Welcome

We are excited to welcome you to our 3rd Annual Spring Sale. This year's offering represents the finest group of animals we've ever assembled. Each bull was carefully selected last July, with the goal of presenting the stoutest 18-month-old bulls available anywhere. They are ready to go to work for you, combining outstanding genetics with proven functionality. Our bulls have been developed at a steady pace, emphasizing durability and long-term performance. You can bid with confidence, knowing that every bull meets the high standards of Gibbs Farms and is backed by our exceptional guarantee.

In addition, our fall-calving bred females present a unique opportunity to advance any program. These one-of-a-kind females offer exceptional quality throughout the lineup. Most will sell as A.I. bred, with full pregnancy information and estimated EPDs for their calves available on sale day. Bid with confidence—these females are a source of great pride for us. With today's strong cull cow market, you can confidently update your herd by replacing older cows and their calves with these younger heifers due to calve this fall.

Please plan on being with us Saturday, March 7th, 2026, at 12:00 CST. As always, visitors are welcome to come by anytime to see the offering. The cattle will be on display in the sale lots on Friday and Saturday. If you have any questions, please call us anytime! We look forward to seeing you for fun and fellowship.

Thanks,
The Gibbs Farms Crew

- 65 years in the cattle business, Celebrating our second spring sale -

Since 1961

General Sale Information

SALE DAY CONTACTS

Doug Gibbs	404.717.2264

Sale broadcast live online with DV Auction. See page 5 for more information.

UPDATES

Please visit our website to view the sale cattle video catalog, sale order and all additional sale information... WWW.GIBBSFARMS.NET

DELIVERY OPTIONS

Please see page 2 for delivery options.

ACCOMMODATIONS

Numerous hotel options are within a short drive to the farm. We recommend staying in Oxford, AL, Bremen, GA, or Carrollton, GA.

SEMEN INTEREST

Gibbs Farms will retain a semen interest in the bulls as follows:

- For bulls selling for less than \$20,000, Gibbs Farms will retain 50% semen interest.
- For bulls selling for \$20,000-\$39,999, Gibbs Farms will retain 33% semen interest.
- For bulls selling for \$40,000 or more, Gibbs Farms will retain 25% semen interest.
- For bulls selling for \$70,000 or more, Gibbs Farms will retain 0% semen interest.

TERMS AND CONDITIONS

Please see page 12 for terms and conditions.

