2025

Serious Genetic Value.

2025 Allied Semen and Genetics

What a year it has been for the cattle industry. Great, profit driven genetics are moving to the front of the pack with the largest price differential for superior seedstock ever. We've all known this time was coming, it is just great that it is happening in a time of relative prosperity and high prices instead of during depressed prices for feeder cattle and beef. This opportunity gives all of us a chance to choose from the best and make years of genetic progress for profit, during a time where the value feedback is just months away.

The Allied program and semen business has always been based on the premise that there are true value differences created by selection for superior genetics and that access to those options are key to the success not only of individuals, but the beef chain as a whole. Everyone needs genetics that reduce the costs associated with production. Everyone also needs genetics that deliver distinct value differentiation to the fed production and food chain portions of our systems. It is the system that must be promoted from beginning to end in order to deliver the total net income that it takes to keep our chain of beef production functioning and profitable for so many who count on it.

With those core values in mind, the Allied offering and philosophy is unique. Genuine progress and authentic information is at the core and a mission to make the best genetics in the industry available to everyone is the finish to the proposition. The goal must be the profitability of the industry and not a small group of individuals who pit producers against one another for personal gain. You won't find genetic options in this book that are limited in quantity in order to create scarcity or generate silly levels of semen pricing based on old models of "king making". You too will find the lowest percentage of misrepresented photos and data of any genetic provider within our catalog and programs. There is no place in this serious, food production business for that nonsense and those who use deception for their own purposes. That's because the real victims are profit needing producers and an industry that depends on genetic providers for honest solutions and real genetic progress.

Real solutions, for a real, 100 billion dollar beef industry is what we work toward every day. I hope you will agree the pages of our 2025 directory are filled with these genetic solutions. All are genetics produced and owned by independent cattle producers in absolute support of independent cattle producers.

Sincerely,
Marty Ropp, Founder
Allied Genetic Resources

ORIGen

www.ORIGenBEEF.org

ORIGen is a proud partner of Allied Genetic Resources. ORIGen and Allied Genetic Resources are two genetic companies, owned by breeders, that have united to help both groups of breeders market their Master Breeder Genetics. Through this partnership, you as customers can purchase semen from both organizations through one location by simply contacting an Allied representative or ORIGen. ORIGen is also a custom collection facility that collects and distributes Allied sires.

Improved Buying Confidence with Greater Genomic **ASSURANCE**

Access to more and better information has always been key to making wise decisions. The evolution and improvement of genetic evaluation tools too has given us an ever-clearer picture of the true genetic makeup of cattle and thus a better view of the value proposition. RightMate, powered by Top Genomics LLC is taking the evaluation of genetics and genomics one giant step further. By combining specific genomic information with the long-proven value of EPDs, this new advancement in technology improves our depth and precision when evaluating the actual ability to transmit value and profit.

The 3 Accreditation Logos below are designed to simplify bull selection and improve buyer confidence by more accurately describing the genetics offered and by reducing risk. What this means to you as a customer is a much greater assurance that you are getting both what you want and need from the genetics you purchase. What it means to your seedstock provider is access to RightMate technology that simply sets them apart from the rest of the industry.

ACCREDITED GENOMIC PLUS – For the majority of producers who simply need consistent and balanced genetic improvement, without genomic setbacks, G+ Accredited bulls should be on your list for premium purchase. These sires will absolutely move you forward

for both cost reduction and income producing traits and substantially reduce risk when compared to all other evaluation programs. It's simple, the right genes are in these bulls to help secure a profitable future and the they have great EPDs to match!

ACCREDITED TERMINAL MATE – Just like an ATM machine makes it simpler to access your cash, the ATM Logo highlights bulls accredited to generate extra cash income as soon as your next calf crop! These bulls are meant specifically to use only on mature cows and for the purpose of adding performance, pay weight and end product value to market.

ACCREDITED CALVING EASE

– Simply find bulls with the ACE logo for third party Accredited, secure Calving Ease bulls. Though we have had tools in the past to assist in choosing heifer bulls, we've never had one nearly this effective. The reduced risk that comes with this

genomic certification will simply make your decisions easier and your heifer calving season more successful. Purchase special purpose ACE bulls with confidence. They will deliver consistent and predictable calving ease.

