

HEART of the HERD

MARCH 4

1:00 PM CT in Atwood, Kansas • Simmental and SimAngus™
Rawlins County Fair Grounds

8th ANNUAL

Klein Ranch

WELCOME TO OUR 8th ANNUAL SALE...

Thank you to all our new and old customers for giving us the opportunity to bring you the 8th annual Heart of the Herd Sale. This year we have our deepest set of bulls from the group and are offering the best Simgenetics bulls. 2026 will mark 20 plus years of being in the seedstock business. **During that time, we have embraced technology from ultrasounding carcasses, using Genomically Enhanced EPDs to the implementation of Right Mate.** By doing these, we have seen the advance of our cow herd. For example, this year's bull class has an average yearling weight of 1070 lbs, along with an IMF score of 4.2 IMF and a 0.23 tenths of backfat with a 12.8 inch of ribeye. We want to be honest to you the customers on where we are as breeders and on where we are going. We are excited about what the future holds in the beef business and hope you are too.

New to this year in the catalog are bulls that qualify as Top Dollar Angus sires. Top Dollar is a third party company that verifies baling calves to feeders that come from sires that meet criteria that works in the feeding to retail sector. We have been personally using Top Dollar Angus when selling our feeder steers for the last couple of years. The value that was gained by using Top Dollar was evident. The program works when you are selling at an auction barn, Superior Livestock or any online auction company. The logo works on any SimAngus bull or purebred bull going to an Angus base cow herd. Even in times of great markets, having an edge will always help.

Heart of the Herd group looks forward to seeing all of you March 4th at the Rawlins County Fairgrounds. Give us a call if you have any questions. As always, we want to help you with where you want to be with your cow herd.

Sincerely,
Heath Klein and Family

SALE DAY

10:00 AM	Donuts available
10:30 AM	Viewing of cattle
12:00 PM	Lunch is served by Galli Smoked Meats
1:00 PM	Heart of the Herd Sale

LOCATION OF BULLS

The bull facility is located 5 miles north of Atwood on Hwy 25, then turn west on Rd W for 3.25 miles and the place is on the south side of the road. The address is 17026 Rd W, Atwood, KS 67730.

DISCOUNTS

If you decide to take your bull home the day of the sale, \$200 will be taken off the total purchase. Buy 4 or more bulls and receive a 5% discount on total bull purchase. No combine buyers to receive discounts.

GUARANTEE

All bulls sold will have a 100% guarantee of 90-day breeding season against foot, leg, disposition, and semen. The bulls will be given a Breeding Exam before the sale and must pass the Breeding Exam before released to the buyer. All claims must be in by Oct. 1, 2026. If there is a claim against a bull during the season, we will give you an equal replacement or refund of credit. There will be a \$1,750 salvage value place on the bull if the bull is not returned to Klein Ranch. The bull must be returned to Klein Ranch or have veterinary claim of the injury.

SEMEN RIGHTS

All bulls are sold with a 100% possession and 2/3 semen rights. We are retaining 1/3 semen rights on all bulls and the right to collect 100 straws of semen for herd use. We will pay the expense for the collection of the semen at the buyer's convenience.

INCLEMENT WEATHER

Changes to sale date due to weather will be posted on our website and Facebook page.

VIDEO SALE FORMAT AND ONLINE BIDDING

Heart of the Herd sale **will be conducted as a video sale. All animals will be available for viewing on the premises during sale time. In addition, the sale will be broadcast on LiveAg.** You will need to register 24 hours before at www.live-ag.com to be able to bid for the sale. See page 24 for more information.

HEALTH

The bulls and females were given an Alpha 7 at birth. At branding, the cattle were given Vision 7 Somnus, Bovi Shield Gold One Shot, Pinkeye Autogenous and Long Range. At weaning, they were given a Somubac, Bovi-Shield One shot, Inforce III, Ivermax Injectable and Clean- Up II in August. A booster shot of Bovi Shield Gold 5, Vision 7, Pinkeye Autogenous were given in September. Heartland Veterinary Clinic will be there on the day of the sale to inspect cattle and have interstate papers if needed. All bulls tested negative for BVD-PI.

TRUCKING AND BOARDING

Bulls will be delivered in the following weeks after the sale. A charge for room and board of \$4 a day will be implemented on April 1, 2026 until pickup or delivery of the bulls. We will deliver bulls up to 200 miles free of charge. Any bull goes out of the 200 mile area, we will work with you to assist in an economical delivery. If you decide to take your bulls home the day of the sale a \$200 will be taken off the total purchase.

REGISTRATION

Any transfer of bull registration will be made at the buyer's request. Please inform the clerk when you are checking out at the sale.