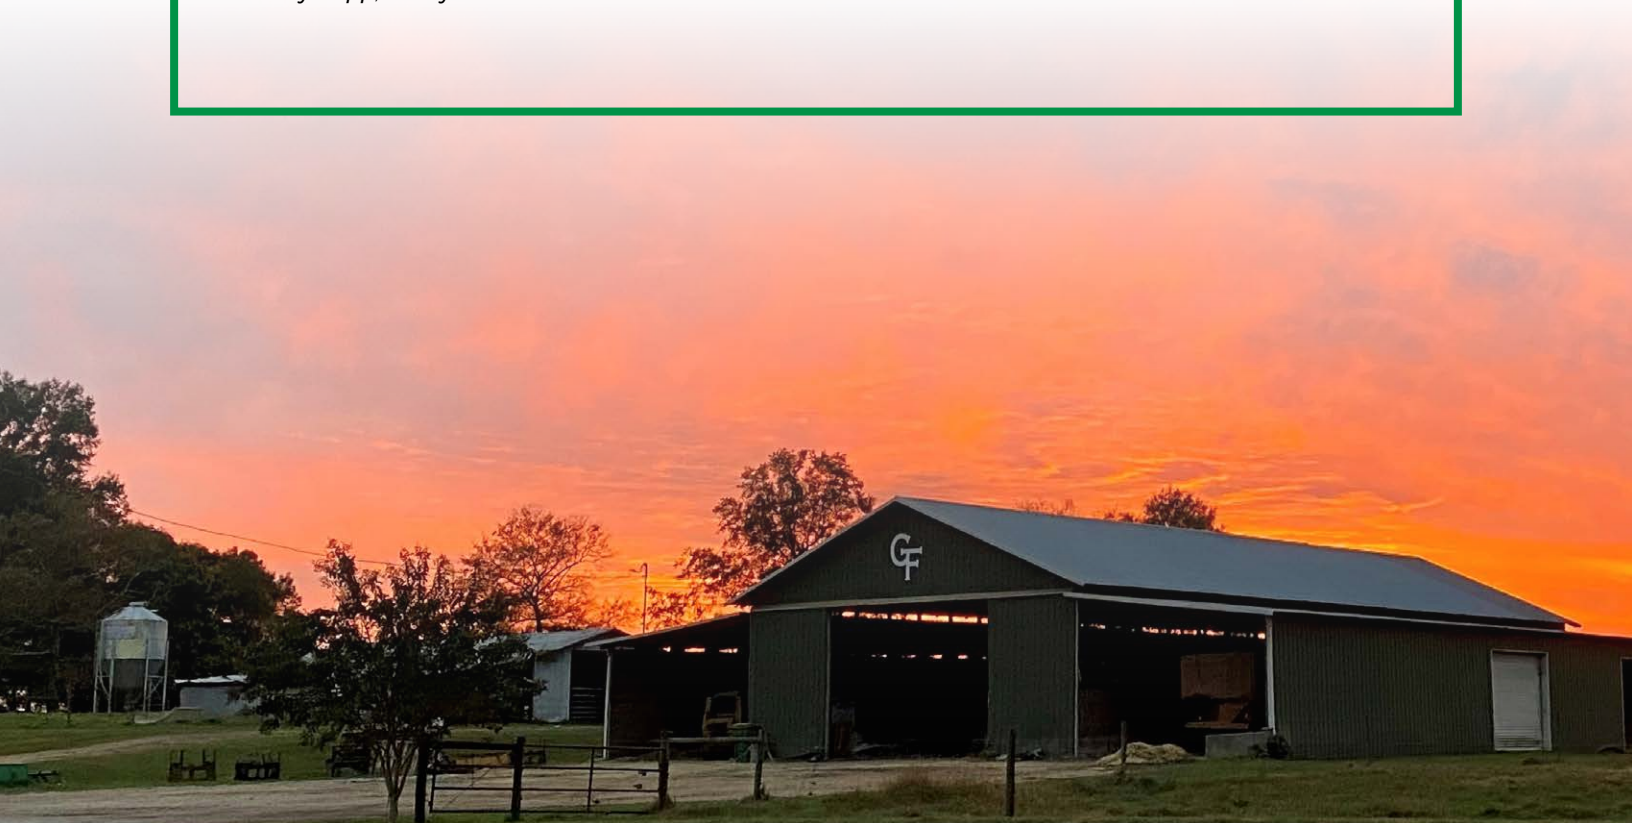

A Note From The *Sale Manager*

Welcome to the Gibbs Farms Spring Bull & Female Sale. Exciting times and great demand for all classes of cattle have been seen in the early portions of 2026. For cow-calf producers, the beef business has never been better!

The Spring sale at Gibbs Farms is a testament to their commitment to customer service and success. To meet the needs of spring-calving producers, these bulls were hand-selected to enhance customers' genetics and profitability. The bulls were not picked over, but rather were simply selected on calving dates on a herd of nearly 900 females. The herd sires are slow-developed and come in an age advantage package to cover more cows and hold up better in the first breeding season. The bred females represent one of customers' only opportunities to purchase early fall calving females from Gibbs Farms. The depth and quality of the female offering speak for themselves and will be worth the trip to Ranburne.

The Spring sale continues to grow in size and popularity as the cattle carry the same quality that the Gibb program is known for nationwide. The pursuit of genetic excellence and customer satisfaction is the cornerstone of the Gibbs program. We hope you can join us for the first Saturday in March for great cattle and hospitality. If we can be of any assistance, please do not hesitate to reach out.

Sincerely,
Marty Ropp, Corey Wilkins and Jared Murnin

Improved Buying Confidence with Greater Genomic **ASSURANCE**

Access to more and better information has always been key to making wise decisions. The evolution and improvement of genetic evaluation tools too has given us an ever-clearer picture of the true genetic makeup of cattle and thus a better view of the value proposition. RightMate, powered by Top Genomics LLC is taking the evaluation of genetics and genomics one giant step further. By combining specific genomic information with the long-proven value of EPDs, this new advancement in technology improves our depth and precision when evaluating the actual ability to transmit value and profit.

