

ELITE SIMMENTAL AND SIMANGUS FEMALES AND GENETIC LOTS

SEPTEMBER 20
SHELBYVILLE, IL • 1:00 PM CT

WWW.ILLINIELITESALE.COM

WELCOME

On behalf of the Illini Elite group, we would like to welcome you to our 21ST Annual Illini Elite Sale! It has been a sincere privilege for our family to be a part of this sale. For the past 3 years I have remarked about "the unprecedented times in our cattle industry" with record prices reaching every sector and every aspect of what we do as cattlemen and cattlemen! And so, these unprecedented times go on for all of us as we continue such a strong demand for BEEF and the desire to improve our cattle on farms and ranches, and in the showing!

More than ever this year I have seen the commitment from the sale's consignors to find ways to make the genetic offering even more improved. Realizing these efforts we felt it best to partner with Allied Genetic Resources to serve in the capacity of Sale Management to assist with the management and placement of these genetics and be a part of the communication of the Illini Elite cattle with all of you. So with that we welcome Marty Ropp, Corey Wilkins, and Jared Murnin to this sale and look forward to a long relationship with Allied Genetic Resources!

We are especially proud of the efforts these past few months from our consignors to be able to produce and develop the exciting set of genetics found in these good 2026 Illini Elite cattle. As you get the chance to look at the heifer calves, you will find current genetics in heifers that phenotypically are built right and most certainly will compete! Preparing for and selecting the 2027 AJSA Classic heifers, county and state fairs begins now so realize that these heifer calves are simply stellar! Truly the Illini Elite Sale is an excellent opportunity to lock in those "big time" females early and get them under your care.

The bred division of females will be preceded by an Elite Donor, IR Miss Vienna G965 and followed by tremendous sexed pregnancies and embryos from some of the breed's great dams that again are "cutting edge genetics" and can provide their new owner with high end and competitive offspring. Our bred division runs deep with a particularly high quality and well managed set of cattle and the effort by our breeders to have these females stuck to their AI dates. It is one of the highest % AI conceived sales that you as buyers will have a chance to participate in so help yourselves here!

Our sincere congratulations to all of our past customers and the successes you are having with purchases from Illini Elite. We would also mention that we don't do this alone and want to thank Evan McDonald for his daily involvement in the operation of the herd and farm and the Show Barn work by Gauge Sloan, Isaac Miller, and the many Lake Land College students assisting when and where needed. I also want to thank Adam Swigart for his patience with capturing picture and quality video work, Dr. Annette Morrow, Shelby Veterinary Service for her assistance with herd health and Dr. Wes Keller for his reproductive and embryology diligence.

Additionally I want to thank our Sale Consultants, Auctioneer Cody Lowderman, and our Ringmen for providing their time and effort to communicate with all of you regarding this set of cattle. Find their contact numbers on the next page and most certainly use their expertise. And lastly I want to thank our catalog designer Julie Murnin with Allied Genetic Resources, for her work in developing effective ads and this great catalog.

We sincerely invite you to join us September 20th to see this offering and if you cannot be in attendance, we encourage you to go to CCI.LIVE! Be a part of the history of the Illini Elite Sale!

Respectfully,
Curt, Pam, Brent, Cari, Jace, and Raelynn Rincker
Rincker Simmentals, Sale Host

SIRE OF LOT 1A EMBRYOS.

This has been an awesome female for RS allowing us to calve out, grow, and develop cattle that are highly predictable and highly sought after. We purchased this female from Irvine Ranch in their fall sale 3 years ago and I can still recall John's footnote on this cow "she could just be something special" and that she is! She has raised high selling bulls at our Spring Illini Elite Sale as well as the Illinois Performance Sale and as expected those cattle blended quality with phenomenal numbers. Her IR Loadstar daughter last Spring sold with a Bold Ruler bull calf at side and that bull is currently indexing top 1% and 2% respectively for the new owner, Doug Ludwig, on his dollar indexes! Last Spring she raised 4 calves after Genetic Enhancement that averaged top 1% and 2% for the industry respected dollar indexes and several others in the top 6 percentile. She has the WS Miss Sugar C4 dam, KBHR High Road, and Hooks Admiral all in her resume so her superb genetic profile is not surprising! She is Homo Black and Homo Polled, makes her cattle predominantly solid black, and has flushed well in her conventional flushes here with 14, 17, 8, and 9 freezables in her last 4 flushes. We have not done her IVF. We have several eggs stored on her so we are selling full possession and no retained flushes! She most certainly has and will continue to "make an impact!"