CONSULTING VETERINARIANS

Heartland Vet Clinic 785-475-3808

ULTRASOUND

Ultrasound was performed by DVM Paul Ritter 785-672-2500.

TERMS OF SALE

The terms of the sale are cash or check with proper ID. Every animal will be sold to the highest bidder by a public auction. Announced changes on sale day take precedence over printed material in sale book. The Heart of Herd Sale does sell under the guidelines of the American Simmental Association.

All cattle are the buyer's property as soon as sold and will be cared for a reasonable amount of time at the buyer's risk. Any person attending the sale does so at their own risk. Neither the sale management, owners, nor any person connected with this sale assumes any liability, legal or otherwise. All animals are listed to our best knowledge as Homozygous Black, Homozygous Polled, Heterozygous Black or Polled and Non-Dilutor red.

UPDATES AND SALE ORDER

Sale Order and any updates will be posted March 3, 2026 at www.kleinranch.net and on our Facebook page Klein Ranch.

HOTELS

It'll Do Motel, Atwood, KS 785-626-9615

CATEGORIES FOR BULLS

Our goal is to make the bull selection process easier. We know that the amount of information can be a little much. That is why we are trying to simplify the process for you. The bulls are divided into four categories: Maternal, Terminal, Calving ease specialist, and All Purpose. The calving ease (CE) EPD is used for first calf heifers. All these bulls will work comfortable on cows and we would use any of these bulls on our own cowherd for their calving ease.

MATERNAL

Bulls that we recommend retaining the females into the herd or selling heifers as replacement quality.

TERMINAL

Bulls that would excel in operations that are looking to market all calves into a background or to retain ownership. Not recommended for keeping females in the herd.

CALVING EASE SPECIALIST

Bulls that excel with calving ease will work very well on heifers. We would use any of these bulls on our own heifers.

ALL PURPOSE BULLS

These bulls are what we consider well rounded for both maternal and terminal traits. Bulls that would work well suited in programs that retain females and sell their calves as program cattle.

GENETICS

Bulls have been Genetically Enhanced with a DNA tested through American Simmental Association.

WHAT DOES THIS MEAN? All bull's DNA must match their Sire and Dam parentage DNA. Genetically Enhanced DNA enhances the EPD profile of each animal giving you, the producer, a more proven EPD profile to look at. In addition, the bulls have been tested for color, polled and tested free of all known genetic defects.

HOMOZYGOUS BLACK- When mated to a black cow, all the calves will be black.

HETEROZYGOUS BLACK- When mated to a red non-dilute cow, 50% calves will be red.

NON-DILUTOR RED- When mated to a red cow, all calves will be red. There will be no grays, yellow, or buckskins.

HOMOZYGOUS POLLED- When mated to a polled cow, all calves will be polled.

FRAME

We place the bulls into frame ranges to help more accurately portray the bulls. For example, 5- (5 to 5.2), 5(5.3-5.6) and 5+ (5.7-5.9)

THANK YOU

Thank you to all our customer, friends and family that have made this program. We couldn't have done it without your support and guidance for these last 20 years.

EXPANDING OUR COMMERCIAL OFFERING

In the coming years, we want to expand our commercial heifer offering. We would like to have females that are sired from Klein Ranch genetics at our upcoming offerings. In order to qualify for our replacement female program, the bulls must meet criteria. The bulls, who have met these criteria, will be identified with a logo in the catalog. If this program interests, you contact Heath for more details.

ALL BEEF

All Beef is a producer owned genetic business that we have invested in. This allows us to provide a service to you, the customer, that we felt is needed in the cattle industry. We knew that we could not do it on our own, so now we can leverage some of the most sought out young Simgenetics in the industry and provide them to you. If you are looking either to breed a pen of heifers or your best group of cows this will move you genetically faster to where you want to go. It does not matter the size of the operation we can help you get to where you want to be. Klein Ranch is a semen rep for ALL BEEF, ORIGen and Allied Genetic Resources. Contact Heath for semen or embryos. See inside back cover for more information.

FEEDER CALF MARKETING

Our customer success is important to us and marketing your calves can be a large part of that. To help with this we have teamed up with Rocky Forseth through Superior Livestock. By using our genetics, you would be eligible for a Progressive Genetics Logo. In addition, we are putting together a feeding alliance for any of our customers who are interested in feeding their own cattle to feeders or to finish. Any size is welcome from a 10 cow herd size to a 1,000 cow herd size. Contact Rocky or Heath if you have any questions. See page 24 for more information.

