Phone: 308-457-2505
Darby: 308-627-5085
Dillan: 308-293-9241
www.trianglejranch.com

I would like to welcome everyone to our 36th annual Triangle J Ranch bull sale. This sale offering has everything from high calving ease heifer bulls to powerful performance bulls with top EPD numbers to solidify the data. We are excited to introduce many new herd sires with their first progeny selling. This is an opportunity to buy many paternal brothers in volume or to take the next step and buy full siblings from our embryo program.

It is sure easy to get excited about the cattle business. Less cattle in the market and higher prices have given all of us an opportunity to grow and develop our genetics. Doing it the right way, at the right time and buying the best genetics possible, is the way to grow our herds back. We feel the genetics in this bull offering will help you do just that.

We continue to strive for the holistic approach to the cattle business. Females must be moderate, functional cattle that are easy fleshing and have extraordinary udder quality. We continue to use herd sires that have exceptional DNA/EDP profiles. We do this without sacrificing phenotype and performance in our selections. This will be the largest group of embryo bulls ever offered at Triangle J, giving you the benefit of not only the top herd sires in the nation, but also our herd leading donor cows.

The Darby Line Family

A huge thank you to my family and our employees who spend countless hours gathering data and taking care of our livestock to provide you the most accurate information possible. Feel free to stop by the ranch to study the offering or give us a call anytime to go through the sale catalog. I love talking to customers, and helping you find the best fit for your program. A big thank you to all of our customers, and I can't wait to see all of you on January 25th!

Sincerely,
Darby Line
308-627-5085

Welcome to the 2026 Triangle J Ranch Bull Sale! We are eagerly anticipating the last Sunday in January for your appraisal of a stout and high-volume offering of herdsires Triangle J is bringing buyers in 2026. The 300 sale represents Triangle J's largest assortment of Sim bulls in program history.

Providing the best genetics coupled with the best service has allowed the Triangle J program to culminate in the largest offering of Simmental & SimAngus bulls in the country. The program continues to make great strides in genetic progression using all the genomic and precision mating tools available. Their commitment to their progressive and robust embryo transfer program has allowed the program to accelerate at an even more rapid pace. Study the book closely, and buyers will find a large assortment of bulls by Triangle J's most prolific cows. From a service standpoint, if a buyer uses a Triangle J bull, you are here to stay. The program works tremendously hard so that customers are getting the genetic worth of their feeder cattle on marketing day, and provides outlets for TJ-influenced commercial females. The cow herd was built upon cows that thrive for maternal capabilities and provide the terminal genetics to generate profits downstream in the beef business. Incredible phenotype and progressive genetic figures are what buyers have come to expect from the great program year after year.

We hope you can join us the last Sunday in January for one of the best marketing events of the year. The large massive sire groups and impressive embryo calves will no doubt generate excitement near and far. It is always a joy to see the crowd filled with long-time Triangle J bull buyers, and if your new, expect a warm welcome and great hospitality. If we can be any assistance to you, please do not hesitate to reach out to us.

Sincerely,
Marty Ropp, Corey Wilkins and Jared Murnin

TRIANGLE J Ranch

36th Annual Bull Sale

Sunday, January 25, 2026

1:00 PM (CT) • At the Ranch, Miller, NE
Selling 300 Simmental, SimAngus™ & Angus Bulls

SALE LOCATION

At the ranch, 6 miles North of Miller Nebraska on Hwy 183, then 1 mile West and 1/2 mile South.

REGISTRATION AND TRANSFER

Registration certificates will be transferred to buyers upon request at the seller's expense. When making settlement, buyers must give complete written name and address information for making transfers.

SEMEN INTEREST

Retaining 1/2 semen interest on bulls selling for less than \$40,000. Retaining 1/3 semen interest for bulls that sell for more than \$40,000.

HOSPITALITY

Please join us for a complimentary lunch on sale day.

ABSENTEE BIDS

Anyone wishing to bid who cannot attend the sale may place phone or mail bids by contacting any of the Line family, sale management, or sale staff.

TERMS AND CONDITIONS

Terms of the sale are cash. Every animal will be sold to the highest bidder. Announced changes on sale day take precedence over printed material in this sale book.

All cattle are the buyer's property as soon as sold and will be cared for a reasonable length of time at the buyer's risk. Any person attending the sale does so at their own risk. Neither the sale management, owners, nor any person connected with this sale, assumes any liability, legal or otherwise. All animals listed in the sale book as homozygous black or homozygous polled are done so to the best of our knowledge. We are not liable for any inaccuracies.