Bred AI to ADV Compass L3574 (ASA 4212198) on 4-23-26-No Bull Exposure-Ultrasound Bull Calf

LOT 2

If you like to show and win, hop on board with this young and elite heifer. We like it when cattle can walk into a pose and this one is stunning when she does so with her head up right and her build so very good! Shapely and long in her quarter, good bone with a little more depth to her heel, and sound structured in her hock and knee with more than ample give. This heifer's balance will excite you and she's most certainly with that much look, is one that wants to compete at a high level! **Sells open.**

LOT 3

RS Promise is an extremely high-end young female as a result of Purdue donor JSUL Mary 2432K and Coping with Destiny. Coping with Destiny is a multiple time Champion and has become a major player in our breed for making good cattle with some shape and density. For her young age she may be one of our stoutest featured females with a bit more bone substance and foot size. I like RS Promise's build, her rib shape, and true width of track while having ample flexion when she goes. She balances up at the profile so look to this one as a way to the backdrop! **Sells open.**

LOT 4

P601 has been a favorite from the start. This Star-headed sweetheart will win you over with her flexibility, maternal look, and striking profile. You'll travel a lot of miles before you find one with this kind of skeletal looseness, feminine muscle pattern, and natural presence. "Poppin" is as gentle as they come—peewee broke, good haired, and loaded with the kind of eye appeal that can make a show heifer famous. She's

already off to a strong start, remaining undefeated after earning Grand Female honors at our county fair, much like her sire, "Steve" (SAM x Serena), who captured Champion honors at the Illinois State Fair a few years ago. Her Uno Mas dam has proven herself as one of the most consistent producers in our program and simply doesn't miss. A maternal sister campaigned in Missouri put together an outstanding show career, and we believe P601 has every opportunity to follow in those footsteps. We like her chances, and once you study her, we think you will too. **Sells open.**

LOT 5

Here's one that comes to play. This Exclusive daughter, Dragon Fly, is a big-pinned, stout-boned female that still offers the extension and front-end presence to demand attention. When she's locked in, she knows how to strike a pose. She combines genuine substance with natural shape and body, giving her the kind of foundation to be a powerhouse as she matures. Her Milestone dam was successfully campaigned by Jasper a few years ago, and now she's proving her value where it counts most—in the production pasture. Good-haired, big-legged, and carrying a "look at me" attitude, Dragon Fly has the pieces to compete today and the pedigree to make an impact tomorrow. Be sure to find her on sale day—we think she'll be one you'll remember. **Sells open.**

LOT 6

Nadine is a standout baldy heifer nicknamed "Wink." Her sire, KCCI Exclusive 166E, certainly did an outstanding job on her dam who is a W/CBank On It 273H daughter. "Wink" is a very attractive, well balanced lady that will only continue to get better. She is very elegant about her front end and the way her shoulder blends into the rest of her body. Very good about her spring of rib, depth of flank and maternal muscle make up. She is structurally correct and moves with elegance. "Wink" is a must to see in order to appreciate. I am retaining the rights to one successful flush at the seller's expense and buyers convenience. **Sells open.**

LOT 7

If you're looking for a competitive January percentage Simmental, be sure to study this one. She's big-boned, bold-ribbed, and square-hipped with the extra body shape and center dimension that catches a judge's eye. She combines an attractive look with the extra hair and presence to be competitive in the show ring and travels with flexibility and confidence on a sound set of feet and legs. This heifer has the pieces to compete throughout her show career while offering the maternal quality to make a standout brood cow when her banner-winning days are over. **The seller reserves the right to two flushes at the buyer's convenience and seller's expense. Sells open.**