MARTY ROPP 406-581-7835

RightChoice
powered by TOP GENOMICS

RightMate

powered by  TOP GENOMICS

You've narrowed down the list of the sires that will drive your program's direction for the future. The success of your operation is in the balance. Now, you can go to the next level with a **RightMate** evaluation powered by **Top Genomics LLC** to prescribe the bulls that genomically compliment each female. Sharpen the list of candidate sires, maximize improvement potential, improve calf crop uniformity and avoid the wasted matings that take dollars from the operation and can lead to early culling of females based simply on a missed opportunity for her to do better.

Whether you are making matings for each cow in the herd or making the expensive decision for a flush of the best donor in the herd, RightChoice is a must for your decision-making tool box. The best sire choice for each cow has always been our focus as breeders but in fact, the bulls you don't choose from your options are even more important.

GIVE US A CALL FOR MORE INFORMATION AND TO MAKE THE POWER OF RIGHTCHOICE WORK FOR YOU.

 ASA# 2854180 DOB: 2/17/2014 Tattoo: 56B

Owned by:

Koch Cattle || Gateway Simmental || Diamond Peak Cattle || Huntley Bros. || Hook Farms

- The legend himself, Hook's Beacon 56B, may be the most readily available, highly proven sire to use for predictable genetic progress!
- His daughters are the most productive cows in herds all across the country, with tre-mendous hoof quality and fertility bred in.

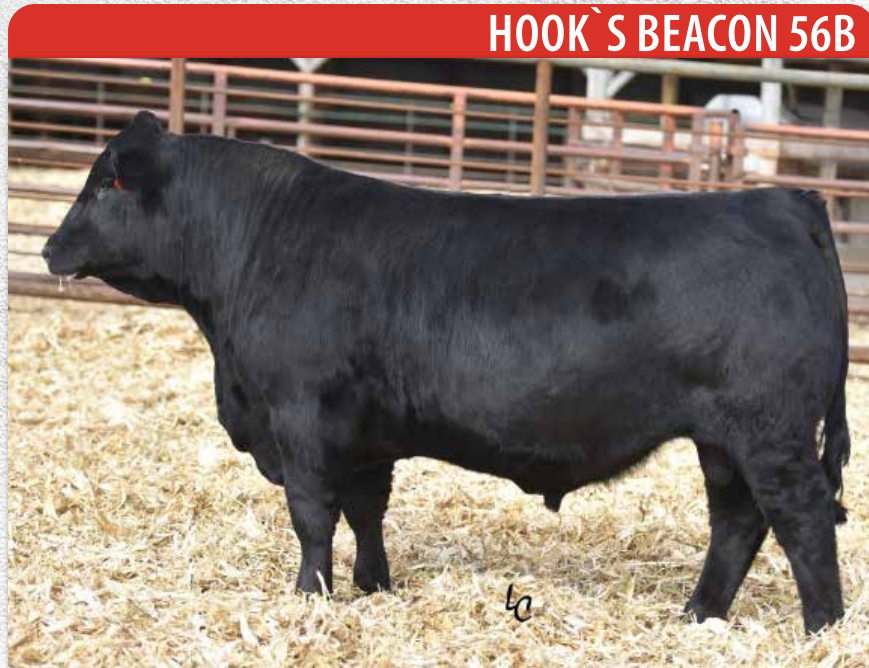

Beacon daughter

KBHR Honor, son of Beacon

- Very few bulls in the history of the beef industry have proven out as well as Beacon as he still ranks among the best for maternal efficiency and carcass quality.
- Highly recommend using Beacon if you do not have his influence in your herd!! He has the ability to transform a set of cows into profitable beef genetics in one generation.

APEX Cattle || Wilkinson Farms

- A legendary sire that is represented in top sellers in sale after sale. The common denominator is that they are either out of his daughters, or his prepotent, popular sons Bold Ruler, Global or Genesis!
- Proclamation (now deceased) took the Simmental world by storm by consistently siring impressive performance, extra volume, good feet, and structure with the added value he has brought to the marketplace with his good-natured progeny.
- Acclaimed as Sugar's "Greatest and Most Proven" Son! Proclamation daughters are on her same path of maternal greatness!
- His sons have topped numerous auctions and are featured sire groups in sale after sale.
- His highly maternal daughters are beautiful uddered, broody, gentle, easy fleshing, fertile and extra valuable in building better cow herds.
- For better dispositions, extra body mass, super sound structure, great feet and program impacting multi-trait EPDs with added performance, he is the sire of choice!
- High Quality Semen, Excellent Conception Rates!
- Build Great Cow Herds with His Daughters!