SALE ACCOMMODATIONS

For assistance with your travel or motel arrangements, please contact Darby or Annette Line, 308-457-2505.

Kearney, NE - Holiday Inn - Interstate 80
308-237-5971 or 1-800-228-2828

Lexington, NE - Comfort Inn - Interstate 80

DELIVERY OPTIONS.

- Free Delivery
- \$ 200 / head
- \$ 300 / head
- \$ 400 / head

All bulls will be kept free of charge until March 20, 2026. At this time, all bulls will be delivered to in state customers and bordering state customers at no charge. We will make every effort to assist our out of state customers with trucking arrangements.

VOLUME PURCHASES.

Purchases of 5 or more head qualify for free delivery.

BULL WARRANTY.

Every bull carries a 100% guarantee for one breeding season (not to exceed 90 days) provided the bull is managed properly and is in acceptable nutritional health. In the event a customer has an issue during the bull's first breeding season please contact us immediately. For bulls that sell for over \$10,000 dollars insurance is highly recommended and can be split between the buyer and seller. Please contact us with any questions.

Improved Buying Confidence with Greater Genomic **ASSURANCE**

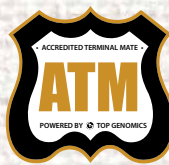

Access to more and better information has always been key to making wise decisions. The evolution and improvement of genetic evaluation tools too has given us an ever-clearer picture of the true genetic makeup of cattle and thus a better view of the value proposition. RightMate, powered by Top Genomics LLC is taking the evaluation of genetics and genomics one giant step further. By combining specific genomic information with the long-proven value of EPDs, this new advancement in technology improves our depth and precision when evaluating the actual ability to transmit value and profit.

The 3 Accreditation Logos below are designed to simplify bull selection and improve buyer confidence by more accurately describing the genetics offered and by reducing risk. What this means to you as a customer is a much greater assurance that you are getting both what you want and need from the genetics you purchase. What it means to your seedstock provider is access to RightMate technology that simply sets them apart from the rest of the industry.

ACCREDITED GENOMIC PLUS – For the majority of producers who simply need consistent and balanced genetic improvement, without genomic setbacks, G+ Accredited bulls should be on your list for premium purchase. These sires will absolutely move you forward and substantially reduce risk when compared to all other evaluation programs. It's simple, the right genes are in these bulls to help secure a profitable future and the they have great EPDs to match!

for both cost reduction and income producing traits and

ACCREDITED TERMINAL MATE – Just like an ATM machine makes it simpler to access your cash, the ATM Logo highlights bulls accredited to generate extra cash income as soon as your next calf crop! These bulls are meant specifically to use only on mature cows and for the purpose of adding performance, pay weight and end product value to market.

ACCREDITED CALVING EASE – Simply find bulls with the ACE logo for third party Accredited, secure Calving Ease bulls. Though we have had tools in the past to assist in choosing heifer bulls, we've never had one nearly this effective. The reduced risk that comes with this genomic certification will simply make your decisions easier and your heifer calving season more successful. Purchase special purpose ACE bulls with confidence. They will deliver consistent and predictable calving ease.

genomic certification will simply make your decisions easier and your heifer calving season more successful. Purchase special purpose ACE bulls with confidence. They will deliver consistent and predictable calving ease.

MARTY ROPP 406-581-7835

RightMate
powered by TOP GENOMICS

CUTTING EDGE GENOMIC TECHNOLOGY

RightChoice and RightMate Powered by Top Genomics - Better, Stronger, Faster..

Genetic providers have used strong genetic prediction tools like EPDs for making, then offering customers consistent genetic progress for a long time. Improved EPDs, bolstered by the inclusion of genomic evaluation have made the potential for more profitable cattle and better beef even greater in the past few years. Now there are RightMate and RightChoice. These improved technologies combine advanced knowledge of high impact genomics with the database proven power of EPDs. The results, are proving to be greatly accelerated genetic improvement capability with the added benefit of profit enhancing uniformity. Maybe the best news for customers is that despite the sophistication of the technology, these tools are simple to use. With both great power and needed simplicity RightMate and RightChoice are poised to change the way we both improve and market genetics.