NRMC Mary's Biz 6P is a maternal powerhouse with plenty of show ring appeal. This Tecumseh daughter is long fronted, deep ribbed and bold bodied, while maintaining the stoutness and substance needed to compete. This one combines proven cow power with a competitive phenotype. A female with a bright future in and out of the show ring. JSUL Mary's Biz 9040G, 6P's dam, was purchased from Sullivan Farms at the top of their Maternal Legends Sale in 2019. Her dam, JBSF Proud Mary 317C, boasts an impressive track record, having been crowned 2016 Supreme Champion Female at the Iowa State Fair 4-H Show. Proud Mary continued her success into the 2016 NAILE Open and Junior Shows as Champion Female. And to top it all off she is also the mother of Something about Mary (SAM). If you pay any attention to who is bringing home banners Tecumseh is one that is consistently doing so. His dam is one of the highest generating females in the breed to top it off. If you are looking to improve your herd or get yourself in the backdrop in the future, time and time again, this is again one of those matings you do not want to pass up! **Retaining a 1/3 embryo interest. Sells open.**

NRMC Mary's Biz 3LP is a high impact female from a proven donor mating that blends show ring quality with elite genetic value. She offers the style, rib shape, and structural correctness of Tecumseh combined with the powerful maternal influence of 9040G, her dam. She is designed not only to be a great show heifer but also to turn around to be your next donor! JSUL Mary's Biz 9040G, 3LP's dam, was purchased from Sullivan Farms at the top of their Maternal Legends Sale in 2019. Her dam, JBSF Proud Mary 317C, boasts an impressive track record, having been crowned 2016 Supreme Champion Female at the Iowa State Fair 4-H Show. Proud Mary continued her success into the 2016 NAILE Open and Junior Shows as Champion Female. And to top it all off she is also the mother of Something about Mary (SAM). Really nice cows can make some really nice calves and I just love the dam behind RS Patience. One of my deeper built stouter cows she did a good number here on this SO Remnant sired heifer calf. Many times I came back from the pasture feeling like this late February girl had the right stuff to continue on and become really competitive! She balances in her profile with her long and strong top, her levelness of hip, and smoothness of shoulder. She's tidy fronted and yet has some flank and no doubt soundness. Can you tell I like her?! **Sells open.**

P615 is a high-quality ¾ Exclusive daughter backed by a pedigree that flat-out works. Her granddam, Ruby Rhythm, has made a lasting impact in Nate's herd, and when you stack that proven cow family with the influence of 24 Karat, the maternal potential speaks for itself. This female combines extra length, power, and flexibility with the balance and presence to compete wherever you choose to take her. One of the hairier females in our lineup, P615 offers the kind of look that's hard to overlook while still being built for the long haul. We believe she has all the tools to improve the next generation with added performance, foot quality, and lower body sweep. Whether you decide to campaign her or take her straight to production, this is the kind of pedigree you can invest in with confidence. The banners are optional—the cow power is not. **Sells open.**

This female is sired by our proven herd bull Ruby Battle Cry and out of a powerful Double Down dam. P616 is the kind of female that can anchor a program—the kind that keeps you out of the ditch and puts dependable, productive cattle back in your pasture. P616 may not be the flashiest female in the pen with an overabundance of hair and fluff, but she brings the pieces that truly matter. She offers genuine muscle, a bold rib shape, and a level, balanced build. This is a no-nonsense female with the right kind of look, the right kind of structure, and the kind of soundness and functionality that will keep earning her keep for years to come. No gimmicks—just a good-footed, reliable female built to work and produce. **Sells open.**

Bid with confidence on this young female. Her dam, Star Crazy, is an Epic daughter that would catch your eye in the pasture every time. We mated her to Coping this time around, and we really like the result. P642 is feminine in her design with a promising muscle pattern yet remains smooth through her joints and flexible on the move. She has the pieces to generate quality and the kind of look that should only get better with age. When she matures, don't be surprised if she's right where you want her in the March division. If you want proof of what this cow family can do, be sure to study her maternal sister selling as Lot 55 in our strong offering of bred females. We believe the future is bright for this young female. **Sells open.**