LBRS Genesis, Proclamation son

ASA# 3796572 DOB: 2/8/2020 Tattoo: H0301

Owned by:

All Beef LLC || Altenburg Super Baldy Ranch || Lyman Livestock

- American Proud is now deceased, but his progeny proof will make him more popular as time goes on. He just does all the things breeders want from an outcross purebred.
- Calves have tremendous growth, a little extra size and are very muscular. Very purebred for type with more substance and bone as well.
- His EPDs continue to rise for value as well with increasing growth values and maternal success.
- Progeny averaged 36 for PAP at 7,000 feet of elevation for Lyman Livestock in Utah.
- Expect his quiet natured daughters to have wonderful udders and exceptional hoof quality.

Daughter at Bridle Bit Simmentals

Son from Lassle Ranch Simmentals

Homozygous Black, Homozygous Polled || PB SM
ASA# 3789447 DOB: 3/20/2020 Tattoo: H060

Owned by:
Keller Broken Heart Ranch || Hook Farms || Eichacker Simmentals || Gibbs
Farms || All Beef

- Few if any purebred sires, that are documented to work well on heifers, command so much stoutness, muscle and bone in their progeny.
- Tremendous thickness of top, massive quartered sire that charts 13 traits in the top 25% of the breed or higher.

Honor son

Honor son

- Bull calves show extra masculinity and testicle size with fertility is a plus.
- Out of the legendary WS Sugar C4 donor, Honor was the \$100,000 top seller at the 2022 Keller Broken Heart sale.
- Honor also is one of the highest accuracy carcass trait bulls in the breed with well proven high rankings for Marbling, Rib Eye and Carcass Weight.

 Beach Cattle Co || Iron Creek Cattle

- A big spread bull who comes with negative birth and over a 150 pounds of YW who's tandem of marbling and REA is a rare find.
- He is one of the many Matron of Honor sons who have rose to the top of the Iron Creek Cattle Company program.
- The first progeny of Anthem has dominated the New Day sales

Dam of Anthem

Hook's Eagle 6E, Sire of Anthem

- with their appealing genetic predictors and pleasing type.
- A great choice for customers in the fescue belt a real hair shedding improver.

- He is in the top 5% of the breed in seven traits.
- 42-cm scrotal.
- Frame score 6.3.
- Falcon continues to impress us with his low birth weight and growth to yearling. Falcon can be used on virgin heifers, and he

High selling Falcon son at Dakota Xpress

DTR Unrivaled, Falcon son

is working well with many positive reports. We are calving Falcon daughters, and they are amazing cows with picture-perfect udders.

- Falcon is a structurally sound, long-bodied bull with the added performance we were looking for in our bull pen. Falcon carries an ideal foot structure with a large hoof and ideal toe shape.

ST Genetics || All Beef

- Maternal genetics will always be the king of ranch profit. This guy is bred to make unrivaled, long-lived daughters and push beef industry profits to a new level.
- Structure, great look with maximum allowable depth and spring of rib goes perfectly with his foot and hoof shape to create a unique and ultimately functional Purebred package.
- A little different pedigree with over \$200 of All Purpose Profit make him a must sample choice for 2025.
- It is easy to see the 94F influence in his type, structure and look.

KBHR SCREENSHOT K167

Homozygous Black, Homozygous Polled || PB SM
 ASA# 4104285 DOB: 3/24/2022 Tattoo: K167

Owned by:
 Gibbs Farms || JC Simmental || All Beef

- Growth, Marbling, STAY and Profit set Screenshot apart from other sires in his category.
- Out of one of the great young donors in the breed, he offers 8 trait EPDs in the top 5% of the breed and one of the most impressive Marbling numbers available among White Faced options.
- Tremendously attractive, he was the lead off, lot 1 bull at the 2023 Keller Broken Heart Sale.
- Powerful, loose structured and ultimately complete, this guy could change the way we use white-faced bulls.

Red, Homozygous Polled || PB SM

ASA# 3618723

DOB: 3/24/2019

Tattoo: G104

Owned by:

Jared Dalling || Kelller Broken Heart Ranch || All Beef

- It is time to give this powerhouse Red bull another look if you want the performance, structure, body volume and maternal prowess he is proving to have.
- All American just might be the physically most ideal red bull you can make, especially as a true performance bull.
- Expect his STAY to rise as well because his daughters are fabulous with excellent fertility and zero reports of the challenges experienced by some All Aboard daughters. Well over 100 daughters now in production, most already with their second calves.
- Tremendous and wholly complementary choice for Red Angus females, he is a big favorite too of cattle feeders.