TOP DOLLAR ANGUS

New this year - Bulls that qualify as Top Dollar Angus sires are denoted. Top Dollar is a third party company that verifies baling calves to feeders that come from sires that meet criteria that works in the feeding to retail sector. See page 3 for more information.

Improved Buying Confidence with Greater Genomic **ASSURANCE**

Access to more and better information has always been key to making wise decisions. The evolution and improvement of genetic evaluation tools too has given us an ever-clearer picture of the true genetic makeup of cattle and thus a better view of the value proposition. RightMate, powered by Top Genomics LLC is taking the evaluation of genetics and genomics one giant step further. By combining specific genomic information with the long-proven value of EPDs, this new advancement in technology improves our depth and precision when evaluating the actual ability to transmit value and profit.

The 3 Accreditation Logos below are designed to simplify bull selection and improve buyer confidence by more accurately describing the genetics offered and by reducing risk. What this means to you as a customer is a much greater assurance that you are getting both what you want and need from the genetics you purchase. What it means to your seedstock provider is access to RightMate technology that simply sets them apart from the rest of the industry.

ACCREDITED GENOMIC PLUS – For the majority of producers who simply need consistent and balanced genetic improvement, without genomic setbacks, G+ Accredited bulls should be on your list for premium purchase. These sires will absolutely move you forward for both cost reduction and income producing traits and substantially reduce risk when compared to all other evaluation programs. It's simple, the right genes are in these bulls to help secure a profitable future and the they have great EPDs to match!

ACCREDITED TERMINAL MATE – Just like an ATM machine makes it simpler to access your cash, the ATM Logo highlights bulls accredited to generate extra cash income as soon as your next calf crop! These bulls are meant specifically to use only on mature cows and for the purpose of adding performance, pay weight and end product value to market.

ACCREDITED CALVING EASE – Simply find bulls with the ACE logo for third party Accredited, secure Calving Ease bulls. Though we have had tools in the past to assist in choosing heifer bulls, we've never had one nearly this effective. The reduced risk that comes with this genomic certification will simply make your decisions easier and your heifer calving season more successful. Purchase special purpose ACE bulls with confidence. They will deliver consistent and predictable calving ease.

Calving ease, STAY, Marbling and \$ indexes. This bull has many strengths to add to your herd.

BULL DEVELOPMENT

This is our process on how bulls are developed and what they need for a longer life. Over half of our bull battery is bulls that we have raised ourselves and this want we have found that works best for us. The development of our bulls is just as important as anything we do. Also, the care after breeding season. The bulls are weaned during Labor Day week and given their first round of vaccinations. They are fed an alfalfa base protein pellet at 5 lbs. a day with free choice oat hay. They are on this ration for 21 days then transition onto TMR ration. At this time, they are given a second round of vaccinations. The TMR is designed for them to gain 3.0 lbs. a day. The ration is corn silage, ground milo, alfalfa, sorghum grass hay, and a protein pellet. Our goal is for them to have 2 tenths of backfat when they are ultrasounded the first week of January. This allows us to manage their growth and develop their joints and structure properly. We purposely do not raise fat or heavy bulls. This diet is maintained until sale time at which we increase roughage and pull-out grain in order to start a transition of the gut to more forage base. When taking the bulls home, they still need to feed a growing ratio of gain 2 to 2.5 lbs. a day. A bull does not stop growing until they are 4. After breeding season, it is best to pull bulls from the main cows and let them rest in a pasture or grass trap on their own. This will allow them to rest and grow. Side note: we do not Creep feed any of our bulls. We believe this has a negative effect on the lifetime of a bull. If you have any questions, give us a call.

A calving ease Total Power son that is a product of our ET program. He is a heifer bull with genetics that will make you want to keep all of his daughters.

HEART OF THE HERD Open Heifers

Heart of Herd female group from Klein Farms LLC, Klein Ranch and Remmington Ranch will be offering open heifers this year. The heifers have come out of each of our replacement pens. All females have been bangs vaccinated, pelvic measured, and given breeding shots. Please call Heath, Lincoln, or Toby with any questions about these females. We would like to extend a couple of extra services to you, the buyer. Option 1 is breeding heifers for AI and Option 2 is a bred heifer, details are listed below. Our current 5-year AI breeding average is 67% on a 1-time AI bred with conventional semen.

OPTION 1 - AI HEIFER: Klein Ranch will take heifers back to the yard to be developed and set up for AI. The heifers will be bred to a calving ease bull. With either an AI Due date of Feb 15th or March 1st of buyers choosing. The buyer will have an option to pick their AI bull option from Allied Genetic Resource, ORigen, ABS, Select Sires, Genex, or ST Genetics. There is a \$30 cost assigned to semen. Selection of bulls must be made by April 1, 2026. If not, Klein Ranch will select accordingly. Heifers must be picked up within 3 days of AI date.