The 3 Accreditation Logos below are designed to simplify bull selection and improve buyer confidence by more accurately describing the genetics offered and by reducing risk. What this means to you as a customer is a much greater assurance that you are getting both what you want and need from the genetics you purchase. What it means to your seedstock provider is access to RightMate technology that simply sets them apart from the rest of the industry.

ACCREDITED GENOMIC PLUS – For the majority of producers who simply need consistent and balanced genetic improvement, without genomic setbacks, G+ Accredited bulls should be on your list for premium purchase. These sires will absolutely move you forward

for both cost reduction and income producing traits and substantially reduce risk when compared to all other evaluation programs. It's simple, the right genes are in these bulls to help secure a profitable future and the they have great EPDs to match!

ACCREDITED TERMINAL MATE – Just like an ATM machine makes it simpler to access your cash, the ATM Logo highlights bulls accredited to generate extra cash income as soon as your next calf crop! These bulls are meant specifically to use only on mature cows and for the purpose of adding performance, pay weight and end product value to market.

ACCREDITED CALVING EASE – Simply find bulls with the ACE logo for third party Accredited, secure Calving Ease bulls. Though we have had tools in the past to assist in choosing heifer bulls, we've never had one nearly this effective. The reduced risk that comes with this genomic certification will simply make your decisions easier and your heifer calving season more successful. Purchase special purpose ACE bulls with confidence. They will deliver consistent and predictable calving ease.

• There is no better way to start the catalog off than with this bull. He is a bull that is a complete stick out. He offers as much body and dimension as any bull we have ever offered. His 5 full brothers headlined our fall sale, where they totaled up to \$144,000 with an average of \$28,000. We believe this bull belongs in the discussion as being one of the best. He was selected to be in this sale as a true feature lot. We believe he is just that! This is a bull that can move any program in the right direction.

GIBBS 4255M HAGGARD Sells as Lot 2.

Bedrock Sons

The Bedrock sire group is possibly the most balanced sire group that we have ever offered. The quality runs deep through this group of bulls. All the females are in the "keeper" pen, and nearly all the bulls made the sale. We believe these sons will lay a solid foundation for any herd and move your program in the right direction. If you are looking for solid, sound cattle without any holes, then look no further. Use these bulls to add balance and enhance the maternal characteristics to your herd.

• Here is a true beef bull that anyone can appreciate. He is stout and massive in his build, all while being athletic and smooth-striding. His donor dam was purchased by Fred Smith Company in North Carolina this fall. She is a full sister to Next Up. This is her first natural calf, and he crushed the scales at weaning with a 873-pound weaning weight.

• Do not overlook this bull. He is one of the best genetic lots in the entire sale. He offers breed-leading EPDs, and his phenotype and type are impressive as well. If you are looking for a bull that can simply do it all, then here he is. He is extremely long-patterned and massively hipped.

Gibbs Farms Bull Development

Gibbs Farms Bulls are grazed on pastures containing KY-31 Fescue and volunteer summer grasses like common Bermuda, crabgrass, and clover very similar to the environment most of them will encounter when they go to work of the environment most southeastern cattlemen operate in. They remain in the large pasture environment from the time they are weaned right up until sale time, never spending anytime in a dry lot environment.

Yes, we supplement the bulls on a high roughage, properly balanced bull developer ration consisting of soyhull pellets, peanut by products pellets, cotton by products, ground hay, a special mineral package and enough extruded cottonseed meal to balance their protein needs. We never use high starch cereal grains in our breeding cattle developer rations.

Placing our breeding stock in settings which will replicate most commercial environments operate in, results in bulls who will absolutely meet your needs. We want customers to be able to recognize their bulls in coming months after the sale.

• This is a big-time calving ease standout that offers ample growth. He is the natural calf out of the upcoming 2392K Hanoi donor that is quickly leaving her mark on our program. When searching the country for a complete, well-balanced purebred bull, it will be hard to find one better than lot 46. He excels in eye appeal and calving ease. We believe his maternal characteristics will be appreciated the most when you keep his daughters.