If you're looking for one with a little extra sparkle, don't miss this 3/4-blood Woodford daughter. This brockle-faced beauty has been a head-turner since the day she hit the ground and continues to impress every time you study her. She offers tremendous shape to her rib cage, a stout hip and hind leg, and a moderate, functional build that ties it all together. Add in her puppy dog disposition, and she's the kind that's easy to appreciate both in the barn and in the show ring. Her young Epic dam knocked it out of the park on her first attempt, and we think this female has a bright future ahead. This cutie has the credentials to spark your interest both in person and on paper. **Sells open.**

**LOT 16**

LOT 17

Promise and Petra, Lots 17 and 18, have incredibly bright futures! I think you have all seen what RJ Trust Fund calves have done over the past couple of years, especially the good ones. We are stripping the cream right off the top this year with bringing not one but two Trust Fund Heifer calves for your analysis. Did I mention that they are both **BALDIES!** Marcus and I love both of these heifers and are excited for them to find their new homes in the show ring and then on to be great donor cows. Promise is out of an incredible Remedy X Countess ET first calf heifer we purchased from the Bruhn dispersal last fall. Just love this cow and her first daughter. Wish all my cows and calves would turn out like RJ TRUST FUND DAUGHTERS these two did. The same can be said for Pretty who is a little bigger framed than Promise. Her dam is also a Remedy daughter that we just love. Have fun choosing between these two, don't think you can go wrong with either one. **Lots 17 and 18 sell open.**

NRM Fancy Mary 34P is a show heifer prospect that's easy to get excited about. This Wall Street daughter is bold in her rib cage, stout featured and powerful from behind, yet still brings the attractive, feminine look you want from the side. She's balanced in her proportions, good in her lines and has that added substance and dimension to make her competitive as she continues to mature. 34P results from an embryo purchased from Eathington Family on their top donor, JSUL Fancy Mary 1232J, which makes 34P a maternal sib to the high selling heifer in the Boyert-Core 2024 sale that went on to be the Reserve Supreme heifer in the 2025 Junior Nationals. Wallstreet is the upcoming Broker son. We think this one has all the pieces to be fun in the show ring and even more valuable when the banners are put away.

**Retaining a 1/3 embryo interest.
Sells open.**

LOT 20

NRM Mary's Biz 16P is the kind that catches your eye and keeps it. This powerful Relentless daughter combines a bold, powerful look with plenty of body, dimension and substance, while still maintaining a feminine, attractive presence. She's stout featured, deep sided and impressively balanced from end to end. JSUL Mary's Biz 9040G, 16P's dam, was purchased from Sullivan Farms at the top of their Maternal Legends Sale in 2019. Her dam, JBSF Proud Mary 317C, boasts an impressive track record, having been crowned 2016 Supreme Champion Female at the Iowa State Fair 4-H Show. Proud Mary continued her success into the 2016 NAILE Open and Junior Shows as Champion Female. And to top it all off she is also the mother of Something about Mary (SAM). Relentless has been around for years. To still be popular today is a statement. So many great ones have Relentless in their background. He has proven himself over the years. He has produced several high sellers and Grand Champion heifers that are now proving themselves to be excellent donor cows in many programs. With the proven influence of Relentless behind her and being backed by the 9040G brings together the phenotype and pedigree we

look for in a donor quality female and one that can compete at any level of showing.
Retaining a 1/3 embryo interest. Sells open.

NRMC Mary's Biz 1P is a stout, attractive female that combines the proven maternal power of her dam, 9040G, with the look and substance from Remedy. She offers plenty of rib and center body, good hip and a sound, practical build. A female with the phenotype to compete in the show ring and the pedigree to make an impact in the donor pen. JSUL Mary's Biz 9040G, 1P's dam, was purchased from Sullivan Farms at the top of their Maternal Legends Sale in 2019. Her dam, JBSF Proud Mary 317C, boasts an impressive track record, having been crowned 2016 Supreme Champion Female at the Iowa State Fair 4-H Show. Proud Mary continued her success into the 2016 NAILE Open and Junior Shows as Champion Female. And to top it all off she is also the mother of Something about Mary (SAM). Remedy set the record for the 2021 Embryos on Snow sale. Since then, he has not backed off the pedal. When you look at sell reports, Remedy calves are always topping the sale. His calves have been at the top in the show ring. He has had several daughters bringing home banners and this heifer will continue that tradition. **Retaining a 1/3 embryo interest. Sells open.**