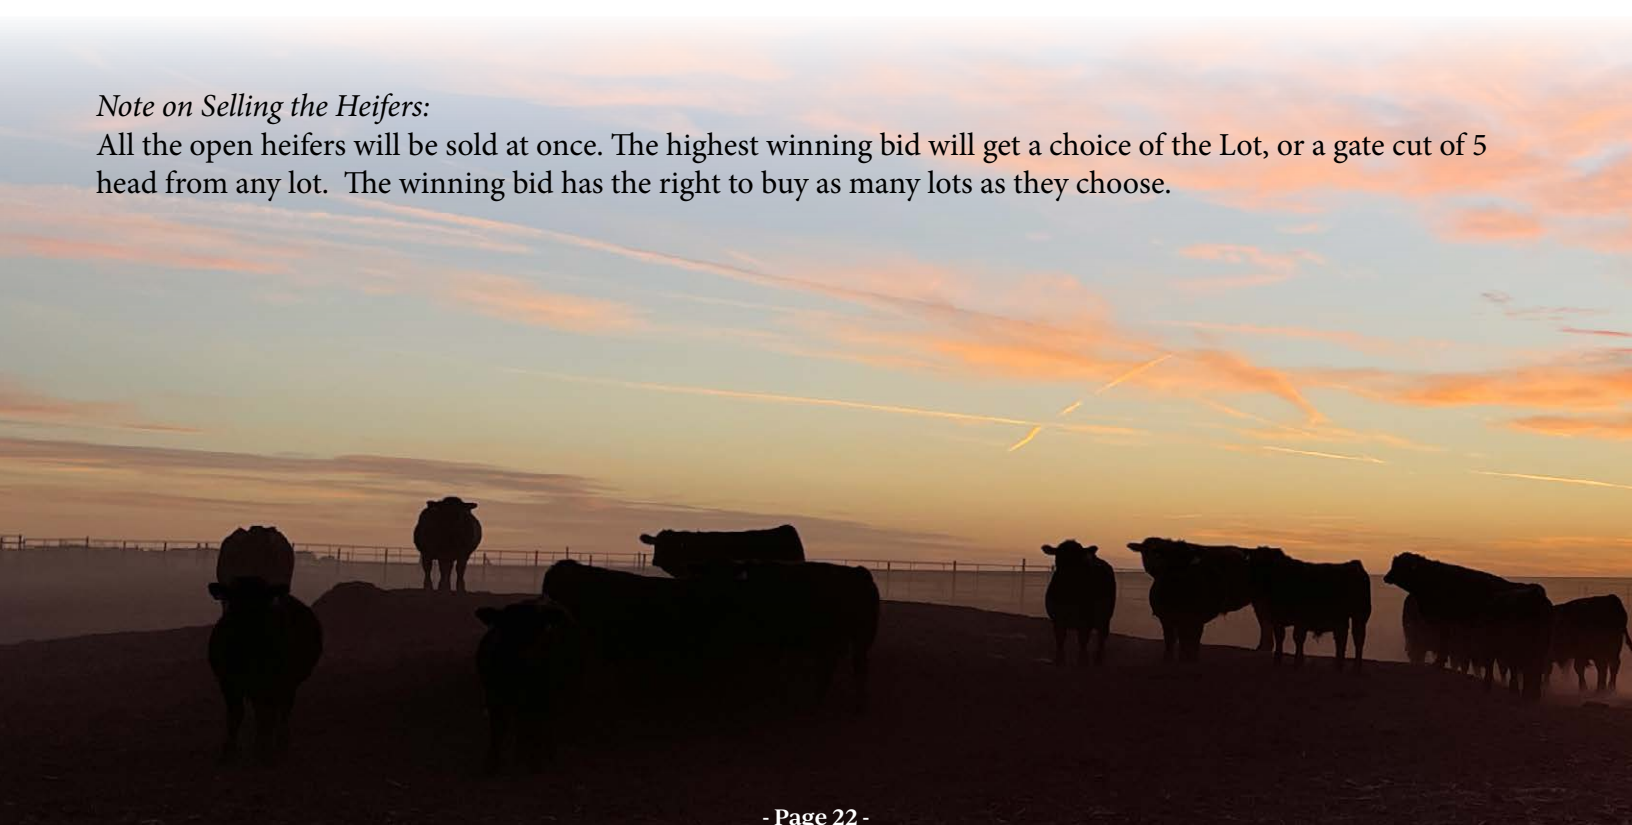

Cost \$225- amount is due at time of pickup of heifers.