For breeders and those wishing to get the most from every mating, RightMate is the most impactful and powerful option. Take the guesswork out of progress by using genomically prescribed matings and just as importantly avoid those with a low probability of success. The technology is ready and the validation is strong. Simply define the direction of your breeding objectives, even female by female and RightMate will help you get there faster than any tool used in the past. We've all known for a long time that certain cows just need to be mated to certain bulls. RightMate helps take the guesswork and the trial and error out. Finding the right mating, the first time makes all of the difference.

Better matings result in more improvement and more potential profit for commercial customers too. That should be the goal of every seedstock provider. Commercial customers however, need to be able to source genetics that fit their production systems and goals quickly and easily. That is where RightChoice comes in. With 20 or more EPD categories, overwhelming amounts of raw data and multiple index offerings to evaluate in a short time, the potential to use selection information to its best result has been possible, but difficult for commercial producers. RightChoice is designed as a simple to use sorting tool for selection of new sires or females all based on commercial genetic needs and production goals. The sophisticated technology is on the inside of RightChoice with easy to use Logos for sorting as the published and effective result. All you need to do is evaluate and pick the bulls you like from the group with the RightMate genetic logo that fits your needs.

RightChoice technology will not only push value and profit traits forward. Because of the way it sorts sires, it can reduce variation and inconsistency in your calf crop as well. For example, with ACE logo bulls, not only can you expect reduced dystocia, but the birth weights responsible for most of the challenges will be less variable. That means more calves born close to the average for weight and far fewer extreme calves that either create issues for your heifers or are unreasonably small. With smart RightMate selections, uniformity of calf crop continues to marketing and even replacement females, creating more profit all the way through. We can't always control the genes present in the cow herd, but we can make sure your seedstock purchase will help you get the most progress moving forward.

RightMate and RightChoice... Better, Stronger, Faster.

CUSTOMERS COME FIRST.

FEEDER CATTLE MARKETING: *We have worked towards building relationships with multiple venues that will allow our customers to get the genetic worth from their feeder cattle. From video auctions to direct bids from feedlots or even if you have an interest in retaining ownerships of your calves we have got you covered.*

- Video Auctions
- Direct bid from Feedyards
- Retain ownership (any %)
- Carcass Data Collection

AI PROJECTS: *If you are in search of genetics through semen who will have profit potential we have a diverse line up of sires that will fit several large AI projects. If you are looking for semen or the man power to get the job done give us a call today.*

Customer service is our #1 GOAL. Contact us today.
Visitors always welcome and herd tours are available.

The purebred bull you have been searching for. Here is a big long-bodied son of TJ Heisman who comes from a wonderful donor dam. He offers a different twist to many mainstream pedigrees and comes in a 6 frame package. 699N is super athletic on the move and comes in a rugged herd bull look. He is as fault-free and complete of a purebred as we have had in some time. Here is a bull we will be certain to use heavy in our breeding program.

TJ 698N Sells as Lot 4.

TJ 696N Sells as Lot 2.

SIGNATURE X 22J FLUSH BROTHERS

Huge spread bulls from birth to yearling is what you will find in a trio of bulls sired by Signature and is backed by the storied 22J on the bottom side. We used Signature as an option to increase frame and growth in our purebred herd, and he answered the call. The bulls offer added frame, fabulous figures, and check all the boxes for fundamentals. These powerful brothers will add the horsepower you expect from purebred bulls!

BOLD RULER X 39K FLUSH BROTHERS

Big indexing, high calving ease genetics with lots of type and look. The sisters of these bulls have topped our female sale each of the last two years. We feel like many of these bulls will be heifer safe and will deliver superb maternal genetics. The pedigree features two of our favorite cow-making bulls in Teardrop and Bold Ruler.

TJ 594N Sells as Lot 15.

PONTIAC X 64L FLUSH BROTHERS

Here is a flush of Pontiac bulls out of the young donor dam 64L, who has been standouts all summer long. Big ribbed, stout hipped, and extra athletic on the go are words to describe these big spread brothers. The 64L is on the front side of her production, but we have an immense amount of confidence in her cow family and type!

QUADRANT X H001 FLUSH BROTHERS

Here is a fresh new pedigree we are bringing to long-time customers of Triangle J. The Quadrant sons are true power bulls. They study with scale crushing performance and will be certain to enhance the weaning weight and yearling performance of their progeny. They come from an American Patriot daughter and will offer endless mating flexibility to your herd.