A NOTE FROM THE SALE MANAGER

Welcome to the 2026 edition of the Illini Elite Female Sale. We are grateful for the opportunity to represent the genetic providers for the sale. Flip through the catalog, and you will find a wide array of genetics from elite show heifers to more performance-oriented lots that will fit customers' needs. Years of experience in raising elite show stock and quality bulls are represented in this group of genetic providers. We hope you can make plans to join us for sale weekend and experience the great hospitality of the Rinker family.

Even with some recent market shake-up in August, the beef business has shown a lot of promise for producers across the country. Producers are having the opportunity to capture prices rivaled by few years in the past. The lack of new faces and producers entering into the cattle business presents a great opportunity for current producers to grow. The tight supply and resilient beef demand show a great opportunity for years to come. If you are looking to expand by adding some elite females, Shelbyville, IL will need to be on your travel plans.

Once again, the Allied team is excited for the opportunity to get to work with the Illini group and hope we can be a service to them and their customers. Along with sales management, Allied has a host of services built to benefit both seedstock and commercial customers. If we can be of any assistance to you, please do not hesitate to reach out.

Sincerely,
Marty Ropp, Corey Wilkins and Jared Murnin

Here's one that is cut out to keep coming and to show. Just so angular in her lines, good footed, and extended and clean necked, the expectations are for her to look the part when she keeps cranking. RS Proxy is an extremely soft pasterned and clean jointed female that has lots of hair to play with. With her Reserve Grand NAILE sire SO Remnant and W/C Relentless on her maternal side, expect 8387P to be a player with some look and function and can definitely get you in the backdrop! **Sells open.**

Here's a very nice March baby that we have as a result of a bred female purchase at last fall's Rutledge Farms sale. By the Triangle J Sandhills Swag sire, RS Precedent came with tremendous calving ease that you see in her EPD profile. This is smooth made, awesome patterned lady that projects a stellar profile and so much potential to keep coming. Great fronted, has more than enough body, and particularly sound legged and clean at her joints. Built for the long run this heifer will only get more competitive as she continues to mature! **Sells open.**

I always believed Broker worked on a lot of cattle but truly have felt his breeding to Angus females may well have been one of his better opportunities as a Triple Crown Champion. A Broker on Lazy H Forever Lady 319 this late April got the nice baldy face that is so striking in the ring or in the cowherd! This young girl is just starting in her post creep days so I would expect big changes from picture day to sale date as she fills and continues to develop. RS Penny is ultra sleek fronted and likely will remain that way as she feeds. I like her shape, her lines, and her balance so have some fun here with this Forever Lady daughter that could just be a spoiler for the big good ones as she matures! **Sells open.**

P600 is one that is easy to appreciate for her balance, design, and genuine quality. Sired by Coping with Destiny and backed by a young Perception daughter that we are excited about, she combines an attractive front third with genuine sweep and dimension through her rib cage and a functional, sound set of gears. She's a little greener after a hot week of weaning, but don't let that deter you—this heifer is built to continue getting better every day. With the look, flexibility, and presence to compete in the show ring and the maternal backing to make a valuable female when her banner days are over, we believe P600's best days are still ahead of her. **Sells open.**

More clubby looking in this Hairietta daughter and why wouldn't she be sired by one of the most influential show steer sires, Here I Am. But just as you might expect from the great Hairietta donor, RS Princess 964P is shapely, sound, and wide built. Thick quartered and square hipped with set to her hock, clean fronted, and lots of hair that came naturally! The buyer has options here if you looking for another female for a different division whether it be the low % Simmy or Sim-Angus show, commercial if you prefer, or even a market heifer class! This is just another example of her donor dam Hairietta and how flexible she has been for us. **Sells open.**

**LOT 40****DAM OF LOT 40.**

LOT 41

DAM OF LOTS 41 AND 42.