GIBBS MILESTONE Full brother to Lot 46.

• This bull was purchased as a calf alongside his dam from Sam Russell due to a herd reduction. When we first saw him, we knew he was well worth it and could quite possibly be one of the best essential sons we will offer. Here is a bull that you can appreciate for his frame, docility, and big-time spread from birth to yearling weight. This bull would work excellently on Angus cows needing stretch and hoof improvement.

Sale Terms and Conditions

Herd Health... Every sale animal and the entire Gibbs Farms breeding herd is properly vaccinated and boosted annually for 7-Way Clostridium, IBR-BVD-BRSV-PI3, Hamophilus Somnus, Pasturella, Leptospirosis, and Vibriosis. All heifers are calfhooed vaccinated for Brucellosis and every calf born on the farm each year is tested for BVD-PI. All sale animals have been tested negative for Johne's Disease and the cow herd is being tested annually. All animals on the farm are treated at least twice annually with a parasitic pour-on and at least once annually with Safe-Guard drench. All bulls have successfully passed a complete breeding soundness exam.

Guarantee on the Sale Females... Every open heifer selling is guaranteed to be open at the time of the sale and guaranteed to be a satisfactory breeder provided they are managed for proper and acceptable nutritional and physical health. In the event a heifer proves to be a non-breeder, the customer must contact Gibbs Farms on or before May 15, 2026 to make a claim. A veterinarian's statement will be required and Gibbs Farms reserves the right to have the heifer returned if deemed necessary. The customer will be given a full credit (minus salvage value of the original heifer) to be used in a future Gibbs Farms Sale. Every bred female is guaranteed to be bred on sale day as stated in the sale catalog or as updated from the auctioneer at the time of the sale. In the event any bred female is found to not be bred represented when sold, the customer needs to contact Gibbs Farms immediately and no later than May 15, 2021. The customer will be given a satisfactory credit on a future Gibbs Farms Sale. Remember: All potential claims must be made to Doug Gibbs or Bradley Gibbs at Gibbs Farms on or before May 15, 2026.

Genetic Conditions... The knowledge and testing technology for all types of genetic conditions is almost changing daily. What we knew to be policy yesterday may be obsolete today. Our policy at Gibbs Farms is to fully follow and abide by any and all testing and reporting policy pertaining to genetic conditions as recommended by the American Simmental Association. We further state that our personal policy is to not market any animals known to be carriers or suspected of being carriers of any genetic conditions classified by the ASA as lethal and/or high occurrence. On any animals known to be carriers of other non-lethal genetic conditions that the ASA recommends testing, we will test and provide results on any animals marketed. For full disclosure and explanation of all genetic conditions monitored by the ASA, please refer to the TraitTrac shown on their individual pedigree on the ASA website.

Guarantee on the Sale Bulls... Every Bull selling is guaranteed to be sound on sale day to the best of our knowledge and has successfully passed a complete breeding soundness exam performed within 60 days of sale time.

Full Purchase Value Extended Warranty on Sale Bulls... Every bull selling carries a 100% guarantee extended warranty for one breeding season, provided the bull is managed for proper and acceptable nutritional and physical health, not to exceed six months beyond sale day. In the event customer has any problem with a bull should immediately contact Gibbs Farms to report a claim. A veterinarian's statement of the problem will be required and Gibbs Farms reserves the right to have the bull returned if necessary. A replacement bull of mutually agreed upon quality will be provided if Gibbs Farms has one available with delivery expense not to exceed Gibbs Farms Delivery amounts on regular sale day animals. If a satisfactory replacement bull is not available, the customer will receive be given full sale credit (minus salvage value) to be used at future Gibbs Farms Sale. Gibbs will not be responsible for any settlement amount exceeding the purchase price of the bull.

Remember: All Potential Claims must be made to Doug or Bradley at Gibbs Farms prior to May 15, 2026.

NO ONE CAN GUARANTEE EVERY ANIMAL WILL PERFORM PERFECTLY, BUT AT GIBBS FARMS WE GUARANTEE WE WILL MAKE THINGS RIGHT IF THEY DO NOT!