In terms of type and kind, it is hard to find fault with the Signature by 73L sons. Here is a large flush of brothers who will prove to add horsepower and pounds to their progeny. The brothers offer consistently and quality throughout and will be certain to be well received on sale day. Their sisters were some of the highest-selling females in the fall sale and went to breeders all over the country.

TJ 95A Maternal grandam of Lots 40-47.

TJ 86N Sister to Lots 40-47.

TJ 695N Sells as Lot 58.

BOLD RULER X 712G FLUSH BROTHERS

This trio of maternal brothers sired by Bold Ruler and out of the 712G donor are truly exciting! They are maternal brothers to Sandhill's Swag and come with head turning phenotype! Genetically, they are balanced in every sense of the word and will no doubt be some of your favorites on sale day.

TJ GOLD 274G

The Gold sons blend maternal, calving ease, and carcass traits to the highest degree. The bulls consistently have found their way to the top of our past sales, and the females in production will make you want to utilize even more Gold genetics. If you are looking for maternal genetics, make sure to circle the Gold sons as they are producing some of the very best females in the business.

TJ GOLD 274G Sire of Lots 59-76.

BALDRIDGE HEAT SEEKER H925 Sire of Lots 106-108.

We are always searching to push the envelope on producing the next generation of great SimAngus sires, and we feel the Heat Seeker sons absolutely raise the bar on so many levels. They provide potent genetic values and do so with pleasing type. The bulls are truly the cattlemen's kind, and we feel confident the 772N has a tremendous future ahead of him.

TJ 648N Sells as Lot 107.

HEAT SEEKER X 20L FLUSH BROTHERS

A pair of Heat Seeker sons who absolutely do everything right, both physically and genetically. The bulls should prove to be heifer safe, keep mature cow weight in check, and raise the bar on terminal merit and carcass quality. These bulls have been standouts since birth and should be high on everyone's list come sale day.

TJ 647N Sells as Lot 108.

ASA QUICK REFERENCE TO EPDS, INDEXES AND \$VALUES

EXPECTED PROGENY DIFFERENCES (EPDS): EPDs are the most accurate and effective tool available for comparing genetic levels. In using EPDs, the difference between two sires' EPDs represents the unit difference expected in the performance of their progeny. For example, if sires A and B have EPDs of +10 and -5, a 15-unit difference would be expected in their progeny (moving from -5 to +10 yields 15 units). Key to using EPDs is knowing in what units they are expressed. For example, if the above case referred to weaning weight EPDs, sire A would be expected to sire 15 pounds more weaning weight than sire B. If calving ease was the trait, sire A would be expected to sire 15 percent more unassisted births in first-calf heifers; in other words, if sire B sired 30 assists in a group of 100 heifers, we would expect sire A to require 15 assists. A percentile-ranking chart is required to determine where a bull's EPDs rank him relative to other bulls in the breed. For more detailed information about EPDs and \$ indexes, visit www.simmental.org.

Listed below are the units in which ASA EPDs are expressed:

ALL-PURPOSE INDEX (API): Dollars per cow exposed under an all-purpose-sire scenario. (See \$ Indexes for more details.)

BACK FAT (BF): Inches of carcass backfat at 475 days.

BIRTH WEIGHT (BW): Pounds of birth weight.

CALVING EASE (CE): Percent of unassisted births when used on heifers.

CARCASS WEIGHT (CW): Pounds of carcass weight at 475 days.

STAYABILITY (STAY): Percent of daughters remaining in the cowherd at 6 years of age.

DOCILITY (DOC): Percent of offspring receiving a disposition score of 1 (docile).

MATERNAL CALVING EASE (MCE): Percent of unassisted births in first-calving daughters.

MILK (MLK): Pounds of weaning weight due to milk.

MARBLING (MARB): Carcass marbling score at 475 days.

MATERNAL WEANING WEIGHT (MWW): Pounds of weaning weight due to milk and growth.

RIBEYE AREA (REA): Square inches of carcass ribeye at 475 days.

TERMINAL INDEX (TI): Dollars per cow exposed under a terminal-sire scenario. (See TI for more details.)

WEANING WEIGHT (WW): Pounds of weaning weight.

YEARLING WEIGHT (YW): Pounds of yearling weight.

YIELD GRADE (YG): Carcass yield grade score at 475 days.