Another really awesome Marvel out of Forever Lady 319 and why wouldn't she be with such an angular look in her shoulder and neck, enough center width and depth, and built sound in her hock and all the way to the ground with her soft pasterns. 5322P has excellent hair with plenty of guard hair but a great base coat. Plenty of rib, good topped and wide enough underneath. These 2 sisters were fun to have in out pasture and equally so as we begin to power them up for their next owner. What a pair of pleasing and high-quality Angus heifers! **Sells open.**

LOT 42

We have really enjoyed seeing the pure function of the PVF Marvel cattle and mating him to our Angus donor Lazy H Bar Forever Lady was a phenomenal mating! Forever Lady herself has become a mainstay at this sale with often our best female offering and RNKR Marvelous Lady 9722P is nothing short of stellar! This late March will need to be reckoned with in the showing with so much natural cow in this girl. She's wide made with some turn to her top but more importantly she's sensible in her frame size, and really good with her feet shape and angles and she can get out and travel. If you want to win in the Angus shows, don't get shy here! **Sells open.**

The Star Crazy cow family continues to be a cornerstone in our program, and this female is another example of why. This purebred female is safe early to the calving-ease specialist Night Owl, setting you up for a trouble-free start and immediate return.

Maternally, she is backed by consistency, with a younger sister selling open as Lot 15. True to the Star Crazy lineage, Naomi excels in her build and balance, combining structural correctness with an eye-catching presence. She offers a touch more white for added look, yet maintains the same attractive, fault-free phenotype we admire in her sire "Steve," a past State Fair champion.

Sound-footed with a developing udder that reads all the right signs at this stage, Naomi is the kind that transitions seamlessly into a productive brood cow. Turn her out with confidence—she's built to go to work. **AI bred to GCC Night Owl due 12/24.**

Dalton bought this heifer for us as a pair last year and she is really coming into her own, with the backing of the great Delilah cow family and high numbered sire Bridle Bit Recharge she has all the pieces to continue the Delilah legacy. Whether you're looking for style or numbers this heifer checks all the boxes. We bred her to the great Point Proven bull with sexed heifer semen, can't wait to see that mating! **Sells safe in calf to WHF POINT PROVEN H45, due 1/28. Used sexed heifer semen, heifer calf unconfirmed.**

If proven cow families matter to you, pay attention here. This standout Berwick daughter stems from the legendary Right to Love donor lineage, a cow family that has impacted the breed through countless champions, donors, and high sellers. McKenzie M600 carries the look, substance, and maternal quality expected from this elite family while offering the added confidence of Point Proven AI service. Combining the maternal excellence of Right to Love with the breed-leading influence of Berwick and Point Proven, this female represents an investment in genetics that are built to generate returns in the show ring and in the pasture for years to come. **Safe in calf to WHF Point Proven due 1/22.**

It's no secret that we don't sell many of our red heifers and we sell even less of our red baldy heifers. But in an effort to showcase our newest herd sire purchase from the Jared Werning Program - Capital Gains 195N, we offer you M51. Miss Shear Force M51 comes to The Illini Elite Sale full of cow power, open thru her heart, big thru her center, and deep in her rear quarter. M51 was pictured right off of pasture without an ounce of sale prep. Pedigree's matter and Miss Shear Force carries some of the breed legends like Dream On, Built Right, and Shear Force. When combined with the influence of Trust Fund and 8543 from the mating to Capital Gains we believe it will generate an unparalleled combination of phenotype and genetic merit mixed with a shot of show ring presence. **Safe in calf to JWC Capital Gains 195N.**

Daisy has been a great cow for us in a very short time, coming from the Hecksel program in MN. She has only had 3 calves, but every one of them has been a heifer! I am retaining all 3 of those heifers, and that is the reason why we can offer such a great young cow for sale. Her first calf was an OMF Epic daughter that just had her first calf this year (heifer calf), her 2nd calf is a VCL LKC Equity daughter who is bred to Woodford and her third calf from this year was a Dare to Compare X STF Onyx daughter that is smoking good! We have her bred back to TL On The Run for next year, which should be exciting! Hopefully a baldy calf is on the way! **AI bred to TL On The Run on 5-18 and due 2-28-27. Carrying a bull calf.**