OPTION 2 - BRED HEIFER: Klein Ranch will develop the open heifers into a guarantee bred heifer that has a day breeding window. The heifers will be AI 1 time for either a March 1st delivery or March 15th delivery. Then they will be developed on grass, and a SimAngus heifer bull type will cover the heifers to be bred. The buyer will have an option to pick their AI bull option from Allied Genetic Resource, ORigen, ABS, Select Sires, Genex, or ST Genetics. There is a \$35 cost assigned for semen. Selection of bulls must be made by April 1, 2026. If not, Klein Ranch will make selection accordingly. Pick up of heifers must be done between Oct. 15 - Nov. 1, 2026. (Note, if the heifer that was bought during sale day becomes open, she will be replaced with another of similar quality and breeding, we will not cover death or act of God Claims.)

Cost \$825- amount is due at time of pickup of heifers.

Note on Selling the Heifers:

All the open heifers will be sold at once. The highest winning bid will get a choice of the Lot, or a gate cut of 5 head from any lot. The winning bid has the right to buy as many lots as they choose.

HEART OF THE HERD Open Heifers

Lot A - 10 head of Klein Farms open black commercial SimAngus heifers.

Lot B - 10 head of Roger Holste open red commercial SimAngus heifers.

Lot C - 10 head of Remmington Ranch open black commercial SimAngus Heifers.

ROGER HOLSTE has been raising Simmental cattle since the 1970's. His cowherd has exceptional milking production on minimal inputs. He also has been a longtime customer of Klein Ranch. This year we were given the opportunity to take over the management of his cowherd. The females that we are offering are coming off the top of the replacement pen. They have been managed the same as Klein Farms/Klein Ranch.

REMMINGTON RANCH is owned and managed by Darrill and Tyler Remmington. The cowherd is operated in Gove County, KS. The Remmington Ranch has been buying the top bulls from the Heart of the Herd over the last couple of years. These heifers are 1st and 2nd generation SimAngus females.

EXPANDING OUR COMMERCIAL OFFERING

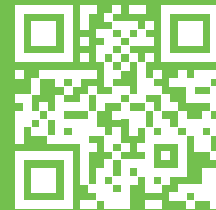

In the coming years, we want to expand our commercial heifer offering. We would like to have females that are sired from Klein Ranch genetics at our upcoming offerings. To qualify for our replacement female program, the bulls must meet criteria. The bulls who have met these criteria will be identified with a logo in the catalog. If this program interests you, contact Heath for more details.

BID FROM ANYWHERE

with **LiveAg**
PUREBRED

- 1. VISIT LIVE-AG.COM**
Navigate to the "Purebred" tab, located in the main menu. Select the auction of choice.
 - 2. LOG IN / CREATE AN ACCOUNT**
Select the "Login or Create an Account" button. Fill out the required fields to bid online. Agree to the terms of service, and finish with the "Register" button." An account is not necessary to watch an auction.
 - 3. REGISTER TO BID**
Once logged in, find your sale of choice and click "Register to Bid". Agree to the terms and conditions, and click the "Register" button. Your request will be approved in a timely manner.
- * CALL OUR TEAM WITH ANY QUESTIONS**
We're dedicated to ensuring you have a positive bidding experience. Please call **817-533-6699** with any questions.

A NOTE FROM THE SALE MANAGER

Welcome to the 2026 Heart of the Herd sale. Allied Genetic Resources is excited to be involved in sale management of this sale this year. Klein Ranch has worked with Allied and utilized many of our services for years and we are honored to be taking more of an active role in this production sale. As you look through this catalog you will see that the Klein family is dedicated to producing breed leading genetics that ultimately benefit you, their commercial customer. They are committed to using all the tools available to make the best Simmental genetics possible. From carcass ultrasounding, to Genomically Enhanced EPDs and the use of RightChoice and RightMate, they take all the steps to ensure that you have the best data possible to select the bulls that fit your goals in your herd. Klein Ranch is also committed to helping their customers expand the marketing of the calves produced from their genetics. Females sired by bulls with the heart logo are eligible to participate in the growing commercial female marking option. Also, new this year, Klein Ranch is participating in Top Dollar Angus. For more details, please see page 3 of this catalog. As always please reach out for feeder calf marketing options through Superior Livestock Auction. You can read more about this on page 24.

So as you can see Klein Ranch is committed to serving their customers. If you purchase a bull or commercial females in this sale you are not only getting some of the best genetics in the industry, you are also getting customer service that is second to none. If you have any questions about the offering, please reach out to one of us on the Allied team. We are always happy to assist.

Sincerely,
Marty Ropp, Corey Wilkins and Jared Murnin