\$ INDEXES: Though EPDs allow for the comparison of genetic levels for many economically important traits, they only provide pieces of the economic puzzle. This is where \$ indexes come in. Through well-conceived, rigorous mathematical computation, \$ indexes blend EPDs and economics to estimate an animal's overall impact on integrated commercial production. The same technology that led to the dramatic progress in swine, poultry and dairy genetics over the last several decades was used to develop the following \$ indexes:

ALL-PURPOSE INDEX (API): Evaluates sires for use on the entire cow herd (bred to both Angus first-calf heifers and mature cows) with the portion of their daughters required to maintain herd size retained and the remaining heifers and steers put on feed and sold grade and yield.

TERMINAL INDEX (TI): Evaluates sires for use on mature Angus cows with all offspring put on feed and sold grade and yield.

USING API AND TI: First, determine which index to use; if you are keeping replacements use API, if not, use TI. Then, just as with EPDs, zero in on the unit difference between bulls. (As described above, index units are in dollars per cow exposed.) The difference can be used to determine how much a bull is worth compared to another. Put another way, how much you can pay for one bull compared to another. For example, when buying an all-purpose-type sire, you can quickly figure a bull scoring +100 for API is worth an extra \$6,000 over a +50 bull if both are exposed to 30 cows over 4 years ($\$50 \text{ diff.} \times 30 \text{ hd.} \times 4 \text{ yr.} = \$6,000$). A percentile-ranking chart is required to determine where a bull's index value ranks him relative to other bulls in the breed.

For more detailed information about EPDs and \$indexes, visit: www.simmental.org Important disclaimer: DO NOT compare index values of purebreds of different breeds, hybrids of different breed composition or purebreds with hybrids - our system was not developed to make valid comparison among these groups. Therefore, you must first determine the breed and breed composition appropriate for your herd and use index values to compare animals within that population.

TJ 624N Sells as Lot 110.

TJ 1302N Sells as Lot 109.

ICONIC X 2G FLUSH BROTHERS

It is great when a plan comes together. We were thrilled the day 2G gave us a large flush of Iconic eggs and knew they were going to be good ones. The bulls have surpassed our early high expectations and have quickly become crowd favorites for all visitors. These high-growth, powerfully constructed herd bulls are some of the very best we have to offer in 2026.

TJ 557N Sells as Lot 117.

TJ 28E Dam of Lots 117-123.

EZAR STEP UP 9178 Sire of Lots 117, 118.

STEP UP X 28E FLUSH BROTHERS

Step Out is becoming one of the great Angus bulls in the industry, and he really clicked well with the 28E donor dam. The bulls read with added growth and stretch and bring to the table incredible STAY for a first-generation half-blood. Here is a pedigree that has an immense amount of proof on both sides of the pedigree!

KINDRED X 28E FLUSH BROTHERS

A large group of sons sired by Kindred who offer impeccable big spread genetics. Cattle that come light explode thereafter and blend terminal and maternal genetics to a high degree are what we strive to produce. We feel these Kindred sons will do just that, and will not sacrifice the cowboy traits.

TJ 28E Dam of Lots 117-123.

B A R DYNAMIC Sire of Lots 127, 128.

DB ICONIC G95

The iconic cattle are moderate dense and wide. Genetically, here is a bull who will add pounds, and with his added fleshing ability, we feel like his daughters will be beautiful in production. Likewise, if you are in search of enhancing marbling, the iconic cattle will increase your chance of receiving premiums.

DB ICONIC G95 Sire of Lots 129-137.

HONOR GUARD X 33L FLUSH BROTHERS

The best Red Bulls Triangle J has ever offered is selling in 2026. Dillan has taken the lead on beefing up the red bulls, and if you are in search of superior reds, look no further. The Honor Guard sons lead off the red division; they offer an immense amount of type and genetic value. Genetically, you will find a blend of both heifer and growth bulls out of the the 33L donor. They all come with added length and pleasing type.

TJ MISS 796F Dam of Lots 149-152.

TJ 138N Sister to Lots 149-152.

TJ 634N Sells as Lot 149.

JACKSON X 796F FLUSH BROTHERS

Sometimes the cattle business requires a little luck, and that is what we were blessed with in the Jackson X 796F flush. We got a homozygous black heifer who was one of the lead heifers in the fall female sale. Likewise, we got a red baldie bull who is one of the very best bulls in the sale, no matter the color. Study 149 closely, he has all the pieces of being a great breeder bull!