I was able to purchase RS Mattie's dam 2 years ago at the Cow Camp Spring Sale and she did a commendable job raising her first calf, 2805M by CCR Bedrock. This lot female is due to have a heifer calf prior to the sale date by River Creek Farm's sire ADV Compass and he himself has a stellar genetic profile with breed leading EPDs. RS Mattie is a smooth made sound female with more than adequate growth and body with numbers in the top 15 percentile of the breed for YW, ADG, CW, Marbling, and both \$ Indexes! Her heifer calf coming will be in the top 2.5% for her dollar indexes and both growth columns in the top 4%! I envision that both of these 2 individuals, the young cow and her calf, could someday become flush cows for their new owner.

Heifer Calf by ADV Compass L3574 (4212198) due September 2, 2026.

This is a solid black, homo black, homo polled 18-month sire that is more than ready to go. Stemming from the Hilbrand Pay the Price donor and National Champion TJSC Coping with Destiny, there's unquestionable good here. This is a virgin sire that has passed his BSE Exam both last Spring and again just a week ago and we fully expected that with his scrotal size and drive. He's built with more than adequate shape in his quarter and down his top, he's bold and rugged in his skeleton, and is good footed and sound in his hock and knee. ASA's new EPDs for \$Gain and Dry Matter Intake find him in the top 10 percentile rank. I expect RS Nordic to be a good breeding bull that will cover some cows with his proper condition and length of stride along with making his offspring fast growing and good looking!

We all know the importance of hot pedigrees and cow families. 95L embodies both of those factors. 95L's full siblings have acquired some serious hardware in the past couple years. As 3 full sibs have won 5 major champion titles, most recently a grand champion percentage female at the Simmental Junior Nationals. We have been really excited for this young donor, this attractive, good-footed, powerfully made female, to be mated to a baldy bull. TL On The Run needs no introductions, as the Second Chance son has already produced multiple champions and high sellers. **Here is your chance to take four sexed female embryos with one guaranteed pregnancy from a very exciting female.**

HILB PRICE OF STARIN H381C
HILB STARE & BELIEVE

This is one of the better purebred steers we have raised and in fact there are 2 other full brother steers in the sale. Coping with Destiny has worked well with our Hilbrand donor Hilb Price of Starin. This is the little more mature steer of the trio but he's also really made right in his top shape and lower third. His wide pins and shape to his lower quarter really compliment his loin and top shape so he won't be lacking in any of the judges' carcass discussion but his balance and correctness will certainly become a key point and get him into the Champion Drives!

ROCKING P PRIVATE STOCK H010
RP/MP BUILT TO LOVE A021

RECKONING 711F
ROCKING P BOMBSHELL L041
RP/CMFM BUILT TO LOVE

This guy is a very functional Simmy steer and has topped it off by being a real pet and so easy to work with his kid friendly attitude! I like this Private Stock steer's length with his more than adequate shape. He's got some substance and soundness and is haired at this stage. I think this will be an easy feeding steer and feel like he will hit the mid 1,300 range and will look the part to be a competitor!

HILB PRICE OF STARIN H381C
HILB STARE & BELIEVE

This is an outstanding purebred steer that can make the Junior Nationals or State Fair tour and will hang right there! As I get directly behind Primo, I see tremendous dimension thru his quarter and stifle and no doubt this fellow has that big back that we find in Champion Drives! I like his substance of bone and foot size and soundness so get yourself ready for the backdrop pictures! Grow his hair and he'll push the crossbred steers!

HILB PRICE OF STARIN H381C
HILB STARE & BELIEVE

Another one of the Destiny steers that has the right skeletal size to get fed and to get full. When I step behind RS Prime and can most certainly see his muscle expression and top dimension, I have no doubt that he can continue to come on and have some market acceptance and show ring appeal. He's out of Hilb Price of Starin so good things may happen here!

