable cow, she just kept knocking it out of the park with each calf on performance and phenotype. Dam and granddam are both big bodied softer made cows built to last. This guy is ET made and has a full sister offered in the heifer lots, BAS MS Money Maker M421.

Excellent straight black bull with striking phenotype coming from a great old cow that's done a tremendous job like we know they will of this line. This guy is closely related to Cow Power, being a maternal brother to his dam. These two bulls out of a mother daughter duo could be described the same besides color pattern. The cow summaries should speak for themselves on all four of the bulls from our 551 cow family.

A thick made, Money Maker by Top grade. We thought of Top Grade as one of the most elite cow makers. He sure could put the look in them, and they did a good job and lasted a long time. This bull we believe has traits that are locked in bred in from both sides. Expect him to make long bodied deeper cattle. He shouldn't be lacking in anything; we have absolutely loved his dam who is still a great cow at 12 years of age. Keep the daughters out of this guy.

We really appreciate this bull. He has a prettier style to him, he's long bodied and extra docile. His very fertile dam 831 comes from the 831 cow family which has been spreading quickly in head count in herd because of the success these cows have had. His dam got a serious lifelong injury at the age of two. We made an exception and kept her around and believe she throws the traits you need to stay in business. We expect the same from Built In. Scrotal: 37 cm BW: 75 BW Ratio: n/a WW: 616 WW Ratio: n/a YW: 1,238

Should be a really good bull. Great phenotype and genotype and dam who has done a great job for us and is still on the farm and showing the younger moms how it's done. She is one of the best producers we have. This bull is smoother made and is out of one of our favorite bulls all time. He should be a big spread bull that can create some curve bender daughters that stay in herd for years to come.

Out of a nicer cow bull is a friend as well. Cow is a little smaller framed that can raise big calves, her and her daughters have what it takes to keep a calf alive that's for sure. This bull likely will give you lighter calves and birth, and sons and daughters that get up and go.

This bull had the highest 205-day weight out of a heifer. He posts great individual ratios in herd from light birth weight, at 10% lighter than average, to 124 wean and 113 yearling. He is a smooth made, wider topped guy with round muscles. He comes out of a successful cow line in herd with great long-term stats going back many generations as well as great calving intervals and fertility on the females that came before him. His sire is lot 2's maternal brother a very nice power bull whose very eye pleasing and muscular. This genetic package should work for various types of operations and make things more profitable short term and long term.

# BAS Open Heifers

When you're on the pursuit of making females to perfection, over decades of time, it should reflect that in your females. What's become clear to us while on this journey, is that we appreciate the quality and type we strive to create. We believe in these young ladies and have never had as good a set. We truly believe what's inside of them will be predictable. I'm confident many of these will pass the 10-year mark and beyond and become some of our most favorite cows, as the cows that came before them have been.

This is a rare opportunity to pick from the top of the Bielenberg replacement heifer pen. These are the 25 heifers that they intend on keeping as replacements and are the very best of the 2024 calf crop. They have never before offered any of their replacement females for sale to the public. These females will sell in groups of five head with the winning bidder getting the pick of the group. The Bielenbergs will keep the other four females not chosen by the winning bidder for their replacement females. In total there will be five groups of five females in the offering with five head selling and twenty head stay on the farm as their replacement females. This is a rare opportunity to pick from the top of the Bielenberg Angus and Simmental herd.

**BAS MS MONEY MAKER M403** Sells as Lot 48.