PRIMAL X 152L

The freshman class of Primal sons will be crowd favorites. They are led off by an impressive group of full brothers who come from the 152L donor. The bulls are impressive for fleshing ability, dimension, and will provide elite maternal and carcass traits. These brute of herd bulls will no doubt increase value to multiple facets of your operation.

BAS MEGA MILLIONS K2801
The Mega Millions are one of our favorite new sire groups to bring to buyers in 2026. Here is an opportunity for new blood for old customers. Many of the bulls are heifer safe and read with genetic excellence from CE all the way to their profit indexes. We believe maternally these bulls will raise the bar in the replacement pen!

BAS MEGA MILLIONS K2801 Sire of Lots 180-200.

TJ NORTH 528L

*Fresh new baldy genetics for 2026!
The North sons checks all the boxes for
fundamentals, being big bodied, sound
footed, and studies with incredible
calving ease and maternal predictors. We
feel the bulls will add value across the
board and many are suitable for virgin
heifers.*

TJ NORTH 528L Sire of Lots 201-109.

TJ 867N Sells as Lot 201.

TJ SANDHILLS SWAG 816L

Exciting new baldie genetics we have to offer in 2026. Swag was a high seller in the 2024 bull sale, and we have been very pleased with the offspring we have to offer. The bulls, in terms of presence and physical appeal, are absolute show stoppers. They cover all the fundamentals and have incredible balance and look. We are excited to see what these SimAngus bulls will do for your program.

TJ SANDHILLS SWAG 816L Sire of Lots 210-222.

GW MEDICINE MAN 200K

Calving Ease, great maternal traits, and extra marbling can be found in volume in the GW Medicine Man sire group. The bulls quickly command your attention with their balance, body, and structural integrity. Look for many of his sons to be heifer safe, and Medicine Man will be a staple of our breeding program moving forward.

GW MEDICINE MAN 200K Sire of Lots 223-248.

TJ KLONDIKE 549K Sire of Lots 249-266.

TJ KLONDIKE 549K
One of the leading bulls for ABS, the Klondike cattle are receiving rave reviews from cattlemen across the country. The Klondike sons are everything cattlemen could want out of SimAngus cattle. The bulls are functional, soft-made, and well-structured. We feel this built-proof sire group will enhance profitability at the ranch on many levels!

TJ TROOPER 504J Sire of Lots 267-277.

TJ TROOPER 504J

Anyone who has come through and looked at herd bulls over the summer quickly picked out Trooper as one of their favorites. He is an absolute brute to look at and supplies undeniable stoutness to his progeny. The sire group will be a great source of power bulls who will sire a quality look to their progeny.

TJ 927N Sells as Lot 268.

KBHR BOLD RULER H152

Over 25 sons of Bold Ruler headline our 2026 bull sale. The bulls supply incredible genetic value and provide wonderful type. We used him on a purebred SimAngus, and Angus cows, and no matter the type of cow, the end result was high-quality bulls. The wet daughters of Bold Ruler are some of our favorite cows. If you want an extra shot of genetic potency, the Bold Ruler sons should be high on your list.

KBHR BOLD RULER H152 Sire of Lots 278-287.

TJ 737N Sells as Lot 278.

PROFIT THROUGH SCIENCE
American Simmental Association

EFFECT OF SIRE BREED ON SALE PRICE OF BEEF STEER CALVES Superior Livestock Auction, Summer 2020^c

SimAngus™-sired steer calves sold through Superior Livestock Auction in summer 2020 earned **more at sale time** than all other calves.^{ab}

It's no wonder the percentage of **SimAngus™** calves marketed through the industry's largest video auction has grown **eightfold** since 2010.

Want low-risk, high-potential calves with earning potential?

STAND STRONG SIMMENTAL

406-587-4531 • simmental.org

^a For lots of 50 head or more. ^b Kansas State University, December 2020, Superior Livestock Auction data analysis of 3,280 lots, 394,900 head of beef calves marketed during summer 2020. (P<.0001)
^c Lots that qualified for breed-related programs were excluded from the model due to potential confounding effects with sire breed analysis and, for many, few lots in the data.
^{d, e, f} Means without a common superscript differ (P<0.05) Lots of calves in breed-identified groups were sired by bulls from the respective breeds and out of dams with no Brahman influence.