LOT 83

ASA QUICK REFERENCE TO EPDS, INDEXES AND \$VALUES

EXPECTED PROGENY DIFFERENCES (EPDS): EPDs are the most accurate and effective tool available for comparing genetic levels. In using EPDs, the difference between two sires' EPDs represents the unit difference expected in the performance of their progeny. For example, if sires A and B have EPDs of +10 and -5, a 15-unit difference would be expected in their progeny (moving from -5 to +10 yields 15 units). Key to using EPDs is knowing in what units they are expressed. For example, if the above case referred to weaning weight EPDs, sire A would be expected to sire 15 pounds more weaning weight than sire B. If calving ease was the trait, sire A would be expected to sire 15 percent more unassisted births in first-calf heifers; in other words, if sire B sired 30 assists in a group of 100 heifers, we would expect sire A to require 15 assists. A percentile-ranking chart is required to determine where a bull's EPDs rank him relative to other bulls in the breed. For more detailed information about EPDs and \$ indexes, visit www.simmmental.org.

Listed below are the units in which ASA EPDs are expressed:

ALL-PURPOSE INDEX (API): Dollars per cow exposed under an all-purpose-sire scenario. (See \$ Indexes for more details.)

BACK FAT (BF): Inches of carcass backfat at 475 days.

BIRTH WEIGHT (BW): Pounds of birth weight.

CALVING EASE (CE): Percent of unassisted births when used on heifers.

CARCASS WEIGHT (CW): Pounds of carcass weight at 475 days.

STAYABILITY (STAY): Percent of daughters remaining in the cow herd at 6 years of age.

DOCILITY (DOC): Percent of offspring receiving a disposition score of 1 (docile).

MATERNAL CALVING EASE (MCE): Percent of unassisted births in first-calving daughters.

MILK (MLK): Pounds of weaning weight due to milk.

MARBLING (MARB): Carcass marbling score at 475 days.

MATERNAL WEANING WEIGHT (MWW): Pounds of weaning weight due to milk and growth.

RIBEYE AREA (REA): Square inches of carcass ribeye at 475 days.

TERMINAL INDEX (TI): Dollars per cow exposed under a terminal-sire scenario. (See TI for more details.)

WEANING WEIGHT (WW): Pounds of weaning weight.

YEARLING WEIGHT (YW): Pounds of yearling weight.

YIELD GRADE (YG): Carcass yield grade score at 475 days.

\$ INDEXES: Though EPDs allow for the comparison of genetic levels for many economically important traits, they only provide pieces of the economic puzzle. This is where \$ indexes come in. Through well-conceived, rigorous mathematical computation, \$ indexes blend EPDs and economics to estimate an animal's overall impact on integrated commercial production. The same technology that led to the dramatic progress in swine, poultry and dairy genetics over the last several decades was used to develop the following \$ indexes:

ALL-PURPOSE INDEX (API): Evaluates sires for use on the entire cow herd (bred to both Angus first-calf heifers and mature cows) with the portion of their daughters required to maintain herd size retained and the remaining heifers and steers put on feed and sold grade and yield.

TERMINAL INDEX (TI): Evaluates sires for use on mature Angus cows with all offspring put on feed and sold grade and yield.

USING API AND TI: First, determine which index to use; if you are keeping replacements use API, if not, use TI. Then, just as with EPDs, zero in on the unit difference between bulls. (As described above, index units are in dollars per cow exposed.) The difference can be used to determine how much a bull is worth compared to another. Put another way, how much you can pay for one bull compared to another. For example, when buying an all-purpose-type sire, you can quickly figure a bull scoring +100 for API is worth an extra \$6,000 over a +50 bull if both are exposed to 30 cows over 4 years ($\$50 \text{ diff.} \times 30 \text{ hd.} \times 4 \text{ yr.} = \$6,000$). A percentile-ranking chart is required to determine where a bull's index value ranks him relative to other bulls in the breed.

For more detailed information about EPDs and \$indexes, visit: www.simmmental.org Important disclaimer: DO NOT compare index values of purebreds of different breeds, hybrids of different breed composition or purebreds with hybrids - our system was not developed to make valid comparison among these groups. Therefore, you must first determine the breed and breed composition appropriate for your herd and use index values to compare animals within that population.