Son from Keller Broken Heart 2022

High selling son of All American from KBHR

Red, Homozygous Polled || PB SM
 ASA# 3749672 DOB: 9/17/2019 Tattoo: 133G

Owned by:
 Rymo Cattle || Hofmann Simmental || All Beef

- Balanced in all things, Cardinal sires exceptional phenotype and some of the nicest and most docile red females you will find anywhere.
- Across the board improvement. Currently he only has 2 traits that rank below breed average out of the 20 listed.

Cardinal son

Cardinal daughter

- Big time outcross, but awesome reputation maternal pedigree on the dam side. ER Big Sky x Hook's Red Quorum x SRS Fortune 500.
- Solid calving ease like his sire, but with substantially more growth, size and length.
- Calves are darker red in color and the docility is excellent!

- Next Up is emerging as one of the most predictable SimAngus sires of profit available.
- Calves come easily, have tremendous thickness and depth of side. Growth too has exceeded expectations.
- Next Up has grown into the massive herd sire that he had potential to be while breeding cows in an all fescue environment.
- His total outcross dam already has 7 calves with an average weaning ratio of 106 even though her birth weight ratio is light at 97.
- Tremendous values for STAY, CE and Marbling push him well into the exclusive, profit focused +199 club for \$API and his \$TI over +108.

Fauth Step Up 4111, Next Up son

Next Up daughter

Homozygous Black, Homozygous Polled || 1/2 SM 1/2 AN

- Mega Millions grades out like few other for genetic advancement and massive phenotype.
- Out of the same dam as the popular BAS Money Maker, he is significantly larger framed than you might expect with his level of CE and BW.
- Mega Millions has developed into a massive bodied, sound structured mature bull with outstanding docility.
- An incredible 8 traits in the top 1% of SimAngus and 3 more in the top 5%.
- Expect extremely high milking, productive daughters as one of the highest MWW bulls in the database.

- His half-brother Freelance was the longer, more up-headed and more graceful brother, but Free Power was the brute of the two that topped the 2023 Fred Smith Company Ranch sale.
- Massive for body and thick from end to end, this big testicled growth bull is sound and powerful in all of the right ways.
- High for STAY, and easy fleshing, sound structured phenotype should make his a natural for producing great daughters.
- His outcross dam definitely brings some new genetics to the SimAngus population as well.

- What a great pick-up Foundation was at the Gibbs 2024 fall sale!
- Calving ease and everything else in a bigger framed package with amazing structure and eye appeal.
- His outcross pedigree makes him an easy choice for more traditional Sim pedigrees.
- Great Docility, CE, MCE, STAY and Marbling all combine for an \$API ranking in the top 1% and still breaks +100 for \$TI.

Owned by:
Gibbs Farms || Baxley Family Farms || Triangle J Ranch

- Stone Cold is simply one of the highest customer satisfaction bulls we have ever offered semen on.
- As one of the only white-faced, secure calving ease bulls, he gets lots of use on heifers as well.
- He offers such balance and great, soft type. Progeny are very easy to sell and gentle natured consistently.
- Daughters too just add to his reputation with plenty of maternal calving ease, milk, nice udders and excellent mothering skills.

 ASA# 4340086 DOB: 1/19/2024 Tattoo: CLRS 282M

Owned by:
 Clear Springs Cattle || Philip Feucht || Marty Koehl

- Mesquite is an excellent heifer bull option from the popular Comstock sons in this year's Bred for Balance sale!
- He combines excellent calving ease with great growth, maternal and carcass into one package. On hoof he is extremely soft in his design with a great hoof and impeccable temperament.
- His added length, rib shape and volume bode well for making soggy made SimAngus females, and the consistency in his pedigree runs deep! Mesquite would be a great option for large commercial heifer projects to add just the right amount of Simmental.

Sire of Mesquite

Owned by:
 Bridle Bit Simmentals || Sunflower Genetics

- The high selling pick of many at the 2025 Gateway Simmental's Lucky Cross bull sale because of his outstanding combination of performance, genetic value, elite carcass EPDs and phenotype.
- GW High Ground was the #1 ranking bull out of a large, competitive contemporary group at both weaning and yearling, indexing 121 and 117 respectively.
- Hard to find combo of marbling and rib-eye, ranking in the top 1% and top 10% accordingly.
- Impressive width and dimensions front to rear, with chest width, true rib shape and masculinity.
- The young dam of High Ground is a cow to watch in the future. She is a prototypic GW cow. Sound, moderate, deep bodied with perfect udder shape.

Sire of High Ground