We are offering 5 conventional embryos out of one of the most intriguing bulls to sell in 2024, GIBBS HIGHWAYMAN 3130L. These genetics will offer breed-leading growth and carcass, as well as an eye-appealing package. The first Highwayman calves are on the ground here, and they are flat-out good! The dam of these embryos has been there and done that, producing a 2024 sale standout. This cow excels by producing cattle that contain as much volume as you can put into an animal. She is a cow that was picked for the donor pen for not only having the EPDs that we desire, but have the look and production record to back her up.

GIBBS 0143H F185 F185 Dam of the Lot C and Lot D embryos,

SCHOOLEY/EOR MAINSTAY M06 Sire of the Lot C embryos.

• Mainstay is the baldy phenom that we recently acquired from Schooley Cattle Company and English Oaks with River Creek Farms. He has sold a total of 200 units of semen this past year exclusively through the owners for an average of \$120 a unit. This will be one of the only chances to acquire his genetics in 2026. These embryo calves will certainly be valuable from the sire alone, but especially when you combine the excellent cow behind them. 0143H is an up-and-coming donor here that you will hear a lot from. She is admired for her outstanding udder quality and fleshing ability. Look for these genetics to be some of the best baldy genetics anywhere in the country.

• Here is another set of embryos we are offering out of the 0143H donor, but with a different twist. Breed-leading calving ease and eye appeal will best describe this mating. Full Court was the \$60,000 high-selling bull we recently purchased with Select Sires from Triangle J Ranch. Here is a glimpse into the future with this mating, as we offer some of the newest bloodlines and most progressive matings in the country.

Nova was the high-selling female from the Keller program in the 2024 sale. We purchased her to introduce breed-leading baldy genetics in a purebred package. Her impeccable EPD profile is impressive enough, but when you combine the amount of length she has to offer, it makes her sort of a freak. Pinnacle is one of our newest herd sires that we purchased from Apex Cattle Company with Baxely Family Farms. We bought him for his outstanding growth and carcass qualities, all in an outcross package. We believe these genetic lots being offered are some of the most unique and innovative matings in the country. Take advantage of these lots to acquire some of the most progressive genetics we have to offer.

- This female came out of the heart of our replacement pen for a sale feature. We believe she is good enough to roll straight into your donor pen. Her cow family is growing in popularity here, and we think you will be pleased with what her genetics have to offer. She is a full sister to the herd bull GIBBS MILESTONE 4312M. This female offers as much eye appeal as you can make, as well as a genetic package that can be appreciated by all.

BGIBBS 2392K HANOI CLRS 0110H Dam of Lot 69.

Milestone was the lot 4 bull in our fall sale. Unfortunately, we pulled him from the sale due to a shoulder injury. We felt that the bull would recover from the injury, but we could not offer him for sale that day due to a slight limp, for fear he would get turned in with cows before being fully healed. He is the purebred Culmination son that had the "the look" and simply jumped through all the hoops on an EPD profile. We believe this bull is truly special. We received more phone calls on this bull than on any other bull we have ever raised. Following the sale, we took him to ShowMe Genetics in Missouri, where he collected 750 units in three short weeks. Currently, the bull is here running with our donors natural service, completely healed. Here is your chance to purchase semen on this bull. This will be the ONLY opportunity to acquire his genetics this spring. Milestone saw extensive use within our herd this fall, where we A.I. bred approximately 60 head to him.

Semen

Mainstay is the \$45,000 baldy phenom we purchased last spring. This bull continues to impress us each day as he continues to develop into a mature herd bull. He is going to be a 6-plus frame bull that excels in growth and carcass traits. We used this bull extensively in our ET program as well as natural service and A.I. He is unique in the fact that he offers that much eye appeal, natural thickness, and marbling as possible. The white face is just a plus. We sold 100 units in our November sale that averaged \$120 a unit, and our partners at RiverCreek sold 100 units, averaging \$120 a unit. A month ago, Abram sold an additional 9 units, averaging \$350. We believe in volume commercial semen sales, but these two bulls are a little different in terms of the amount of demand. Here is your chance to get the only semen sold on this bull this spring.
